

September 30, 2020

Dear Parents and Guardians,

Each year the Brigantine Public School District conducts formative and summative assessments to gain a clear understanding of what students know and comprehend. This year students will be assessed in remote and in-person learning environments.

The Brigantine Community School formatively assesses students in a multitude of ways including classroom work samples, teacher constructed tests, grade level benchmark tests, and student/group project based learning assignments. As a learning community we value a complete, well rounded picture of student achievement that combines classroom performance and achievement on teacher developed assessments.

Our school district also administers summative assessments of student learning that can be state mandated and/or commercially developed. Summative assessments record the status of student learning at certain points in a student's academic career in particular grades and at the end of each school year.

As required by statute, N.J.S.A 18A:7C-6.6, all school districts must provide parents or guardians information on any state assessment or commercially-developed standardized assessment that will be administered in that school year. The table attached includes state and commercially-developed standardized assessments administered throughout the 2020-2021 school year.

If you have any questions, please feel free to contact me or Principal Fox.

Sincerely,

Bonnie Marino
