MEDICAL ASSISTANCE

- Parents of Children with Special Needs / Chronic Medical Conditions
 - Are you aware your child may be eligible for medical assistance?
 - These benefits are not dependent on parent's income
 - Your child may be eligible even if you have other insurance
 - This may pay for services denied by other insurance and copays
 - All children born premature or with developmental delays should apply
- Contact your County Assistance Office (CAO)
 - If you experience problems: Ask to speak to a supervisor
- Write boldly on application **MA only Child with a Disability**
- Submit a current statement from your doctor explaining about all medical conditions
- Provide this information to *both* your CAO and if applying to the SS office

CARE COORDINATION PROGRAMS: Ask for a Case Manager in the Special Needs Unit

This number is for SKN-ask to be connected to the Harrisburg Programs for the following conditions: (Income Eligibility/Use a participating provider)

Cooley's Anemia	Cystic Fibrosis
Congenital Heart	Spina Bifida
Chronic Respiratory	Cleft Palate
Orthopedic	Hemophilia
End Stage Renal Disease	Traumatic Brain Injury
Hearing/Speech/Language Impairments	

For Medications-PA Patient Assistance Program Clearinghouse 800-955-0989 (worth a call)

TIPS FOR TRANSITION FROM SCHOOL TO ADULT SERVICES

www.health.state.pa.us/transitionchecklist

Youth may be able to continue on their family's private insurance plan as long as they are considered an "adult disabled dependent child" or are in school/college

- Ask Human Resources or Insurance Company for information/application. This information should include the process and form for the doctor to complete
- Include all medical conditions
- This may be available as the youth leaves high school

Adult Disabled Dependent Child - Depending on Company and Policy

- May continue on family plan if dependent for life
- Be on family plan prior to turning 18
- Annual re-certification - disability & dependent

Student Status - Depending on Company and Policy

- Proof of college class load each semester (often requires full-time status)
- Ages 18 - 22, sometimes older
- Annual re-certification

For more information please visit www.hrtw.org

The Health Insurance Portability and Accountability Act (HIPAA) - stands also for portability

- When changing Group Health Insurance get a certificate of coverage for portability
- This will waive the waiting time and any increased costs for pre-existing conditions
- You can contact your health insurance plan for more information about how the **certificate of coverage** will apply to your specific situation

Social Security as an adult is one pathway to public insurance (Medical Assistance)

Youth receiving SSDI benefits as a child will need to reapply as an adult with disabilities

Youth may want to apply for MAWD-Medical Assistance for Workers with Disabilities

It is critical to have current evaluations and assessments including educational, medical and psychological. These are needed to apply and qualify for many services and programs

Remember to return to the doctor for prescriptions and referrals for testing and services paid by public and private insurance

Depending on whether private or public insurance is used as primary, explore the type and level of services available. Check if covered services meet the needs of the youth

Be sure to show all service providers all insurance cards

Keep updated on National Healthcare Reform Law www.whitehouse.gov/healthreform or www.PAFairCare.com or in PA call 877-881-6388

REMEMBER: at certain ages, services and benefits change from entitlement to eligibility

WHAT IS A MEDICAL HOME

A medical home is not a building, house or hospital, but rather an approach to providing health services in a high-quality and cost-effective manner. A medical home is defined as health care that includes coordination of care

WHAT DOES IT MEAN FOR YOUTH

With health care services for adolescents who have special needs, the focus is on promoting physical and mental health as part of a successful transition from youth to adulthood

WHAT CAN FAMILIES AND YOUTH DO

- ▶ Contact the PAAAP or the PAFP to see if there is a medical home practice near you
- ▶ Talk with your doctors to see if they are connected to the PAAAP or PAFP and are they interested in participating in the Medical Home Projects
- ▶ For more information you or your doctors may contact the above programs
