

What you need to know about remote learning

When PUSD schools re-open for the 2020-21 school year on August 10th, we will do so using Remote Learning.

All PUSD students enrolled in Page pre-school, Lake View Elementary, Desert View Intermediate, Page Middle School, Page High School and Manson Mesa High School will be in a Remote Learning environment.

All classes will be led by PUSD teachers. Teachers will interact with their students, and present curriculum using Google Classroom. Students will participate by logging on to a Chromebook (grades 3-12) or iPad (grades K-2) and joining their teacher on Google Classrooms.

Teachers will be able to see their students on their screens. Teachers will be able to receive and answer questions from their students.

Teachers can create smaller break-out groups using Google Classroom.

Teachers will be able to use whiteboards and record their classes.

K-2 teachers have the option of using Seesaw as one of their teaching platforms.

Students will log-in to a District-issued Chromebook (grades 3-12) or a District-issued iPad (grades K-2).

PUSD will provide login instructions for your student's device.

PUSD will provide a help desk to assist parents/guardian with site navigation or technical issues.

PUSD will provide instructions how to use the flash drive and how to clean and care for your device. The District will provide a cleaning kit for the device.

Devices will include firewalls, web filters and virus protection.
