HOW TO OPEN A LOCKER

FOLLOW THESE DIRECTIONS TO MAKE OPENING YOUR LOCKER EASY!

Step # 1. Spin the dial to the right → several times to clear the lock. Spin one more time to the right → stop on your first number.

Step # 2. Turn the dial to the left ← go past zero and your first number, stop on your second number.

Step # 3. Turn RIGHT → to the 3rd number. Don't spin too fast. (This is usually a short turn).

Step # 4. Pull down or push the handle up on the locker.
