

Day 14 – Math Answers

1. C. 12

$$5 + 8 + 11 + 15 + 21 = 60$$

$$60/5 = 12$$

2. B. 11

Median is the middle number. Put the numbers in order from lowest to highest. Since there are 5 numbers, the third number is 11.

3. C. 6

Mode is the number that occurs the most. Since 6 occurs three times, it occurs the most.

4. E. 7

$$2x + 3 = 3x - 4$$

$$3 = 3x - 2x - 4$$

$$3 + 4 = x$$

$$7 = x$$

5. B

Convert all fractions to a decimal.

0.28, $3/10$ (.30), $1/3$ (.333), 0.37, $3/8$ (.375), $2/5$ (.400)
