Parents rights and COPPA (Children's Online Privacy Protection Act)

The Dixon Unified School District is pleased to be able to offer individualized instruction to students through a variety of technological resources. In some instances, the District will offer educational websites or applications that utilize personal information of students, such as name, screen name, user name, etc., in order to provide the individualized instruction. A list of such websites and applications and links to their terms and conditions may be found on the District website.

Additionally, the District tries to avoid websites and applications that market or sell student personal information. Should such a website or application be utilized for educational purposes, it will be identified on the District website and parents have the right to opt out of student use of such websites and applications.

The Children's Online Privacy Protection Act

The Children's Online Privacy Protection Act ("COPPA") is a federal law governed by the Federal Trade Commission ("FTC") that controls what information may be collected from children under the age of 13 by companies operating websites and mobile applications. (15 U.S.C. § 6501, et seq.) COPPA requires companies to post a clear privacy policy on their website or mobile application, provide notice to parents, and obtain parental consent before collecting personal information from children under the age of 13.

Under COPPA, school districts¹ are authorized to provide consent on behalf of parents and may approve a student's use of an educational program. An LEA's ability to consent on a parent's behalf is strictly limited to the educational context. That is, an LEA may only consent on the parent's behalf if the personal information collected is used strictly for educational purposes and not for any commercial purpose. Additionally, the FTC recommends that an LEA provide notice on its website identifying all of the websites and applications for which the LEA has provided consent on a student's behalf.

Collection of Student Information from Social Media (California Education Code § 49073.6)

Student Information and Social Media Notice

Anytime a school district considers a plan to gather pupil information obtained from social media, it is supposed to notify students and parents about the proposed program and provide the opportunity for public comment prior to adoption of the program.

While the District does not intend to make a practice of reviewing student social media accounts, from time to time the District may be required to investigate online content in response to a report of cyber bullying, threats, or other misconduct, in an effort to ensure a safe learning environment. Student safety is the District's top priority and we welcome the opportunity to further discuss bullying prevention, the school safety plan, or any other related issues to District investigation strategies at the August 18, 2016 Board meeting.

Adoption of Plan Related to Student Information and Social Media

Designated District staff are granted the authority to conduct a reasonable investigation into

alleged student misconduct, including an Internet search of public content, which includes social media sites, as defined in California Education Code section 49073.6, for evidence of such misconduct. The purpose of such an investigation would be to protect the safety of District students.

Any District staff member who has not been designated with this authority should refrain from collecting or maintaining in student records any information collected from student social media pages without first seeking approval from a District administrator and following proper procedures, including student/parent notification, and well as a public hearing prior to conducting such a program.

PUPIL AND FAMILY PRIVACY

It is the district's policy that personal information concerning students and their families should be kept private in accordance with law. District staff is prohibited from administering or distributing survey instruments to students for the purpose of collecting personal information for marketing or selling that information. Any personal information disclosed during counseling with a school counselor either by a pupil 12 years of age or older, or by a parent or guardian of a pupil 12 years of age or older, shall be kept confidential except as provided by law. (Education Code § 49602) (Subject to Board and/or Superintendent approval of revised district policy and/or regulation).

PUPIL PARTICIPATION IN SURVEY

No pupil shall be given any test, survey, questionnaire or examination containing questions about personal or family beliefs or practices in sex, family life, morality or religion without affirmative parent consent. However, anonymous, voluntary and confidential research and evaluation tools to measure students' health behaviors and risk, including tests, questionnaires and surveys containing age-appropriate questions about the student's attitude concerning, or practices relating to sex, may be administered to any student in grades 7 through 12 if parents or guardians have not requested in writing that their child not participate. (Education Code §§ 51513, 51938. 60614:20 U.S.C. 1232h(a) and (b)) (Subject to Board and/or Superintendent approval of the revised district policy and/or regulation.)

POLITICAL AFFILIATIONS/BEHAVIOR/ CLOSE FAMILY RELATIONSHIP SURVEY

Parents will be notified in writing if a test, questionnaire, survey or examination is to be administered to your child containing questions about his or her, or your: political affiliations or beliefs, illegal, anti-social, self-incriminating, or demeaning behavior, mental or psychological problems, lawyer, physician, minister, critical appraisals of individuals with whom you have close family relationships and income (except as required by law to determine eligibility for participation in a program or for receiving financial assistance under such program). Parents have the right to inspect all instructional materials, including teacher's manuals, films, tapes or other supplementary material to be used in connection with any survey, analysis or evaluation. Parents have the right to consent to the administration of such test, questionnaire, survey or examination. (20 U.S.C. §1232h (a) and (b))

3. Activities involving collection, disclosure, or use of personal information collected from students for marketing or to sell or otherwise distribute the information to others.
