Percentage of Items Fully Met on Current Assessments

This graph compares the total number of assessment items fully implemented (marked as a "3") on the most recent SHI assessment by module or topic to the total number of assessment items that **could be fully implemented** for all schools with a completed assessment by module or topic within the district, state or nation. Note that a school does not need to be fully meeting in all assessment items to be eligible for a Healthy Schools Award. Nutrition and Physical Activity topics refer to the collective assessment questions pertaining to the specific topics.

Action Plan Item Selection Rate

This graph compares the total number of action items **selected and in progress** by module or topic to the total number of action items that **could be selected** for all schools with an action plan by module or topic within the district, state, or nation.
