

FIRST AID AND EMERGENCY MEDICAL CARE

No treatment of injuries except first aid shall be permitted in Centennial BOCES schools. First aid is that immediate help given by the best qualified person at hand in case of accident or sudden illness.

During the school day and during school sponsored events, including those off-site, at least one staff person shall be on duty that has a current certification from a nationally recognized course in standard first aid and CPR. First aid kit shall be stored and properly maintained in each school in accordance with applicable state rules.

Any person who in good faith provides emergency care or assistance without compensation at the place of the emergency or accident shall not be liable for any civil damages for acts or omissions in good faith. State law also exempts from civil liability certain health care providers who render emergency assistance in good faith and without compensation to persons injured in a competitive sport activity.

Treatment of injuries occurring outside school jurisdiction is not the responsibility of Centennial BOCES employees.

The school's obligation continues after the injury until the injured student has been placed in the care of the parent/guardian or emergency health personnel. Therefore, the parents/guardians of all students shall be asked to sign and submit an emergency medical authorization form which shall indicate the procedure they wish the school to follow in event of a medical emergency involving their child.

In all cases where the nature of an illness or an injury appears serious, the parent/guardian shall be contacted if possible and the instructions on the student's emergency card followed. In extreme emergencies, where there is potential threat to life, limb or digit, Centennial BOCES personnel shall immediately call emergency health personnel to arrange for transporting the student to an emergency facility on advice of emergency health personnel.

No elementary student who is ill or injured shall be sent home alone, nor shall a secondary student be sent home alone unless the illness is minor and the parent/guardian has consented in advance.

LEGAL REFS.: C.R.S. 13-21-108 civil immunity for persons rendering emergency assistance
 C.R.S. 13-21-108.5 civil immunity for health care providers who assist in sports injuries
