Parts of Speech For Beginners

The following freebie is a stand-alone packet introducing simple pronouns to replace nouns depicted in pictures.

If desired, this packet can also be combined with the other packets in the [Parts of Speech for Beginners](#) series.

Ideas:

- *Laminate the pages that are in color and use in a center or small group activity.
- *Use the black & white pages to follow-up the small group activity with homework or independent work.
- *Cut the boxes apart and use clothespins to 'clip' the correct pronoun.
