Oracle Elementary School District Staff and Community,

The Arizona Department of Health Services has reviewed and approved the recommendation of the Pinal County Public Health Department to close the Oracle Elementary School District due to COVID-19 related concerns in the area. The physical campus of Mountain Vista K-8 School will remain closed until further notice.

The second academic quarter will continue online through Friday, December 18, 2020. The third academic quarter will begin online on Monday, January 4, 2021. All certified staff has been notified and will teach from home. All classified staff has been notified and if possible, will also work from home.

Arizona Department of Education is aware of the closure and is aware that our on-site support program mandated by Executive Order 2020-51, known as our Cares Program will also be closed during the duration of the campus closure.

Given the rise of COVID-19 positive cases and concerns in our community since Thanksgiving, it is our hope to safely resume meal delivery and our Cares Program on Tuesday, January 19, 2021. However, we will continue to evaluate and monitor our ability to safely return to campus and will keep you informed.

During the closure, our offices will be closed and will not be able to retrieve voicemails in a timely manner. For immediate concerns, please contact me or Shannon Soule directly via email.

Thank you,
