The school year is approaching, and now is the time to plan for your child's required school immunizations. Updates to the Georgia required vaccinations means your student will need to show proof of a meningococcal booster shot before starting 11th grade. We're here to help, visit one of our drive-thru clinics to get your student vaccinated. Students must be accompanied by a parent/guardian age 18+. Please bring proof of insurance. Vaccination will have no out-of-pocket cost and uninsured students will not be charged.
