School Profile

Welcome to C.A. Jacobs Intermediate School, home of the Cougars! As you walk through the doors of C.A. Jacobs, you will feel the warmth and welcome of the school that supports all students. Each year is dedicated to furthering and supporting the ongoing academic, personal, and social growth of our students. We work together to build upon our successes as well as in adapting to the changing needs of our students and school community. A key idea in our approach to student achievement is to carefully consider and address individual student needs. We believe all students can learn and that it is our collective responsibility to ensure that they all learn at high levels. We accomplished through providing a challenging curriculum that is delivered in a safe environment by a dedicated, nurturing staff.

C.A. Jacobs Intermediate School is located in The City of Dixon which was founded in 1868 upon the rich farmlands of Solano County. Linked with the rest of California in 1874 by the Southern Pacific Railroad, Dixon merged with nearby Silveyville residents to form what is today one of the most productive agricultural communities in Northern California. While historically an agricultural town, Dixon, California is now primarily a residential community of 18,000 for people who work in Sacramento, Davis, and the San Francisco Bay Area. While the city has experienced growth it remains a "small town at heart," whose residents pride themselves on the high level of community involvement.

C.A. Jacobs Intermediate School is the only middle school in the Dixon Unified School District which serves approximately 4,050 students K-12 in three elementary schools, one middle school, one comprehensive 9-12 high school, and several alternative programs such as Maine Prairie Continuation High School, the Options Center, Dixon Community Day School, and Independent Study programs. During the 2012-13 school year, C.A. Jacobs Intermediate School served 557 students who were enrolled in grades 7th and 8th.

Parental Involvement

Parents play an important role at C.A. Jacobs Intermediate School through active participation and involvement in the School Site Council, English Learners Advisory Committee, Music Boosters, Safety Committee, our Parent/Teacher organization, 7th grade orientation, Back to School Night, Open House, and parent/teacher conferences. Parents are welcome to volunteer in classrooms and at school activities. C.A. Jacobs Intermediate School also benefits from donations and partnerships with local businesses and services, including, Dixon Florist, Dixon Rotary Club, Kiwanis Club, Walmart, Ellensbury Lamb CO Inc.

School Safety

The safety of students and staff is a primary concern of C.A. Jacobs Intermediate School. The School Site Safety plan is evaluated and revised annually by the Safety Committee. Key elements of the Safety Plan are the school's physical environment, social environment, cultural environment, and the Emergency Response Team. C.A. Jacobs Intermediate School maintains a disaster preparedness plan and a crisis intervention plan which lays out steps that are to be taken to ensure student and staff safety during a disaster or crisis. The school is in compliance with all laws, rules, and regulations pertaining to hazardous materials and state earthquake standards. Fire, disaster drills, and Lockdown/School Intruder Drills are conducted on a regular basis throughout the school year. Students are supervised throughout the day by teachers and noon duty supervisors. All visitors to the school must sign in first at the school office and receive a visitor's badge.

CAJ's staff received training in BEST (Building Effective Schools Together) a program based on positive behavior supports that help schools develop and implement positive school rules, rule teaching, and positive reinforcement systems schoolwide. This positive behavioral approach which is designed to reduce behavior problems and create an environment more conducive to learning has been fully implemented schoolwide.

School Facilities

C.A. Jacobs Intermediate Schools' campus was originally built in 1964. Modernization was completed in 2004 using State School Facilities Program and local Measure V general obligation funding in 2002/03. The school currently contains 16 permanent, and 9 portable classrooms, a band room, a gym, a computer lab, a multipurpose room, a library, and an administration building, blacktop area for basketball courts, soccer field, and a softball field. All school rooms/spaces have internet access and phones. 100% of our bathrooms are in working order. *Cleaning Process* - The principal works with the custodial staff to ensure that cleaning is maintained to provide for a clean and safe school. The supervisor of maintenance and operations coordinates in-service training for the custodial staff. The district has adopted the CASBO Custodial Handbook and applied the cleaning standards and care of equipment for this purpose. *Maintenance and Repair* - District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and highest priority is given to emergency repairs. The Dixon Unified School District along with North Bay Insurance performs yearly safety inspections with the purpose of identifying and correcting any and all safety issues and concerns.

Curriculum & Instructional Materials

All curriculum decisions and development at C.A. Jacobs Intermediate School are currently transitions to the California Common Core State Standards. C.A. Jacobs Intermediate School analyzes testing data to assess areas in the curriculum that need improvement. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. Quality of all materials is reviewed annually and replacements are ordered. All classes have sufficient materials and reviewed annually to reach compliance with the Williams Act. The table displays information collected in May 2013 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement if they do not make AYP for two consecutive years in the same content area (ELA/Math) or the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year they do not make AYP. Detailed information about PI identification can be found at the CDE AYP web page: www.cde.ca.gov/ta/ac/ay.

Core Academic Class Taught by No Child Left Behind Compliant Teachers (2012-13 School Year)

This table displays the percent of classes in core academic subjects taught by No Child Left Behind (NCLB) compliant and non-NCLB compliant teachers in the school, in all schools in the district, in high-poverty schools in the district, and in low-poverty schools in the district. High poverty schools are defined as those schools with student participation of approximately 75 percent or more in the free and reduced price meals program. Low poverty schools are those with student participation of approximately 25 percent or less in the free and reduced price meals program. More information on teacher qualifications required under NCLB can be found on the CDE Improving Teacher and Principal Quality Web page at <http://www.cde.ca.gov/nclb/sr/tq/>.

Adequate Yearly Progress

The NCLB requires that all schools and districts meet the following AYP criteria:

- Participation rate on the state's standards-based assessments in English-Language Arts and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information regarding AYP can be found at www.cde.ca.gov/ta/ac/ay/

Standardized Testing and Reporting Results for All Students – Three Year Comparison

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CST's); the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The CST's show how well students are doing in relation to the state content standards. The CST's include English-language Arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and nine through eleven. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CST's with accommodations or modifications or the CMA with accommodations. The CMA includes ELA for grades three through eight and science in grades five and eight and is an alternate assessment based on modified achievement standards. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations or modifications of the CMA with accommodations. Student scores are reported as performance levels. Detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, can be found on the CDE Standardized Testing and Reporting (STAR) Results Web site at <http://star.cde.ca.gov>.

Data Access

DataQuest:

DataQuest is a search engine located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, county and the state. DataQuest allows parents and community members to access accountability reports such as; API, AYP, test data, enrollment, graduates, course enrollments, staffing and data pertaining to English Learners.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
