PROGRAM DESCRIPTION:

The Patient Care Technician (PCT) program requires about six months of training. Nursing assistants commonly work in nursing care facilities and hospitals, but some are employed by doctors' offices, community care facilities and home health care services. The program includes classroom lectures, hands-on training using medical equipment, practical exercises in labs, and real-world experience in a variety of medical facilities and provides more than a CNA certification.

OCCUPATION DESCRIPTION:

Home Health Aide: Provide routine individualized healthcare such as changing bandages and dressing wounds, and applying topical medications to the elderly, convalescents, or persons with disabilities at the patient's home or in a care facility. Monitor or report changes in health status. May also provide personal care such as bathing, dressing, and grooming of patient.

Nursing Assistant: Provide basic patient care under direction of nursing staff. Perform duties such as feed, bathe, dress, groom, or move patients, or change linens. May transfer or transport patients. Includes nursing care attendants, nursing aides, and nursing attendants.

PRE-REGISTRATION COSTS:
