Superintendent's Comments:

Mr. Henson stated Fannin Regional Hospital is providing a no-cost EKG for all students that are signing up for Fannin County High School's football program. This will be offered before football practice begins, done at the school by health care professionals, and interpreted by a licensed doctor of medicine. An EKG is a non-invasive procedure that checks for problems with the electrical activity of the heart. This is not mandatory but offered as an extra service to your student's health in addition to the yearly physical. If you have any questions, please contact school nurse Sandy Acker, RN, at 706-632-2081.

Mr. Henson stated he would like to make plans for a strategic planning session either the last week of April or the first week of May. Mr. Henson stated he would check with board members individually to see what dates work best for them.

Mr. Henson asked Karen Walton, Director of Curriculum & School Improvement, to give board members an update on spring benchmark data. Mrs. Walton explained students had been tested three times this year and the results she handed out showed the improvement students were making as the year progressed. Mrs. Walton stated benchmarking allowed teachers to identify areas students needed additional instructional time on.
