

THE NAUTILUS SECRET GARDEN CLUB 2016-2017

Nautilus Elementary School

Our Purpose

Our Purpose: The Nautilus Garden Club was created to encourage students in making meaningful choices for their future. Students cultivate, nurture, and aid in sustaining a healthy environment. Recycling is a major topic of conversation. We discuss ways in reducing and reusing natural resources. Students assist in the germination process of a seed, they understand the importance of nutrients needed to help plants grow, and they benefit from its harvest. Members fundraise to help purchase materials needed for major projects. Most recently the club wrote letters in support of the San Diego Clean Water Movement.

SB Clean Water Movement

All the way from Lake Havasu city! Thank you to Coronado High School Alumni & teacher, **Carrie May Wilcox** for having her Secret Garden Club students from Nautilus Elementary write letters to our representatives! There were some heartfelt words ❤️ written by the children. Thank you guys!!! Your support is amazing!!

TUESDAY AT 7:55 AM NEAR IMPERIAL BEACH, CALIFORNIA

Our Future

Grow lights assist with fresh, homegrown food, regardless of climate and season. The Tower Garden Grow Lights Kit allows you to easily grow leafy greens, herbs and other non-fruiting crops indoors year-round.

\$45.25 per month for 12 months for the garden growing kit. \$219 for grow lights.
