

Ins and Outs of Dual Enrollment 2020-2021

What do I do now that I've been accepted to my college?

- Contact your college and ask about orientation. Usually at orientations you will register for classes, get your parking pass, college ID, and find out about your books. Some schools have a separate registration and orientation. Here is who you should contact:

Central Georgia Tech College

Areulior Thompson

478-218-3787

athompson@centralgatech.edu

Middle Ga. State University

Ashley Turner

478-929-6678

Advising Appointment:

Georgia Military College

rob_admissions@gmc.cc.ga.us

- For every class you want to take at the college, you can have two periods out of your PHS school day. You do not have to take the two periods out of your schedule if you do not want to.
- Make sure the classes you register for at the college fall within the periods you want to miss at PHS. We recommend for one class being out 1st-2nd periods and for two classes being out 3rd-4th periods. We cannot give you permission to be late for a class at the high school due to your college class times.

- Please remember that your counselor at Perry High is responsible for helping you take the classes you need to graduate. We are not college counselors and cannot advise you on what classes you need for your major or to get an associates degree. We are also not responsible for knowing if your college classes will transfer when you graduate. You must contact the college for this information.

- We do not recommend students take an online class for their first college course. We have found that our students perform better in traditional classroom settings. If you wish to take an online class, please be mindful of deadlines and that there is an online orientation you must complete. You can still get two periods out of your PHS schedule for an online course.

- Colleges do not honor our PHS time off tasks. If you miss a lot of school for any reason, please keep this in mind before registering for college courses.
- Colleges also may not follow the Houston County schedule as far as holidays and breaks.

- PHS cannot provide tutoring for your college courses. Please contact your professor and utilize the study options offered at your college.
- Dual Enrollment can affect your graduation and does affect your grade point average.
- If you drop a course at the college, it may not affect your grade point average but can affect your academic progress and your ability to continue with dual enrollment.

- Colleges will not communicate with counselors or parents. Students must be mature enough to talk with their professors and handle any issues they may encounter. Colleges do not use infinite campus and only students have access to their college grades through their college platform.

Dual Enrollment Changes for 2020-2021

1. DE will only pay for up to 30 semester or 45 quarter hours. After these hour caps are met, parents have the option to pay for more hours.
2. The list of courses that are approved for payment through DE include only English, math, science, social studies, foreign language, and some vocational courses. PE/art/and many other courses will no longer be funded through DE.

3. Sophomores are no longer eligible for DE unless they have the an ACT score of 26 or a SAT score of 1200.

4. Students are only allowed to drop 2 courses before they will be removed from the DE program.

5. Students cannot retake a course they have previously completed for a better grade.

- Dual Enrollment Economics will be offered on the PHS campus through CGTC beginning fall of 2020. This class will be included in your Dual Enrollment cap hours.

Dual enrollment funding application and participation agreement

Every year you must fill out the dual enrollment funding application and participation agreement. Beginning this summer this is done through gafutures.org.

Begin by creating your account. Make sure you write down your account information as we do not have it at the school.

Click on the 2020-2021 Student Application for Dual Enrollment Funding. This is located in a box to the right side of the screen.

Students will begin by filling out their section of the funding application.

The students will be instructed to enter an email for their parents. The parents will then be sent an email to complete the application and give their permission for the student to enroll in Dual Enrollment.

Once the parents have completed their part, PHS will use this application to approve the courses for funding. Without filling out this application, a student will not be able to participate in Dual Enrollment.

How do I know what classes to register for at the college?

You can take any classes that are on the Dual Enrollment funding list. This list can be found at gafutures.org. Here is an example of what many students take but you are not limited to this list.

Prerequisites are classes that have to be taken before another course can be taken.

Here is an example of some college courses students may take:

Junior year students	Senior year students
<ul style="list-style-type: none">*US History (no prerequisites)*American literature (Eng 1101/1102 are prereqs)*College Algebra (must have completed algebra 2 at the high school before this can be taken)*Government*Psychology*Basic science course	<ul style="list-style-type: none">*Economics (there are prereqs at some schools)*American literature (Eng 1101/1102 are prereqs)*College Algebra (must have completed algebra 2 at the high school before this can be taken)*Sociology*Biology*Anatomy*Statistics (there are prereqs)*Pre calculus (there are prereqs)

These are the classes that a general student would be in at PHS if you were not doing DE. These are the basic courses.

Junior Year	Senior Year
<p>American literature (this class cannot be replaced by an Eng 1101/1102 course)</p> <p>US History</p> <p>Chemistry</p> <p>Algebra 2 (cannot be replaced by a college course) or Precalculus</p> <p>3 elective courses</p>	<p>British Literature (can be replaced by Eng 1101/1102)</p> <p>Economics</p> <p>Anatomy (or any 4th science)</p> <p>A fourth math</p> <p>3 elective courses</p>

My last step??

Please scan the QR code and fill in the attached questions. We want to make sure your schedule is correct at PHS. We understand your college courses may change based on availability. Please have this completed by April 17. After this date we cannot guarantee that there will be available spots in your requested courses at the high school.
