

The school board has established attendance zones to facilitate the district's educational programs by regulating attendance, as efficiently as possible, at the various school buildings. Such zones are subject to periodic revision as deemed necessary by this board.

A student will attend school in a building serving his or her attendance zone whenever possible. The student's attendance zone is based on his or her residence at the time of enrollment. The student's residence is the address of the parent or guardian enrolling the student. Proof of residency may be required. If the parent or guardian moves to a different attendance zone, the student will be transferred to the appropriate building. However, the superintendent is authorized to permit a student to complete a grading period in the initial attendance zone when such action is deemed to be in the best interest of the student.

All requests for an intra-district transfer must comply with the district's Open Enrollment policy. Deviation from this policy may occur for the education of exceptional children.

The attendance zones for this district are as follows:
