A PERFECT BLEND

# I SPY: IN THE CAR

# SPEECH ON-THE-GO

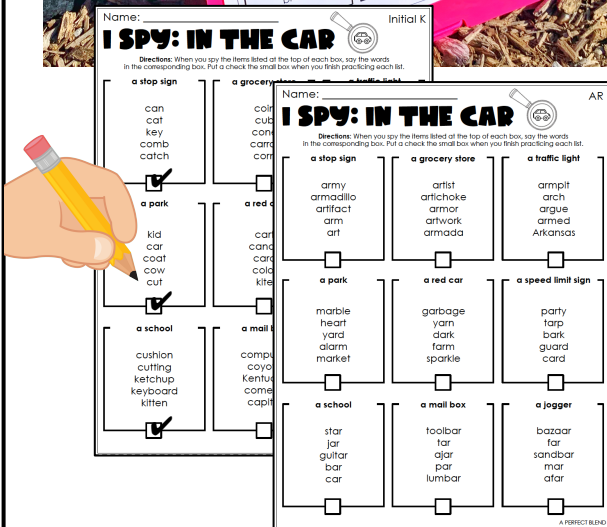

These **NO PREP** articulation pages help make home practice and carry-over easy! As students locate the items in the community, they say the words in the box.

## RESEARCH-BASED

Research has “found that a target sound carried over to conversational speech at home and in the clinic after rapid word list training.” (Bankson and

Byrne- 1972)

Parents can also be used effectively in the carryover program for articulation. (Wing and Heimgartner- 1973).
