Presenter	Jennifer Trusock
Audience	Teachers Grades K-6 – ALL CONTENT, including Math PREREQUISITES – Math Talk Moves Parts 1 and 2, offered earlier this year <i>Contact Jenni Trusock (jtrusock@huronisd.org) with questions</i>
Description	In prerequisite courses, teachers learned how to use Talk Moves to promote sustained and productive classroom talk and also examined how to establish classroom norms that support respectful discourse and equitable participation. In this course, participants will answer this question: “The Mathematics: What do we talk about?” <ul style="list-style-type: none"> • In Session 1, participants will use video clips to discuss the role of number patterns in learning mathematics. Teachers will also explore Math Routines such as Today’s Number, Same But Different? and others. • In Session 2, participants will learn about three categories of word types that can cause students difficulties in mathematics using classroom video clips. • In Session 3, teachers will share their experiences in using Math Talk with their students and also discuss the components of a talk-based lesson plan focused on strategies for adding three numbers. <p>SECOND-GRADE TEACHERS: The video clips in this course come from kindergarten and first-grade classrooms. There will be a Talking About Math Grades 2-4 course offered in January featuring video clips from third- and fourth-grade classrooms. Both courses will apply to Grade 2; you are encouraged to select the course(s) that makes most sense for you. Contact Jenni Trusock (jtrusock@huronisd.org) with questions.</p>
Stipend	Stipends MAY be available if pre-approved by your superintendent or principal; please check with your district administrator.
Registration	Register online by Friday, October 23, 2020 at www.huronisd.org , Professional Development link
