## We were facing a serious dilemma

I recently read a quote that said, "Patience is the greatest of all shock absorbers. About the only thing you can get in a hurry is trouble". Many of us, oftentimes lack patience. Last month I wrote you about a matter that had been significantly impeding our broadcast consistency for several months; and more frustrating was that it was due to no fault of our own. "It was just the way things were", we were told. In an effort to help us with a fix, **it**

was recommended that we make a sizable capital investment that we're not equipped to handle.

As you can imagine, we were facing a serious dilemma. If we can't broadcast consistently we lose listeners. A meeting was called with our technical staff and an immediate decision was made... "Wait." Esau made a quick decision based on emotion and it cost him his birthright. Immediate need or fear rules the decision-making process. It's part of the human

condition.

Due to your faithful prayer and financial support, the very next day our engineer found a solution that cost a fraction of the fix given by our vendor. Prov. 3:5 says, "*Trust in the Lord with all you heart, and lean not on your own understanding; in all your ways acknowledge Him, and He shall direct you paths.*" We encourage you to wait the next time you're faced with a big decision to not be hasty, but wait. Easier said, than done, right? Continue to seek Him!

Thank you again for your faithful support that makes it possible for this work to happen. [Support on line.](#)
