What to expect on fair day!

When: March 14th
Where: SJRCS

1. Please bring your project to SJRCS in the morning between 9:15 and 9:25. When you arrive through the SKD Doors, please check-in at the registration table, set up your project, and make sure you have everything needed to showcase your project (remember an extension cord if your project requires electricity). Bring extra materials for last minute repairs; scissors, tape, glue, paper.

2. Stay with your project during your scheduled interview time, between 9:30 – 10:30. Interviewers will visit and ask questions. Be sure to share whatever information you learned.

3. Take a few moment to look around and see what other students are presenting, and don't be afraid to ask questions. Please be respectful of other student's work, and always ask before you touch. Please walk and use inside voices.

4. Please take your entire project home at day’s end.
