INDEPENDENT AUDITOR'S REPORT

Board of Trustees White Pine County School District Ely, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of White Pine County School District, State of Nevada (a Nevada local government unit) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of White Pine County School District, as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Report on Summarized Comparative Information

We have previously audited White Pine County School District's financial statements for the year ended June 30, 2019, and our report dated November 30, 2019, expressed an unmodified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2019, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedules related to pensions and OPEB and related notes, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the White Pine County School District's basic financial statements. The major fund comparative balance sheets, the combining and individual fund nonmajor fund financial statements, certain budgetary comparison information, as listed in the table of contents, combining statement of changes in assets and liabilities-agency funds, and schedule of extraordinary repair fund are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance, and is also not a required part of the basic financial statements.

The major fund comparative balance sheets, combining and individual fund nonmajor fund financial statements, certain budgetary comparison information, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the

auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the major fund comparative balance sheets, combining and individual nonmajor fund financial statements, certain budgetary comparison information, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The combining statement of changes in assets and liabilities-agency funds and schedule of extraordinary repair fund have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 23, 2020, on our consideration of White Pine County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering White Pine County School District's internal control over financial reporting and compliance.

White Pine County School District Management's Discussion and Analysis June 30, 2020

This section of the White Pine County School District's annual financial report presents a discussion and analysis of the District's financial performance for the fiscal year ended June 30, 2020. Management's discussion and analysis (MDA) is supplementary information that is intended to provide a readable analysis of the District's financial activities. The MDA is required *before* each basic financial statement and provides an analysis of the District's overall financial position to help the user assess the District's financial position compared with the prior year's activity. We encourage readers to read the MDA in conjunction with the letter of transmittal and the financial statements which immediately follow this section.

Financial Highlights

- The District qualified as a low-risk auditee and the auditor's report offered an unmodified opinion. This provides the highest level of assurance of financial activity and affirms that these financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the White Pine County School District.
- Net position improved by \$2,808,359. This has allowed the school district to build reserves so it is better prepared to deal with sustained, adverse economic events.
- Cash and investments totaled \$5,916,235 which was an increase of \$493,681 over FY2019.
- The General Fund ending balance increased by \$2,132,546. The unassigned General Fund balance was \$5,440,505. This is approximately 47% of total expenditures (including transfers).
- The Debt Service fund balance increased to \$1,592,200 despite transferring \$300,000 to fund capital projects. The fund balance is approximately \$1 million in excess of required reserves and available to fund capital improvements,
- Total assets (net of depreciation) exceeded total liabilities by \$9,188,847 or ratio of \$1.33 of assets for each \$1 of liability (\$1.33 to \$1.00).
- Current assets exceeded current liabilities (i.e. current ratio) by \$8,303,154 or by a ratio of \$4.31 to \$1. This includes the current portion of long-term debt.
- Total deferred inflows of resources exceeded total deferred outflows of resources by \$455,635. This means that acquisition of net assets was more than consumption of net assets.
- Total governmental revenue increased by approximately \$1,751,916 or 3 % and the General Fund revenue increased by \$1,231,486 or 9.3%.
- Total governmental revenue exceeded total governmental expenditures by \$2,296,143.

- Net proceeds of minerals, which is an indicator of mining viability and sustainability, totaled \$1,811,006 or 12.6% of total general fund revenue. This was in increase of \$460,529 over the prior year.
- The District was able to invest \$452,972 more into instruction and student and staff support compared with FY2019.

Overview of the Financial Statements

The ensuing discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements consist of the following components:

- 1. Government-wide financial statements
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

Notes to the financial statements provide additional detail and information about the District's accounting practices, financing arrangements, capital assets, and significant financial and economic events. Review of the notes helps the public understand the financial position. The audited financial reports provide a reasonable assurance about whether the basic financial statements represent fairly the District's financial situation.

The financial statement for FY2020 will focus on required annual reporting so many of the ancillary reports that were evident in prior audits, such as the letter of transmittal and statistics sections, have not been included in this report.

Government-Wide Financial Statements. The government-wide statements are designed to provide readers with a broad overview of White Pine County School District's finances in a manner similar to private-sector businesses. They consist of a Statement of Net Position and Statement of Activities. Prior to the implementation of GASB 63, the Statement of Net Position was referred to as the Statement of Net Assets.

<u>Statement of Net Position</u>: The Statement of Net Position reports all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. The "net investment in capital assets" represents the amount invested in capital assets, net of related debt..

The Statement of Net Position can be useful in assessing the District's ability to cover its costs and to continue financing services in the future. Comparing total assets with total liabilities provides information about what the District owns versus what the District owes. The Statement will also determine how much of the District's net assets can be used to provide new services or start new programs, versus how much is invested in capital assets or restricted for specific purposes. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

<u>Statement of Activities</u>: The statement of activities presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g. earned but unused vacation leave). The Statement of Activities also helps explain how the District's net position changed

during the fiscal year by providing a comparison of public services (expenses) and the resources obtained to finance services (revenues). This Statement is helpful in learning where the District gets its resources and how they are spent.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other state and local governments, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. Fund financial statements are used by government entities to provide details and report activity related to the District's governmental, business-type (a.k.a. proprietary), and fiduciary funds. White Pine, however, has no business-type activities to report.

<u>Governmental Funds</u>: Governmental funds report the finances of a school district's most basic services which are generally the same as the governmental activities. However, the governmental fund financial statements are prepared using the modified accrual basis of accounting instead of the accrual basis of accounting. Accrual accounting recognizes revenues and expenses in the accounting period in which they have been earned or incurred, regardless of when cash is received or paid. Generally, under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. Expenditures are recognized when the related liability is incurred. There are a few exceptions to the general modified accrual expenditure recognition criteria such as unmatured interest on general long-term debt but generally revenues are recorded as mentioned previously.

The governmental fund financial statements show the major funds (or larger funds) individually and total the remaining governmental funds in a single column. GASB Statement No. 34 specifies several provisions regarding major funds. Major fund reporting is required only for governmental funds and enterprise funds each year. Because this is done on a year-by-year basis, some funds may be major funds one year but not in another year. If the fund does not qualify as a major fund, it is included in the "other governmental" category.

<u>Major Funds</u>: Major funds represent the government's most important or significant funds. There are three provisions for determining which governmental funds and enterprise funds should be considered major funds:

- 1) The general fund is always a major fund.
- 2) Any other governmental fund or enterprise fund is required to be reported as a major fund in any year that the total assets, liabilities, revenues, or expenditures/expenses (excluding extraordinary items) of that individual governmental fund or enterprise fund are both:
 - a) 10 percent or more of the corresponding total (assets, liabilities, and so forth) for all funds of that category or type (i.e., total governmental funds or total enterprise funds), and
 - b) 5 percent or more of the corresponding total for all governmental funds and enterprise funds combined.
- 3) Any other governmental fund or enterprise fund that government officials consider particularly important to users may be reported as a major fund.

In addition to the major funds, individual fund data for each of the non-major governmental funds is provided in the form of combining statements elsewhere in the report (refer to the table of contents).

Notes to the Financial Statements. The notes to the financial statements disclose additional information essential to representing the District's financial status accurately and completely. They are an integral part of the financial statements and are necessary for a full understanding of the data provided. The notes disclose information such as accounting and budget practices; finance, legal and contractual information; financial obligations, and significant economic events and transactions. Refer to the table of contents for the location and page numbers of the notes to the financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information. The combining fund statements are presented immediately following the notes to the financial statements. The District may include other information it feels is necessary to help better understand this annual report and the financial condition of the District.

Government-wide Financial Analysis

The comparison of assets to liabilities provides an indication of the District's ability to meet current and long-term demands. The table below illustrates the net position of the District.

| Description | ne 30, 2020 overnmental Activities | June 30, 2019 Governmental Activities | Increase (Decrease) |
|--|--|---|------------------------|
| Current Assets | \$ 10,809,279 | \$ 10,735,777 | \$ 73,502 |
| Capital Assets | 26,580,305 | 26,935,304 | (354,999) |
| Total Assets | 37,389,584 | 37,671,081 | (281,497) |
| Total deferred outflows of resources | 3,180,182 | 2,720,233 | \$ 459,949 |
| Current Liabilities | 1,658,253 | 2,522,055 | (863,802) |
| Current portion of long-term liabilities | 847,872 | 807,091 | 40,781 |
| Long-term Liabilities | 25,694,612 | 25,885,874 | (191,262) |
| Total Liabilities | 28,200,737 | 29,215,020 | (1,014,283) |
| Total deferred inflows of resources | 3,635,817 | 5,251,441 | (1,615,624) |
| Net Position | | | |
| Net Invested in Capital Assets | 19,605,687 | 19,333,638 | 272,049 |
| Restricted | 3,107,384 | 2,943,319 | 164,065 |
| Unrestricted | (13,979,859) | (16,352,104) | 2,372,245 |
| Total Net Position | \$ 8,733,212 | \$ 5,924,853 | \$ 2,808,359 |

White Pine County School District's Net Position

Governmental accounting standards require that deferred outflows of resources be reported in the financial statements apart from assets and deferred inflows of resources reported apart from liabilities. The reason is that deferrals are not assets or liabilities and not revenues or expenses. They represent consumption and acquisition of future assets. Reporting them as revenues and expenditures would distort a government's actual financial position. Total deferred inflows of resources exceeded total deferred outflows of resources by \$455,635.

The District's assets exceeded liabilities by \$9,188,847 as of June 30, 2020 which is an increase from FY2019 of \$732,786. Assets decreased by \$281,497 while liabilities decreased by \$1,014,283.

The largest portion of total net assets, \$19,605,687, was invested in capital assets. Capital assets are items such as land, buildings, equipment and other physical, tangible items that are used in the regular course of business and are not easily converted into cash nor are they available for future spending.

A comparison of current assets and liabilities called a current ratio provides a liquidity measure of the District's ability to pay short-term obligations. Current assets are assets that are reasonably expected to be converted into cash within one year in the normal course of business. These include items such as cash, marketable securities, prepaid expenses and other items that can easily be converted to cash to pay liabilities. Current liabilities are obligations or expenditures that are due within one year. This includes the current liabilities and current portion of the long-term liabilities in the table above. Current assets exceeded current liabilities by a ratio of \$4.31 to \$1. This means that for each \$1.00 of current liability there was \$4.31 of current assets to cover what was owed.

<u>Changes in Net Position</u>: The Changes in Net Position provides a comparison of the resources (revenues) of the District with the costs of the services (expenses) including any extraordinary or special items and/or prior period adjustments. The total net position improved by \$2,808,359.

Business-type activities (also known as proprietary funds) reflect functions that are supported through user fees or charges other than typical governmental revenue that pay for the operation. The White Pine County School District currently has no business-type activities so the Statement of Activities will only reflect governmental activities.

Charges for services are comprised of tuition and nutrition program fees. Nevada and Utah school districts that border White Pine County enter into tuition agreements for students that attend schools in their neighboring district. The District has outsourced its nutrition program and this program charges students and staff for meals unless the student families qualify for free meals.

Capital grants and contributions are state, federal, private grants and donations for capital items. Capital grants and contributions are not ongoing sources of revenue and the total received in any given year will vary. Expenditures are limited by the donor or grantor and are typically used for non-recurring items.

General revenues consist of local taxes, state and federal aid, and other revenue. The funding mechanism for public instruction in Nevada is designed to reduce state funding when local sources are more than anticipated.

The following table illustrates the revenues, expenses, and changes in net position.

White Pine County School District's Changes in Net Position June 30, 2020

| | June 30 | , 2020 | | |
|---|---------|------------------------------------|--------------------------------------|------------------------|

Financial Analysis of the District's Funds

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. There are essentially three groups of funds for which financial statements are prepared: 1) governmental, 2) proprietary, and 3) fiduciary. Like other state and local governments, the District uses fund accounting to ensure and demonstrate compliance with finance and accounting related legal requirements. Fund financial statements

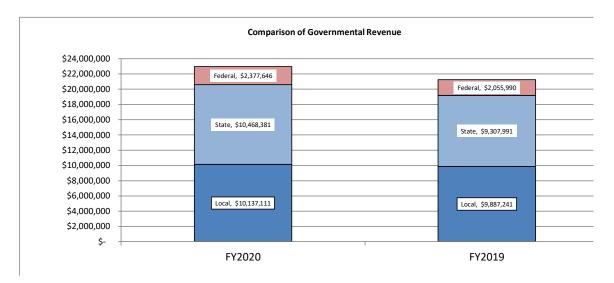

are used by government entities to provide details and report activity related to the District's governmental, business-type (a.k.a. proprietary), and fiduciary funds. Because White Pine has no business-type activities to report, the fund financial analysis will consist of governmental and fiduciary funds only.

<u>Governmental Funds</u>: Governmental funds are funds that account for and are related to the District's objective to provide educational and correlated services. The table below shows the sources of revenue for each of the governmental funds:

| Expenditures | G | eneral Fund | 1 | Special Education Fund | ate Special venue Fund | D | ebt Service Fund | G | Other overnmental Funds | Tot | al Governmental Funds | % Total Revenue |
|--------------------|----|-------------|----|------------------------------|---------------------------|----|---------------------|----|-------------------------------|-----|--------------------------|--------------------|
| Local Sources | \$ | 8,385,786 | \$ | - | \$ - | \$ | 1,152,892 | \$ | 598,433 | \$ | 10,137,111 | 44.11% |

| - | | 62% | | 5% | 11% | | 5% | | 17% | | 100% | |

White Pine County School District

FY2020 Governmental Fund Revenues

Local sources are derived primarily from taxes ad valorem (aka property taxes) including net proceeds of minerals, sales taxes and government services tax. State and federal sources are obtained through legislative action and can be directly or indirectly appropriated, or awarded on an application basis. Indirect appropriations are typically from the federal government and are passed through the State. Grants can either be distributed via formula or on a competitive application basis. Total governmental revenue increased by approximately \$1.7 million.

The ensuing table provides an analysis of the functions the District devotes its resources to in order to carry out its objectives:

White Pine County School District

| Revenues | Ge | eneral Fund | Special Education Fund | State Special and Revenue Rund | | * | | * | | * | | <u>^</u> | | <u>^</u> | | Debt Service Fund | Ν | lonmajor Funds | Go | Total overnmental Funds | % Total Revenue |

| | | 56% | 8% | | 12% | 4% | | 20% | | 100% | | | | | | | | | | | |

FY2020 Governmental Fund Expenditures

Approximately 41.42% of the district revenue is expended on instructional services while 58.49% is spent on support services. Support services includes the following categories:

- Student Support
- Instructional Staff Support
- School Administration
- Operations and Maintenance
- Transportation
- General Administration
- Other Support
- Principal and Interest on Debt

Approximately 20% of support services is spent on student support, instructional staff support and school administration. This means that approximately 61.42% of revenue is spent directly in schools. Only 3.64 % is spend on General Administration. Approximately 16.82% is spent on operations and maintenance of facilities and transportation.

Governmental funds report the differences between their assets and liabilities as fund balance. A fund balance can be restricted and/or unrestricted. An unrestricted fund balance can be appropriated and a restricted fund balance it is not available for appropriation. Also, an unrestricted fund balance can be categorized as: 1) committed, 2) assigned, or 3) unassigned. Committed and assigned balances are designated by the governing body. These balances are typically limited or reserved for a future or specific purpose which may make them unavailable for appropriation based on the nature of the limitation(s). Unassigned balances in the general fund can be appropriated in subsequent years without restriction. According to Nevada Administrative Code (NAC) 354.650, if the ending fund balance in the general fund of a local government has been budgeted for less than 4% of the actual expenditures for the previous year, the local government shall provide written explanation to the Department of Taxation that includes the reason for the low ending fund balance and the manner in which the local government plans to increase the fund balance. A fund balance of 8.3% or less is not subject to negotiations with local government employee organizations pursuant to NAC 354.660. Fund balances with respect to special education, debt services, capital projects, grants, donation and other governmental funds are restricted by federal or state law or other criteria for the specific purposes of the fund and are not available for spending at the District's discretion.

As of June 30, 2020, the District realized a governmental fund balance of \$8,717,163 which is approximately 42.14% of total governmental expenditures. It is important to note that \$5,440,505 resides in the District's General Fund (or operating fund) and is unassigned so it can be used to

hedge for unanticipated economic events or allocated at the discretion of the Board of Trustees for programs and services.

The following lists the components of the governmental fund balances:

- Unassigned \$5,434,686
- Assigned \$152,400
- Restricted \$3,107,384
- Nonspendable \$22,693

The assigned balance of \$152,400 was designated through a Board action as a means to reserve a portion of its fund balance to meet its other post-employment benefits (OPEB) obligation for retiree health insurance. For additional information about OPEB, refer to the notes to the financial statements.

The restricted fund balance is related to the debt, capital, stabilization and other special governmental funds that are designated for specific purposes.

The nonspendable balance is related to prepaid expenses. These are expenses paid in the current year for products or services for subsequent year(s). These expenses are typically for insurance or multi-year agreements for tech support and software licenses for example.

<u>Major Funds</u>: Major funds represent the government's most important or significant funds and are determined by a mathematical calculation. In addition to the calculation, the District will also include any fund it believes is significant as a major fund. For example, special education has not always qualified as a major fund based on the mathematical calculation but the District believes it is significant and has consistently reported it as a major fund. The District reported the following major funds in FY2020:

- General Fund
- Special Education
- State Special Revenue
- Debt Service

General Fund: The General Fund is the District's operating fund and is not restricted. The fund is used to pay the expenditures related to the District's formative purpose and funds may be transferred to other funds, grants and programs to support services.

Special Education: The Special Education Fund accounts for the revenues and expenditures for the instruction of pupils with disabilities. Special education is determined through a weighted formula multiplied by the per-pupil basic support. The percentage of student population that is eligible for funding is capped at ½ of 13%. A contingency fund was also established to assist school districts with special needs that are out of the ordinary.

State Special Revenue: State special revenue funds account for state originated funds that are restricted for a specific purpose. These can be in the form of direct appropriations, or competitive or formula grants through State agencies.

Debt Service: The debt service fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

Nonmajor: All other governmental funds that did not qualify as a major fund are including in this category.

Governmental and major fund financial statements include the Balance Sheet and the Schedule of Revenues, Expenditures, and Changes in Fund Balance.

General Fund Budgetary Highlights

The White Pine County School District prepares its budgets pursuant to Section 354 of the Nevada Revised Statutes. The provisions of the act establish the following timelines for budget preparation:

- On or before April 15, the Board must file a tentative budget with the Nevada Department of Taxation
- A mandatory tentative budget public hearing must be held no sooner than the third Monday in May and no later than the last day in May.
- On or before June 8, the Board must adopt a final budget by majority vote
- In any year in which the legislature by law increases or decreases the revenues of a local government, the District government <u>may</u>, within 30 days of adjournment of the legislative session, file an amended budget
- On or before January 1 of each school year, each school district shall adopt an amendment to its final budget after the official count of pupils

The District takes advantage of these opportunities to revise its budget to include changes in enrollment, fund balance, economic events, and other changes in budget assumptions.

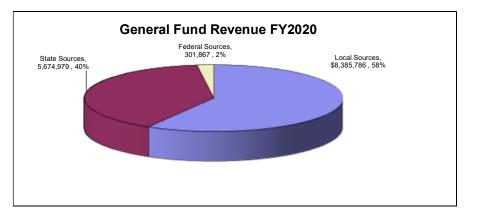

The General Fund is also referred to as the District's operating fund. This is the District's largest fund and accounted for approximately 62% of total governmental revenue. Total General Fund revenue increased compared with the prior year by \$1,231,486 or 9.38%.

Changes in state and local sources are typically inversely related. The Nevada Plan formula for funding public education is designed to provide less support from the state when local sources increase.

The table below and graph on the following page provides a comparison of General Fund revenue:

| Description | FY2020 | % of Total | FY2019 | % of Total |
|---|---|------------------|---|------------------|
| Local Sources State Sources Federal Sources | \$ 8,385,786 5,674,979 301,867 | 58% 40% 2% | \$ 7,813,131 4,994,273 323,742 | 60% 38% 2% |
| Total | \$ 14,362,632 | 100% | \$ 13,131,146 | 100% |

Local sources are derived from taxes ad valorem (property taxes), net proceeds of minerals (NPM) tax, local school support tax (LSST), government services tax and other non-tax revenue collected by the District such as tuition, fees and miscellaneous items.

State revenue is appropriated on a per pupil basis. The state combines the LSST, 1/3 of the property tax (including NPM) and state revenue into an economic formula to determine a basic per pupil guarantee. This per pupil guarantee is then multiplied by the average daily enrollment. Starting with FY2016, districts were required to use average daily enrollment calculated each quarter for funding purposes. Previously, funding for the school year was based on the number of weighted students on a certain "count day" in the first school month. Prior to FY2018, the student count was considered weighted because kindergarten students and early childhood students did not attend school for a full day. Kindergarten students now attend school for a full day and are counted the same as other full-time students. Each early childhood student is still counted as 0.6 of a full-time student because they do not attend school for a full day.

The table below compares quarterly enrollment for the current and prior fiscal year:

| | Q1 | Q2 | Q3 | Q4 | Average |
|------------|----------|----------|----------|----------|----------|
| FY2019 | 1,217.47 | 1,213.62 | 1,215.86 | 1,213.84 | 1,215.20 |
| FY2020 | 1,244.82 | 1,250.76 | 1,252.84 | 1,246.07 | 1,248.62 |
| Inc/(Dec) | 27.35 | 37.14 | 36.98 | 32.23 | 33.42 |
| % Inc/-Dec | 2.20% | 2.97% | 2.95% | 2.59% | 2.68% |

Note: Enrollment excludes non-resident distance education students

Enrollment is important because school districts receive funding based on the number of students. Fluctuations in enrollment from year-to-year and during will cause corelating fluctuations in revenue that can be difficult to manage without sufficient fund reserves. Enrollment historically has remained stable over the course of the school year. The average enrollment was essentially flat from Q1 through Q4 and average enrollment increased by 2.68% compared with FY2019.

The local charter school has reached its maximum capacity so n-district enrollment migration has stabilized. There is still a risk of enrollment losses to virtual schools; however, the number of White Pine students that attend virtual schools is insignificant.

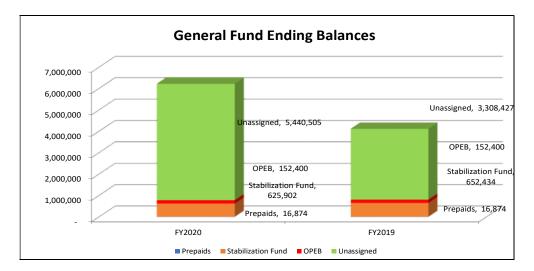

Federal revenue typically comes from e-rate subsidies, Secure Rural School Act (SRS) and federal land leases. Federal revenue remained stable increasing and is typically 2% or less of total General Fund revenue.

General Fund expenditures will generally vary with revenue; however, the District may subsidize operations on a short-term basis with its unassigned fund balance. The table below illustrates the General Fund expenditures excluding transfers to other funds.

| Description | | FY2020 Actual | FY2019 Actual | \$ Change (Decrease) | | % Change | |
|---------------------------------|----|------------------|------------------|-------------------------|----------|----------|--|
| Expenditures | | | | | | | |
| Instruction | \$ | 5,130,329 | \$ 4,785,709 | \$ | 344,620 | 7.20% | |
| Student Support | | 225,067 | 139,793 | | 85,274 | 61.00% | |
| Instructional Staff Support | | 51,923 | 28,845 | | 23,078 | 80.01% | |
| General Administration | | 422,077 | 432,710 | | (10,633) | -2.46% | |
| School Administration | | 1,324,483 | 1,223,427 | | 101,056 | 8.26% | |
| Central Services (including IT) | | 1,099,457 | 935,482 | | 163,975 | 17.53% | |
| Operations & Maintenance | | 2,061,452 | 2,120,932 | | (59,480) | -2.80% | |
| Student Transportation Services | | 1,014,567 | 1,012,821 | | 1,746 | 0.17% | |
| Other Support | | 232,143 | 183,880 | | 48,263 | - | |
| Total Expenditures | \$ | 11,561,498 | \$ 10,863,599 | \$ | 697,899 | 6.42% | |

General Fund Expenditures

Expenditures increase in direct correlation with revenue. As revenue continues to increase, the District will typically and strategically add programs and services aligned with its goals and objectives.

The fund balance is simply the difference between sources and uses of funds. Over time an accumulation of fund balances can create a ready reserve that can be appropriated by the governing body to fill gaps and mitigate the impact of adverse economic impacts.

Fiduciary Funds

Fiduciary funds are funds that are held in trust for, or on behalf of, others. The District has two types of fiduciary funds:

- School student activity accounts, or agency funds,
- Employee insurance fund

Fiduciary funds are not included in the government-wide financial statements. The fiduciary fund financial statements include the Statement of Fiduciary Net Assets and the Statement of Changes in Fiduciary Net Assets. These statements report similar information about assets, liabilities, revenues, and expenditures as the government-wide and fund financial statements.

The student activity accounts are checking accounts maintained by the schools that collect money from fund raising activities. These funds are controlled and administered by the individual schools.

The employee insurance fund is used to account for the funds received in trust from retirees and COBRA participants and employees to pay for group insurance. After the funds are collected, they are remitted to the appropriate entities.

Capital Assets and Debt Administration

Capital assets are the property, facilities, automobiles, and equipment the District owns. New construction and facility improvements are typically conducted through property tax levies; however, the District has been unable to issue general obligation bonds or capital project levies due to statutory limitations that cap the combined property tax rate at \$3.64 per \$100 of assessed value. In November 2008, the District was successful gaining voter approval of a ballot question for a bond initiative that will lock the debt rate at 24.9 cents regardless of the changes in the property tax base. If the tax base increases and the debt rate of 24.9 cents generates more revenue than is required to pay the principal and interest on voter approved bonds, the excess can be put

into a fund reserve and can be used to secure additional debt or for capital improvements on a pay as you go basis. From the time the initiative was approved through the end of FY2019, the District has transferred approximately \$3.8 million to assist with capital improvements.

The District has two of the oldest, active schools in the State that are in need of significant renovation or replacement. The District will seek assistance from the Nevada Legislature for funding to meet its deferred school construction needs.

NRS 350.013 and NRS 354.5945 require school districts to update their debt management policy, indebtedness report, and five-year capital improvement plan prior to August 1 of each year. The primary capital improvement funds are the Building and Sites Fund; Extraordinary Maintenance, Repair, and Improvements Fund; and Debt Services fund. The revenue for Building and Sites is derived from interest earnings, federal grants for construction, donations, and property sales. A 1/8 cent sales tax is the source of revenue for the Extraordinary Repair Fund.

| | | Governmental Activities | | | | | | | | |
|--|-----------|-------------------------|---------------|--------|--|--|--|--|--|--|
| Description | 6/30/2020 | 6/30/2019 | Change | | | | | | | |
| | | | | | | | | | | |
| Land | | \$ 1,220,902 | \$ 1,220,902 | 0.00% | | | | | | |
| Construction in Progress | | 52,465 | 52,465 | 0.00% | | | | | | |
| Buildings and Improvements (net of depreciation) | | 23,552,856 | 23,833,700 | -1.18% | | | | | | |
| Furniture, equipment and vehicles | | 1,754,082 | 1,828,237 | -4.06% | | | | | | |
| Total Capital Assets, net | | \$ 26,580,305 | \$ 26,935,304 | -1.32% | | | | | | |

White Pine County School District's Capital Assets (net of depreciation)

White Pine County School District's financial demand for construction and facility and grounds improvements greatly exceeds its financial supply. Financial sources available through Nevada Revised Statutes for capital improvements are either already being utilized, at the statutory maximum, or are insufficient to fuel significant improvements. The District has more than \$60 million in deferred construction and capital improvements and a debt rate that secured \$7 million in G.O. bonds. This bond issue would fund approximately one third (1/3) the cost of a new elementary school and one fourth (1/4) of a new high school. Without financial assistance, new construction or replacement of outdated facilities will not be possible. Federal programs designed to assist rural schools have been limited because the programs require the District match a portion of the federal grant. This match can range anywhere from 20% to 80% of the federal award. The District has had difficulty securing the funds necessary to meet the federal matching requirements.

Facilities that were built in the early 1900's and over 100 years old are still in existence and are currently being used for education. Because of existing financial limitations, it is likely that these facilities will remain active and the list of deferred projects will continue to grow until economic conditions significantly change and/or legislative changes are enacted that provide financial assistance.

The fund balance in excess of required reserves is available for capital projects. Required reserves are equal to the lower of 10% of the outstanding principal or one year of principal and interest.

Debt Administration: The Debt Services Fund is used to account for the accumulation of resources for, and the payment of, general long-term principal and interest. Voter approved bond indebtedness is secured through property taxes. Statutes guarantee the District's ability to assess a property tax rate equal to principal and interest payments on voter approved general obligations. Other obligations are paid from one of more of the following:

- Government services tax (aka motor vehicle taxes)
- Interest earnings
- Fund reserves, and
- General Fund transfers
- Capital Fund transfers

The District was successful in obtaining voter approval of a bond rollover question in FY2008 that allows the District to keep its property tax rate at 24.9 cents and use any revenue in excess of required reserves, principal and interest for capital improvements. The voter authorization is only valid for ten years or through maturity of the outstanding bond issue. This funding will provide sources for minor capital improvements providing the local tax base remains stable.

The table below compares the voter approved general obligation debt with the prior year:

| Description | | FY2020 | | FY2019 | % Change |
|--|----------|----------------------|----------|----------------------|-------------------|
| G.O. Refunding Bonds 2013 Series G.O. Bonds 2014 Series | \$ \$ | 464,000 6,285,000 | \$ \$ | 642,000 6,645,000 | -27.73% -5.42% |
| Total | \$ | 6,749,000 | \$ | 7,287,000 | -7.38% |

Local sources are comprised of ad valorem taxes (i.e. property taxes) including net proceeds of minerals, government services tax (GST) (a.k.a. motor vehicle taxes), interest and other financing sources. Net proceeds of minerals are a volatile revenue source and may fluctuate significantly from year to year causing significant variances when comparing local revenue from year to year.

The District currently incurs principal and interest on other obligations that are medium-term in nature and did not require voter approval. The following table compares the other outstanding obligations:

White Pine County School District Other Obligations As of June 30, 2020

| Description | FY2020 | FY2019 | % Change |
|--|--------------|---------------|----------|
| PNC Equipment Finance - Lease Purchase Agreement | \$ 86,269 | \$ 165,363 | -47.83% |
| Total | \$ 86,269 | \$ 165,363 | -47.83% |

For additional detail with respect to the District obligations and debt management, please refer to the Debt Management Policy on the District's web-site under Business and Finance.

Economic Factors and Next Year's Budget

The COVID-19 pandemic has caused a massive economic impact throughout the nation and has hit Nevada's largest economies such as Clark and Washoe counties especially hard. Smaller mining-based counties have not felt the impact as much. Because so much of the State's budget is derived from activity in these larger counties, the District will be impacted because of its dependence on State allocations. Approximately 46% of total governmental revenue is derived from State sources. Prior to the end of FY2020, the Nevada Department of Education reduced grant funding in the final quarter by approximately \$25 million statewide and \$157 million in FY2021. Approximately \$322,300 was cut from State-funded, grant programs in White Pine before year-end which represents approximately 7.5% of the total state grants awarded. In FY2021, approximately six state, grant-funded programs were eliminated. These programs accounted for approximately \$490,000, or 11%, of state, grant-funded programs. Six staff members were reassigned to other programs including the General Fund. Thus far, there have been no recommended budget cuts identified for base funding which accounts for approximately \$5.5 million and 40% of total General Fund revenue. Fortunately, the federal government has authorized the Coronavirus Aid, Relief and Economic Security Act (CARES) that has filled in some of the gaps left by State budget cuts. Nevada received approximately \$50 million in Coronavirus Relief Funds (CRF) under the CARES Act which was included in Assembly Bill 3 and distributed through grants to school districts. While these funds can not be used to fund budgeted programs reduced or eliminated due to the State's dramatic revenue shortfall, it can be used for new programs to help those directly impacted by the pandemic.

The 2019 Legislature passed Senate Bill 543 which was approved by the Governor on June 14, 2019 and replaces the Nevada Plan with a student-centered funding plan (SCFP) that takes effect July 1, 2021. Preliminary iterations of the new formula indicate that the school district may realize a significant boost in general fund revenue and that the increase may be significant enough to outpace any adverse economic impacts caused by the pandemic. This is not the case for most school districts however. A commission on education funding will be evaluating and fine tuning the formula using FY2021 student and financial information as a performance benchmark and will make recommendations with respect to its base, cost (or equity) adjustment factors, program weights, mechanics, funding, reporting and accountability.

The local economy remained relatively stable. Mining has not been interrupted to the extent that other industries have so mining-based economies have not been hit as hard as the tourism, convention and gaming economies in Nevada. Mining was considered an "Essential Critical Infrastructure Workforce" by the Department of Homeland Security's Cybersecurity & Infrastructure Security Agency because it supports virtually every aspect of critical infrastructure. This is significant for our local economy because mining represents approximately 30% of White Pine's total employment. At least one mining company, Fiore Gold, has plans to expand its operations (https://fioregold.com/gold-rock/) in the near future.

White Pine's unemployment rate, which is another measure of stability, is among the lowest in Nevada. According to Nevada Department of Employment, Training and Rehabilitation (DETR). The local unemployment rate was approximately 4.2% compared with 13.2% for Nevada and 8.4% nationally (Nevadaworforce.com).

The school district will finish FY2020 with a general fund balance of \$5.5 million which is approximately 47% of total general fund expenditures (excluding transfers to other funds). This is not uncommon for mining-based economies that can realize titanic financial shifts caused by fluctuations in mineral prices and mine closures. Large fund reserves allow a school district to adjust to adversity over a longer period of time. For example, the current fund balance would allow the school district to phase in annual budget cuts of 3% for a period of ten years. Moving forward, however, this significant fund balance will not be as essential because the new formula will essentially guarantee a school districts state and local revenue which means the District's budget will no longer be subject to the ebbs and flows of mining. Senate bill 543, also capped the general fund balance at 16.6% and provides that any amount in excess of this must be remanded to the State's Education Stabilization Account. In other words, a school district will no longer be able to realize a fund balance in excess of 16.6%. School districts that have a fund balance in excess of this percentage at the time the new formula takes effect will be able to keep and/or spend their fund balance but will not be allowed to increase their balance.

Because of the potential for additional revenue through the new formula, guarantee of state and local revenue, fund balance cap and comfortable fund reserves; the District is in the unique position to explore strategies for development and growth despite the global and regional economic impact of the pandemic. The sizeable fund balance should allow the District to comfortably absorb any adverse impacts from reduced or eliminated state programs without reducing staff or cutting budgets for several years. In addition, the new formula incorporates 100% of the taxes on net proceeds of minerals which means that school districts will no longer suffer adverse impacts when taxes on mining proceeds diminish. This reduces the need for school districts to amass significant fund balances to hedge for mining downturns and will allow them to strategically spend down balances to the statutory maximum of 16.6% of total expenditures. The reallocation of resources through the new formula make it conceivable that the District's revenue will remain flat, or possibly, increase despite significant cuts at the State level. While the school district explores its potential for expansion, this will most likely take place after FY2021 after the economic impacts from the pandemic are more clearly identified.

Requests for Information

This report has been designed to provide an overview of the White Pine County School District's finances. Questions concerning any of the information contained herein should be addressed to:

NOTE 1. Summary of Accounting Policies

Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *businesstype activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, when applicable, the *primary government* is reported separately from certain legally separate component units for which the primary government is financially accountable. No business activities or component units are reported.

Reporting Entity

The White Pine County School District is authorized under NRS 386.010 and is governed by an elected Board consisting of seven members. The Board possesses final decision making authority and is held primarily accountable for those decisions. The Board is responsible for approving the budget, establishing spending limitations, funding any deficits and borrowing funds and/or issuing bonds to finance District operations and construction.

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government. As to the District, there are no component units which are included to form the reporting entity.

Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from the governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category—governmental and fiduciary—are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

NOTE 1. Summary of Accounting Policies, Continued

The government reports the following major governmental funds:

General Fund – the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
Special Education Fund – used to account for revenues received for the instruction of pupils with disabilities and gifted and talented pupils in accordance with Senate Bill 569 passed in 1994.
State Special Revenue Fund – used to account for monies provided for State funded projects.
Debt Service Fund – used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

Additionally, the District reports the following fund types:

Fiduciary Funds

Employee Insurance Fund is used to account for assets held in a trustee capacity or as an agent for individuals, private organizations, or other governmental units, and/or other funds.

Student Activity Funds are custodial in nature and cannot be used to support the District's own programs.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

NOTE 1. Summary of Accounting Policies, Continued

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Budgets and Budgetary Accounting

Budgets are prepared, filed, noticed and public hearings held in accordance with the Local Government Budget Act (NRS 354). The Board of Trustees may prepare additional financial information and hold additional meetings and/or public hearings other than those identified in statute in order to disseminate to, and solicit information from, the general public. The provisions of this Act include the following major procedures to establish the budgetary data which is reflected in these financial statements.

- 1. On or before April 15, the Board files a tentative budget with the Nevada Department of Taxation for all funds other than Fiduciary Funds, which are not required to be budgeted. The appropriated budget is prepared by fund, function and department.
- 2. Public budget hearings on the tentative budgets are held between May 15th and May 31st.
- 3. On or before June 8, the Board indicates changes, if any, to be made to the tentative budget and adopts a final budget by the favorable vote of a majority of the members of the Board. The final budget must then be forwarded to the Nevada Department of Taxation for final approval.
- 4. On or before January 1, the Board must adopt an amendment to its final budget to reflect any necessary adjustments as a result of the District's completed pupil count.
- 5. The Department of Taxation shall examine the submitted documents for compliance with law and with appropriate regulations and shall submit to the governing body at least 3 days before the public hearing a written certificate of compliance or a written notice of lack of compliance. The written notice must indicate the manner in which the submitted documents fail to comply with law or appropriate regulations.
- 6. Whenever the governing body receives from the Department of Taxation a notice of lack of compliance, the governing body shall forthwith proceed to amend the tentative budget to effect compliance with the law and with the appropriate regulation.

The District maintains site-based budgets that identify costs associated with each site and/or department in addition to other formats that may be prescribed by the Board of Trustees or required by Nevada Revised Statutes. Each site will be recognized as a separate unit and will be analyzed as to use of resources and performance.

NOTE 1. Summary of Accounting Policies, Continued

Generally, budgets for all funds are adopted in accordance with generally accepted accounting principles. All uncommitted appropriations lapse at fiscal year-end.

Budget changes may be required to reflect changes in revenue and/or expenditures. Any transfer, increase or decrease in budget appropriations are conducted pursuant to NRS 354.

Actual expenditures may not exceed budgetary appropriations of the various governmental functions per NRS.

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Investments

Investments of the District are reported at fair value (generally based on quoted market prices) with unrealized gains/losses recorded as adjustments to investment earnings. Investment earnings related to unrestricted investments of the general fund are primarily assigned and reported in the capital projects funds of the District.

Receivables

Receivables, as stated in the balance sheet, are considered collectible. Accordingly, an allowance for uncollectible accounts is not deemed necessary.

Inventories and prepaid items

Expenditures for supplies held for future consumption and minor equipment purchases are charged against appropriations of all governmental funds at the time of purchase. Any inventories of such supplies at year end are not material to the individual funds and are not recognized in these financial statements.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Capital Assets

Capital assets, which include property and equipment, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

| Buildings | 35-50 years |
|-----------------------|-------------|
| Building improvements | 20-30 years |
| Equipment | 4-20 years |
| Vehicles | 5-8 years |

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures by the governmental fund upon acquisition.

NOTE 1. Summary of Accounting Policies, Continued

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The government has two types of items that qualify for reporting in this category. Accordingly, the items, *deferred outflows related to pensions* and *deferred outflow related to OPEB*, are reported in the government-wide financial statements. See Note 14 and Note 16 for more information.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has three items that qualify for reporting in this category. *Deferred revenue*, is reported in both the governmental funds balance sheet and the statement of net position. This item relates to net proceeds from minerals taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts apply to. The items, *deferred inflows related to pensions* and *deferred inflows related to OPEB*, are reported in the government-wide financial statements. See Note 14 and Note 16 for more information.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other than Pensions (OPEB)

For purposes of measuring the District's OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's OPEB plans (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined based on annual actuarial reports. Benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

NOTE 1. Summary of Accounting Policies, Continued

Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing board is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Chief Financial Officer is authorized to assign amounts to a specific purpose in accordance with the District's budget policy pending Board approval. The board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Revenues and Expenditures/Expenses

Program revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

NOTE 1. Summary of Accounting Policies, Continued

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. The liability for these compensated absences is recorded as a long-term liability in the government-wide statements. A liability for these accounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Prior-Year Summarized Comparative Information

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the government's financial position and operations. However, comparative data has not been presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2019, from which the summarized information was derived.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Reclassification Prior Year Balances

Certain reclassifications have been made to the presentation of the prior fiscal year information to correspond to the current fiscal year's format. Total net position/fund balances and change in net position/fund balances are unchanged due to these reclassifications.

New Pronouncements

For the year ended June 30, 2020, the District did not implement the provisions of GASB Statement No. 84, *Fiduciary Activities*. GASB Statement No. 84 improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, postponed the effective date of GASB Statement No. 84 by one year (COVID-19 pandemic relief), and the District plans to implement for the year ending June 30, 2021.

NOTE 2. Reconciliation of Government-Wide and Fund Financial Statements

The governmental fund balance sheet includes a reconciliation between total governmental fund balances and net position of governmental activities as reported in the government-wide statement of net position. This difference primarily results from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheets. The details of these differences are reported in the reconciliation on page 27.

The governmental fund statement of revenues, expenditures, and changes in fund balance includes a reconciliation between net changes in fund balances-total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. These differences are the result of converting from the current resources measurement focus and modified accrual basis for governmental fund statements to the economic resources measurement focus and full accrual basis used for government-wide statements. The details of these differences are reported in the reconciliation on page 29.

NOTE 3. Deposits and Investments

| | Carrying Amount-Fair Value | | | |
|----------------------------|----------------------------------|-----------|--|--|
| Deposits: | | | | |
| Cash in bank | \$ | 452,375 | | |
| Cash in brokerage account | | 682 | | |
| Investments: | | | | |
| UBS Financial Services | | 7,080,809 | | |
| Total cash and investments | \$ | 7,533,866 | | |

Deposits and investments of the District at June 30, 2020 consist of the following:

A reconciliation of cash and investments as shown on the statement of net position is as follows:

| Cash and investments | \$ 5,916,235 |
|-------------------------------------|-----------------|
| Restricted cash and investments | 963,352 |
| Fiduciary fund cash and investments | 654,279 |
| Total cash and investments | \$ 7,533,866 |

NOTE 3. Deposits and Investments, Continued

Restricted cash and investments consist of the following as of June 30, 2020:

| Stabilization | \$ 625,902 |
|---------------------------------------|---------------|
| Debt service reserves | 337,450 |
| Total restricted cash and investments | \$ 963,352 |

Deposits

Custodial Credit Risk

For deposits this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of June 30, 2020, none of the District's bank balance was exposed to custodial credit risk because it was insured or collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

Investments

State statutes authorize the District to invest in the State Treasurer's investment pool, bonds and debentures of the United States, obligations of the Federal Land Banks, bills and notes of the U.S. Postal Service, obligations of the Federal National Mortgage Association, short-term bonds of local governments, and banker's acceptances.

As of June 30, 2020 the District had the following investments, maturities, and quality ratings:

| Investment Type | Fair Value | Credit S&P | Rating (1) Moodys | Weighted Average Maturity - Days (2) |
|---|------------------------------|---------------|----------------------|---|
| Money market Bonds-certificates of deposit (3) | \$ 5,074,583 2,006,226 | N/A N/A | Aaa-mf N/A | 49 426 |
| Total Fair Value | \$ 7,080,809 | | | |

(1) Ratings are provided where applicable to indicate associated Credit Risk. N/A indicates not applicable.

(2) Interest rate risk is estimated using the weighted average days to maturity.

(3) FDIC insured.

NOTE 3. Deposits and Investments, Continued

Fair Value of Investments

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

At June 30, 2020, the District had the following recurring fair value measurements.

- Bonds certificates of deposit of \$2,006,226 that are valued using a pricing model (Level 2 inputs)
- Money market of \$5,074,583 that are valued using net asset value (NAV)

Interest rate risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's policy for managing its exposure to fair value loss arising from decreasing interest rates is to comply with the provision of the Nevada Revised Statutes (NRS).

Credit risk

For an investment, this is the risk that, in the event of a failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that were in the possession of an outside party. The District does not have a formal investment policy. Credit risk is reduced by investing in the Nevada Local Government Investment pool and other investments authorized by NRS.

The District is subject to the provision of GASB 31 which requires that investments be valued at their fair market value on the balance sheet date. At June 30, 2020, the District had investments with the Nevada State Treasurer with a carrying value and market value of \$0. The State Treasurer is required to have collateral pledged for amounts deposited in the pool not covered by Federal Depository Insurance. In addition, the District had cash holdings and investments in a brokerage account at fiscal year-end that were insured or collateralized.

NOTE 4. Interfund Receivables, Payables, and Transfers

Interfund account balances due to/from consisted of the following at June 30, 2020:

| | Due From Other Funds | Due To Other Funds |
|----------------------------|-------------------------|-----------------------|
| General fund | \$ 2,063,637 | \$ - |
| State special revenue fund | - | 903,356 |
| Nonmajor funds | | 1,160,281 |
| Total | \$ 2,063,637 | \$ 2,063,637 |

Interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers for the fiscal year ended June 30, 2020 are as follows:

| | Transfers | | Tra | nsfers | | |
|----------------------------|-----------|----------|-------|--------|---|-----|
| | In | | In | | (| Out |
| General fund | \$ | 76,085 | \$ 7 | 44,673 | | |
| Special education | | 520,824 | | - | | |
| State special revenue fund | | 44,404 | | 76,085 | | |
| Debt service fund | | 134,630 | 3 | 00,000 | | |
| Nonmajor funds | | 394,425 | | 49,610 | | |
| Total | \$1, | ,170,368 | \$1,1 | 70,368 | | |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 5. Capital Assets

Capital asset activity for the year ended June 30, 2020 was as follows:

| Governmental Activities: | Balance 6/30/2019 | | | | Deletions | | | Balance 5/30/2020 | | | | |
|--|-------------------|-----------|---------------|-------------------|-------------------|-------------|----------------------|----------------------|----------------|-----------|----|--------------|
| Capital assets, not being depreciated: | | | | | | | | | | | | |
| Land | \$ | 986,274 | \$ | - | \$ | - | \$ | 986,274 | | | | |
| Land - idle* | | 234,628 | | - | | - | | 234,628 | | | | |
| Construction in progress | | 52,465 | | - | | - | | 52,465 | | | | |
| Total capital assets, not being depreciated: | 1 | ,273,367 | | - | | - | | 1,273,367 | | | | |
| Capital assets, being depreciated: | | | | | | | | | | | | |
| Buildings and improvements | 40 | ,810,528 | | 738,694 | | - | | 41,549,222 | | | | |
| Buildings and improvements - idle* | 1 | 1,265,310 | | 1,265,310 | | - (490,875) | | (490,875) | | 774,435 | | |
| Equipment and vehicles | 6,625,404 | | 6,625,404 | | 450,203 | | (276,477) | | | 6,799,130 | | |
| Total capital assets, being depreciated: | 48,701,242 | | 48,701,242 | | 48,701,242 | | 48,701,242 1,188,897 | | (767,352) | | | 49,122,787 |
| Less accumulated depreciation for: | | | | | | | | | | | | |
| Buildings and improvements | (17 | ,227,956) | | (1,002,714) | | - | | (18,230,670) | | | | |
| Buildings and improvements - idle* | (1,014,182) | | (1,014,182) | | (1,014,182) | | (1,014,182) | | (,795) 489,846 | | | (540,131) |
| Equipment and vehicles | (4,797,167) | | | (516,417) 268,536 | | 268,536 | | (5,045,048) | | | | |
| Total accumulated depreciation | (23,039,305) | | | (1,534,926) | | (1,534,926) | | (1,534,926) 758,382 | | 758,382 | | (23,815,849) |
| Total capital assets, being depreciated, net | | ,661,937 | (346,029) | | (346,029) (8,970) | | | 25,306,938 | | | | |
| Governmental activities capital assets, net | \$ 26,935,304 | | \$ 26,935,304 | | \$ 26,935,304 | | \$ | (346,029) | \$ | (8,970) | \$ | 26,580,305 |

* These assets are categorized as idle because they are no longer active facilities. The District does still use these buildings for storage. The net book value of the idle buildings is \$234,304 at fiscal year end.

Depreciation expense was charged to functions/programs of the primary government as follows:

| Function and Activity | |
|---|-----------------|
| | |
| Regular programs | \$ 441,928 |
| Special programs | 225 |
| Vocational programs | 17,323 |
| Other instructional programs | 103 |
| Adult/continuing ed. programs | 235 |
| Food services | 2,614 |
| Athletics | 741 |
| Students | 1,223 |
| Instructional staff | 556 |
| General administration | 2,186 |
| School administration | 3,841 |
| Central services | 30,730 |
| Operations and maintenance | 32,269 |
| Student transportation | 133,146 |
| Facilities acquisition, construction and improvements | 867,806 |
| - * | \$ 1,534,926 |

NOTE 6. Long-Term Liabilities

Long-term liabilities at June 30, 2020 consisted of the following:

| Governmental Activities: | Balance 6/30/2019 | / | Additions | R | etirements | Balance 6/30/2020 | Current Portion |
|------------------------------|--------------------------|----|-----------|----|------------|--------------------------|--------------------|
| Bonds payable | \$ 7,287,000 | \$ | - | \$ | (538,000) | \$ 6,749,000 | \$ 552,000 |
| Deferred amounts: | | | | | | | |
| For issuance premiums | 149,303 | | - | | (9,954) | 139,349 | - |
| Capital leases payable | 165,363 | | - | | (79,094) | 86,269 | 86,269 |
| Accrued compensated absences | 481,949 | | 200,582 | | (248,964) | 433,567 | 209,603 |
| Net pension liability | 15,182,635 | | 441,189 | | - | 15,623,824 | - |
| Net OPEB liability | 3,426,715 | | 83,760 | | - | 3,510,475 | - |
| | | | | | | | |
| Total long-term liabilities | \$ 26,692,965 | \$ | 725,531 | \$ | (876,012) | \$ 26,542,484 | \$ 847,872 |

The aggregate maturities of notes and bonds payable are as follows:

| Period Ending | | | |
|---------------|----|-----------|-----------------|
| June 30, |] | Principal | Interest |
| 2021 | \$ | 552,000 | \$ 219,888 |
| 2022 | | 562,000 | 207,802 |
| 2023 | | 480,000 | 191,343 |
| 2024 | | 395,000 | 178,430 |
| 2025 | | 410,000 | 166,580 |
| 2026-2030 | | 2,250,000 | 630,970 |
| 2031-2034 | | 2,100,000 | 206,375 |
| | \$ | 6,749,000 | \$ 1,801,388 |

The District's general obligation bonds are public offering bonds and are unsecured bonds that were offered through competitive sale. The District can pre-pay or extinguish debt early without penalty.

The General Obligation School Improvement 2014 bond is guaranteed by the State of Nevada School Permanent Fund. In the event the District is unable to make payments or default, the remaining obligation would be secured by the Nevada School Permanent Fund.

NOTE 6. Long-Term Liabilities, Continued

The following is a listing of long-term liabilities as of June 30, 2020:

Bonds Payable:

| Governmental Activities: | |
|--|---------------|
| General Obligation (Limited Tax) Refunding Bonds, Series 2013, with semi-annual interest payments ranging between \$1,363 and \$18,892, and annual principal payments ranging between \$85,000 and \$189,000, bearing interest from .76% to 2.87%, maturing December 2022. | \$ 464,000 |
| General Obligation (Limited Tax) School Improvement Bonds, Series 2014, with semi-annual interest payments ranging between \$11,100 and \$115,040, and annual principal payments (beginning June 2019) ranging between \$355,000 and \$555,000, bearing interest from 20(1, 10) | 6 295 000 |
| 2% to 4%, maturing June 2034. | 6,285,000 |
| Total bonds payable | 6,749,000 |
| Bond Issuance Premiums | 139,349 |
| Leases Payable: | |
| Governmental Activities: | |
| Lease payable to PNC Equipment Finance, payable in monthly installments ranging between \$4,700 and \$11,086, | |
| bearing interest at 4.35%, maturing March 2021. | 86,269 |
| Total leases payable | 86,269 |
| Accrued Compensated Absences | 433,567 |
| Net Pension Liability | 15,623,824 |
| Net OPEB Liability | 3,510,475 |
| Total long-term liabilities | 26,542,484 |
| Less current portion: | (847,872) |
| Net long-term liabilities | \$ 25,694,612 |

NOTE 7. Capital Leases Payable

The District has entered into a lease agreement, which is considered a capital lease in accordance with accounting standards. The lease is shown in the governmental activities of the government-wide statements. The following is an annual schedule of future minimum lease payments together with the present value of the net minimum lease payments:

| Year Ending June 30, | Total |
|--|--------------|
| 2021 | \$ 87,969 |
| Total remaining minimum lease payments | 87,969 |
| Less amount representing interest | (1,700) |
| Present value of net remaining minimum | |
| lease payments | \$ 86,269 |

A summary of the assets acquired through capital leases is as follows:

| | Cost | _ | preciation xpense | Accumulated Decpreciation | | |
|----------------------------|---------------|----|----------------------|---------------------------|---------|--|
| Buildings and improvements | \$ 558,701 | \$ | 55,870 | \$ | 474,866 | |
| | \$ 558,701 | \$ | 55,870 | \$ | 474,866 | |

NOTE 8. Property Taxes

All real property within White Pine County is assigned a parcel number in accordance with state law, with each parcel being subject to physical reappraisal every five years. A factoring system is used to adjust the appraised value during the years between physical appraisals. The valuation of the property and its improvements are being assessed at 35% of "taxable value" as defined by statute. The amount of tax levied is developed by multiplying the assessed value by the tax rate applicable to the area in which the property is located.

The maximum tax rate was established in the State Constitution at \$5.00 per hundred dollars of assessed valuation; however, as a result of the 1979 legislative sessions, the tax rate was further limited to \$3.64 per hundred dollars of assessed valuation unless an additional rate is approved by the electorate. White Pine County is currently at this maximum tax limit.

NOTE 8. Property Taxes, Continued

Taxes on real property are a lien on the property and attach on July 1 of the year for which the taxes are levied.

Taxes on property are due on the third Monday in August; however, they may be made in four installments payable on the third Monday in August, and the first Mondays in October, January and March. Penalties are assessed if a taxpayer fails to pay an installment within ten days of the installment due date. After a two year waiting period, a tax deed is issued conveying the property to the County with a lien for back taxes and accumulated charges. Redemption may be made by the owner and such persons as described by statute by paying all back taxes and accumulated penalties, interest and costs before sale. Taxes on personal property are collected currently. Personal property declarations are mailed out annually and the tax is computed using percentages of taxable values established by the Department of Taxation and tax rates described above.

The major classifications of personal property are commercial, mobile homes, aircraft and agricultural. In White Pine County, taxes on motor vehicles are collected by the State. The taxes are then returned to the County of origin to be apportioned based on a statutory formula.

White Pine County collects property taxes for all entities, including the District and remits the tax collected the month following collections to the District.

NOTE 9. Nevada Plan for Local Education Agency Financing

The Nevada Plan is the means used to finance elementary and secondary education in Nevada's public schools. The State develops a basic support guaranteed (BSG) amount of funding for each school district. The District receives funding based on the average daily enrollment reported quarterly. The funding rate is determined by a formula that considers the demographic characteristics of the District, operating expenditures, staffing allotments and local wealth adjustment. A separate factor for general fund transportation costs and local wealth are also included. The Nevada Plan is designed to provide more State funding for school with less local wealth relative to the per pupil average.

Special education funding is based on a weighted formula and is based on the number of special education students with a maximum student limit equal to 13% of the total student population. Provisions have been included for contingencies to meet unexpected demand, one-half of the number of students in excess of the 13% cap and an inflationary factor determined by the department of education.

Funding for English learners, at-risk (or student of poverty) and gifted and talented are funded through competitive and formula grants based on school district applications that are subject to approval and reauthorization.

Under this plan, the District has received \$5,674,979 in the General Fund and \$1,194,585 in the Special Education Fund.

NOTE 9. Nevada Plan for Local Education Agency Financing, Continued

During the 2019 Legislative session, Senate Bill 543 was passed which effectively replaces the Nevada Plan formula with a pupil-centered funding plan (PCFP) and restructures State and local funding. The SCFP will be implemented in fiscal year 2022. All local taxes and state revenue will flow through the Nevada education budget to schools (excluding federal revenue). The State will provide a base amount for all students that will be adjusted by equity factors to produce an adjusted base for each school district. The equity factors include regional cost adjustment factors that reflect school district demographics, district size and school size adjustments. School districts will also receive funding adjustments for transportation and nutrition program transfers from the general fund. A maximum amount will be prescribed by the Nevada Department of Education for each school district to be used for administrative cost. After the administrative costs are deducted, the remainder must be provided to schools.

Funding for English learners, special education, at-risk (or student of poverty) and gifted and talented programs will be funded using program weights that will be multiplied by the statewide base, per-pupil amount.

Funding levels from FY2020 will be guaranteed in FY2022 if the new formula provides less revenue than the Nevada Plan. This will allow school districts to phase in any adverse consequences over time so educational services are not abruptly affected.

A Commission on Education Funding was created with the expressed purpose to provide guidance to school districts and the Department of Education on the implementation of the Pupil-Centered Funding Plan and monitor its impact and make recommendations for improvement as an ongoing effort to achieve optimal funding.

NOTE 10. Available Borrowing Capacity

The lawful County School District bonded indebtedness limit is established under NRS 387.400 not to exceed an amount equal to 15 percent of the total of the last assessed valuation of taxable property situated within the County School District. At June 30, 2020, the bonded indebtedness limit of White Pine County School District was \$92,814,016. The District has general obligation long-term bonds outstanding at fiscal year-end of \$6,749,000. Accordingly, the legal borrowing capacity is \$86,065,016 at June 30, 2020.

NOTE 11. Operating Leases

The District maintains the following operating leases:

- 1. The District has entered into a month-to-month lease agreement with Office Products Incorporated for the use of copy machines at an average rate of \$.018 per copy. This agreement may be canceled at any time. Total expense related to this lease for the fiscal year ended June 30, 2020 was approximately \$34,770.
- 2. In September 1998, the District entered into a lease agreement with DVM, a Nevada LLC, for the use of a building. The agreement is for \$600 per month. This agreement has an automatic renewal each successive fiscal year and can be cancelled by either party with a 60 day written notice. The District paid \$7,200 for fiscal year ended June 30, 2020.
- 3. During fiscal year 2010 the District entered in to a lease with White Pine County to use two of its baseball fields for high school baseball practice and games. The District made improvements to a Senior League Field in lieu of annual rental payments. The agreement provides that after a period of time, the County will require the District to pay \$500 per year to use the Little League Field; however, the County has allowed the District to infuse capital improvements to the field in lieu of annual rental payments at any time. The District also pays \$5,000 per year for use of the Marich Field.

There are no operating leases with initial or remaining noncancelable lease terms in excess of one year. Therefore, future minimum rental payments are not applicable.

NOTE 12. Commitments and Contingencies

The White Pine County School District is obligated as follows:

Janitorial Services

The District entered into a contract with Accurate Building Maintenance, LLC for janitorial services beginning in fiscal year 2013. The agreement is for \$24,898 per month with a 3% increase in the monthly service fee on the 3rd anniversary of the agreement. The term of the agreement is for an initial period of three years. This agreement has an automatic renewal each successive fiscal year and can be cancelled by either party with a 90 day written notice.

Starting in October 2014, the District contracted with Accurate Building Maintenance, LLC for additional janitorial services at McGill Elementary. This agreement is for \$6,220 per month.

In February of 2017, the District contracted for services with Accurate Building Maintenance, LLC for additional janitorial services for Lund and in February 2018 services were expanded to Baker Grade School. The contract amounts were for \$3,445 and \$1,783 per month respectively.

NOTE 12. Commitments and Contingencies, Continued

In January 2019, the District contracted for services with Accurate Building Maintenance, LLC for a full-time and part-time janitorial positions at White Pine High School. The monthly amount for both positions is \$5,024 per month.

The contracts were for an initial period of one year and automatically renewed each consecutive year unless written notice to terminate by either party is provided 90 days prior to renewal.

The total amount expended in FY2020 for Accurate Building Maintenance, LLC was \$538,811.

Grants Received

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability in the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

NOTE 13. Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District assesses these risks and manages these risks through commercial insurance companies. There were no significant changes in coverage during the year ended June 30, 2020.

NOTE 14. Retirement and Pension Plans

Public Employees' Retirement System of Nevada (PERS)

Plan description

PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system, which includes Regular members. The System was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

Benefits provided

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010, and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

NOTE 14. Retirement and Pension Plans, Continued

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% service time factor and for regular members entering the System on or after July 1, 2015, there is a 2.25% factor. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 - .579.

Vesting

Regular members entering the system prior to January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service, or at any age with 30 years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with 30 years of service. Regular members who entered the system on or after July 1, 2015, are eligible for retirement at age 65 with 5 years of service, or at age 62 with 10 years of service or at age 55 with 30 years of service or any age with 33 1/3 years of service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Members become fully vested as to benefits upon completion of five years of service.

Contributions

The authority for establishing and amending the obligation to make contributions and member contribution rates is set by stature. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. In one plan, contributions are shared equally by employer and employee. In the other plan, employees can take a reduced salary and have contributions made by the employer (EPC).

The System's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

The System receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuarial funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

NOTE 14. Retirement and Pension Plans, Continued

For the fiscal year ended June 30, 2019 and June 30, 2020 the Statutory Employer/employee matching rate was 14.50% and 15.25% for Regular members. The Employer-pay contribution (EPC) rate was 28.00% and 29.25% for Regular Members.

The District's contribution for the year ended June 30, 2020 was \$1,255,839 which was equal to the required contribution.

Investment policy

The System's policies which determine the investment portfolio target asset allocation are established by the Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System. The following was the Board adopted policy target asset allocation as of June 30, 2019:

| Asset Class | Target Allocation | Long-term Geometric Expected Real Rate of Return* |
|----------------------|----------------------|--|
| U.S. stocks | 42% | 5.50% |
| International stocks | 18% | 5.50% |
| U.S. bonds | 28% | 0.75% |
| Private markets | 12% | 6.65% |

*As of June 30, 2019, PERS' long-term inflation assumption was 2.75%.

Pension liability

Net pension liability

At June 30, 2020, the District reported a liability of \$15,623,824 for its proportionate share of the PERS' net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their employer contributions relative to the total employer contributions for all employers for the period ended June 30, 2019. The District's proportion measured as of June 30, 2019, was 0.114580 percent, which was an increase of 0.003250 percent from its proportion measured as of June 30, 2018.

Pension liability discount rate sensitivity

The following presents the net pension liability of the PERS as of June 30, 2019, calculated using the discount rate of 7.50%, as well as what the PERS net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current discount rate:

| | 1% Decrease | | Discount Rate | | 1% Increase | |
|---|-------------|------------|---------------|------------|-------------|-----------|
| | (6.50%) | | (7.50%) | | (8.50%) | |
| Proportionate share of Net pension (asset) / liability | \$ | 24,191,601 | \$ | 15,623,824 | \$ | 8,501,828 |

NOTE 14. Retirement and Pension Plans, Continued

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website. www.nvpers.org.

Actuarial assumptions

The District's net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate | 2.75% |
|----------------------------|---|
| Investment rate of return | 7.50% |
| Productivity pay increase | 0.5% |
| Projected salary increases | Regular: 4.25% to 9.15%, depending on service |
| Other assumptions | Rates include inflation and productivity increases Same as those used in the June 30, 2019 funding |
| 1 | actuarial valuation |

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of the experience study for the period July 1, 2012 through June 30, 2016.

The discount rate used to measure the total pension liability was 7.50% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed plan contributions will be made in amounts consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employers and members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except that projected contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included.

Based on those assumptions, the pension plan's fiduciary net position at June 30, 2019, was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

NOTE 14. Retirement and Pension Plans, Continued

Pension expense and deferred outflows/inflows of resources related to pensions

For the year ended June 30, 2020, the District recognized pension expense for PERS of \$1,026,394. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | | Deferred | | |
|---|----|------------|------|---------------|
| | С | utflows of | Defe | erred Inflows |
| |] | Resources | of | Resources |
| Differences between expected and actual experience | \$ | 585,876 | \$ | 450,649 |
| Changes in assumptions or other inputs | | 635,825 | | - |
| Net difference between projected and actual earnings on | | | | |
| pension plan investments | | - | | 777,229 |
| Subtotal | | 1,221,701 | | 1,227,878 |
| Changes in proportion | | 437,742 | | 1,768,894 |
| Contributions subsequent to the measurement date | | 1,255,839 | | - |
| Total | \$ | 2,915,282 | \$ | 2,996,772 |
| | | | | |

Average expected remaining service lives

6.18 years

The \$1,255,839 reported as deferred outflows of resources related to PERS pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to PERS pensions excluding the changes in proportion will be recognized in pension expense as follows:

| Year Ending June 30, | (I | Deferred Outflows (Inflows) of Resources | | | | |
|-------------------------|----|---|--|--|--|--|
| 2021 | ¢ | 42.004 | | | | |
| 2021 | \$ | 43,994 | | | | |
| 2022 | | (296,412) | | | | |
| 2023 | | 81,432 | | | | |
| 2024 | | 100,874 | | | | |
| 2025 | | 57,328 | | | | |
| 2026 | | 6,606 | | | | |
| Thereafter | | - | | | | |
| Total | \$ | (6,177) | | | | |

NOTE 15. Stabilization Fund

NRS 354.6115 states that the governing body of a local government may, by resolution, establish a fund to stabilize the operation of the local government and mitigate the effects of natural disasters. For the fiscal year ended June 30, 2010, the District's stabilization fund was reported as a separate major fund in the financial statements. However, in accordance with GASBS 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the District's stabilization fund is included in the General Fund, as restricted fund balance, beginning with the year ended June 30, 2011. The NRS also states that the money in this fund may be used only if the total actual revenue of the local government falls short of the total anticipated revenue in the general fund for the fiscal year in which the local government uses that money; or to pay expenses incurred by the local government to mitigate the effects of a natural disaster.

In addition, NRS 354.6115 states that the balance in the stabilization amount must not exceed 10 percent of the expenditures from the general fund for the previous fiscal year, excluding any federal funds expended by the local government.

During the fiscal year ended June 30, 2020, the District complied with the provisions of this section.

NOTE 16. Postemployment Benefits Other Than Pensions (OPEB)

Plan description

The District contributes to an agent multiple-employer defined benefit postemployment healthcare plan, Public Employees' Benefits Plan (PEBP). Additionally, the District administers a single-employer defined benefit healthcare plan, White Pine County School District Health Insurance Plan (WPCSDHIP). Each plan provides medical and life insurance benefits to eligible retired District employees and beneficiaries. In addition, PEBP provides dental and vision benefits.

Benefit provisions for PEBP are administered by the State of Nevada. NRS 287.043 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. Benefit provisions for WPCSDHIP are established pursuant to NRS 287.023 and amended through negotiations between the District and the respective associations. NRS 288.150 assigns the authority to establish benefit provisions to board of trustees.

Benefits provided

<u>PEBP</u>

PEBP closed to non-State public agency retirees on September 1, 2008 unless the agency's active employees are participating in PEBP. However, the District is responsible for a portion of the PEBP subsidy for a former employee retiring after September 1, 2008 from the State or from a Non-State public agency whose active employees participate in PEBP. For a retiree to participate in the PEPB program, the participant must be receiving a PERS benefit. PERS eligibility requirements vary by employee group and benefit type.

NOTE 16. Postemployment Benefits Other Than Pensions (OPEB), Continued

Those retirees and former employees who were eligible and elected PEBP coverage are entitled to a subsidy toward their premium cost based on their years of covered employment under Nevada PERS. The subsidy is shared on a pro-rata basis by the employers for which the retiree has worked and earned PERS service credit. Thus, the District is obligated to subsidize health care premiums for former employees as well as those who retired directly from the District.

The Nevada Legislature changes the benefit subsidies from time to time. The monthly subsidy continues to be based on years of credited service under Nevada PERS, though the level differs for pre-Medicare and Medicare eligible retirees. The subsidy ends at the earlier of the retiree's death or the date he or she discontinues coverage.

There are exceptions to the amounts shown below:

(a) Participants who retired before June 30, 1994 receive the 15 year subsidy, regardless of their years of covered service and

(b) Participants do not receive a subsidy if they were hired by their last employer on or after June 30, 2010, retired with less than 15 years of service and were not disabled.

<u>Agency subsidy for PEBP coverage for non-state pre-medicare retirees</u>: The subsidy provided to pre-Medicare retirees varies based on the type of plan selected (PPO or HMO) and by the level of coverage taken (e.g., single, two party, family, etc.). The chart below shows the monthly amounts payable beginning July 2019 for those with 15 years of PERS service. Actual pre-Medicare subsidies for July 2018, as invoiced to the District by individual, were used for the valuation. Some subsidy increases are expected pursuant to SB 552, to be phased in through 2022.

| | | PPO C | | | Statewide H | EPO/HM | 0 | |
|----------------------|----|--------------|----|----------------|-------------|-----------|-------|------------|
| Coverage Level | Ba | Base Subsidy | | SB 552 Subsidy | | e Subsidy | SB 55 | 52 Subsidy |
| | | | Fo | r 15 Years of | PERS S | ervice | | |
| Retiree Only | \$ | 812.88 | \$ | 215.43 | \$ | 432.09 | \$ | 5.52 |
| Retiree + Spouse | | 1,341.82 | | 557.59 | | 692.07 | | 13.43 |
| Retiree + Child(ren) | | 1,162.90 | | 513.97 | | 570.22 | | 26.82 |
| Retiree + Family | | 1,691.86 | | 856.14 | | 830.20 | | 34.73 |

<u>HRA contributions for non-state Medicare retirees covered by the Exchange</u>: Amounts paid for Medicare eligible retirees covered by the Exchange do not vary by type of plan or coverage level; they vary only by years of PERS membership service. On July 1, 2019, the monthly subsidy for retirees on the Medicare Exchange is \$13 per month per year of PERS service. The maximum benefit payable is \$260 per month.

WPCSDHIP

Employees who retire from the District are eligible to continue their coverage under the health plans and life insurance plan offered by the District to its active employees or, if they retired prior to September 1, 2008, could elect to participate in the Public Employees' Benefit Plan (PEBP).

Employees who retire from the District may elect to continue their medical, dental, vision and life insurance coverage under the programs made available to the District's active employees. Coverage is available to District retirees for their lifetime. The District does not pay any portion of the retiree's premiums. The premiums for all coverage are entirely at the retiree's own expense.

NOTE 16. Postemployment Benefits Other Than Pensions (OPEB), Continued

The only conditions to be eligible for coverage as a retiree are:

1. The employee must have qualified for and started his or her retirement benefits from Nevada PERS;

2. The employee was eligible for benefits while employed by the District; and

3. The District is the employee's last Nevada public agency employer.

<u>District plan premium rates</u>: The premium rates applicable to retirees (both before and after Medicare) are the same as those for active employees. The monthly premium rates effective July 1, 2017 were:

| | Active/ | | М | edicare- |
|---------------------|--------------|-------|----|----------|
| Coverage Level | Pre-Medicare | | | Eligible |
| Employee only | \$ | 712 | \$ | 712 |
| Employee & spouse | | 1,316 | | 1,316 |
| Employee & children | | 783 | | 783 |
| Employee & family | | 1,423 | | 1,423 |

<u>Life insurance</u>: Prior to age 65, the face amount of insurance available to certified and administrative retirees is \$50,000 and for all other retirees is \$20,000. Beginning at age 65, the face amount decreases to 65% of the original amount; for ages 70 and older, the face amount is 50% of the original amount. Retiree life insurance premiums are \$0.15 per month per \$1,000 of coverage.

Dependent coverage, if elected, is \$2,000 for each covered dependent. The premium is \$0.125 per month per \$1,000 of coverage.

Employees covered by benefit terms

PEBP

There are no active District employees covered by or eligible for coverage under PEBP. As of the June 2018 valuation date, there were 79 former employees for whom the District pays a subsidy toward the cost of PEPB coverage.

WPCSDHIP

There are 126 active employees for the June 2018 valuation. Of these, 122 were shown as currently participating in the medical program while 4 employees were waiving coverage. There are 18 retirees electing coverage on the District's medical and life insurance plans.

Contributions

PEBP

District contributions to the Plan occur as benefits are paid to retirees. In this PEBP program, the only benefit payments occur in the form of direct payments to PEBP on behalf of currently covered retirees. Contributions to the Plan from the District were \$181,706 for the year ended June 30, 2020.

NOTE 16. Postemployment Benefits Other Than Pensions (OPEB), Continued

WPCSDHIP

District contributions to the Plan occur as benefits are paid to retirees. Benefit payments may occur in the form of direct payments for premiums and taxes ("explicit subsidies") and/or indirect payments to retirees in the form of higher premiums for active employees ("implicit subsidies"). Contributions to the Plan from the District were \$55,878 for the year ended June 30, 2020.

Plan financial reports

Information about PEBP's financial report is available at <u>https://pebp.state.nv.us/</u>. WPCSDHIP does not issue a separate financial report.

OPEB liability

Net OPEB liability

At June 30, 2020, the District reported a net OPEB liability of \$2,614,342 for PEBP and \$896,133 for WPCSDHIP. The net liability was measured as of June 30, 2019 and the total liability was determined by an actuarial valuation as of June 30, 2018. An OPEB trust has not been established so the total liability is equal to net liability. There are no assets accumulated in a trust that meet the criteria in GASB 75 (paragraph 4) to pay related benefits. The total OPEB liability as of June 30, 2019 reflects a change in the use of discount rates of 3.62% as of June 30, 2018 and 3.13% as of June 30, 2019. There were no other significant changes of actuarial assumptions. The projections are based on established patterns of practice.

OPEB liability discount rate sensitivity

The following presents the net OPEB liability calculated using the discount rate of 3.13%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

| | 19 | 1% Decrease | | Discount Rate | | % Increase |
|-------------------------------|----|-------------|----|---------------|----|------------|
| Net OPEB liability - PEBP | \$ | 2,897,810 | \$ | 2,614,342 | \$ | 2,373,270 |
| Net OPEB liability - WPCSDHIP | | 961,841 | | 896,133 | | 835,231 |

NOTE 16. Postemployment Benefits Other Than Pensions (OPEB), Continued

OPEB liability healthcare cost trend rates sensitivity

The following presents the net OPEB liability calculated using current healthcare cost trend rates, as well as what the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than current healthcare cost trend rates:

| | 1% Decrease | | Me | edical Trend | 1% Increase | |
|-------------------------------|-------------|-----------|----|--------------|-------------|-----------|
| Net OPEB liability - PEBP | \$ | 2,386,058 | \$ | 2,614,342 | \$ | 2,877,527 |
| Net OPEB liability - WPCSDHIP | | 782,731 | | 896,133 | | 1,051,126 |

Actuarial assumptions

PEBP

The total OPEB liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate | 2.75% |
|-----------------------------|---|
| Salary increases | N/A – no active employee in this plan |
| Discount rate | 3.13% |
| Funding method | Entry age normal cost, closed group, level percent of pay |
| Healthcare cost trend rates | Actual 2019 increases reflected. |
| | Pre-Medicare: 6.0% on July 2020 grading down to 5.0% by |
| | 2024 |
| | Post-Medicare: 4.5% |

The basic mortality rates used in this valuation are based on the most recently published report of the Nevada Public Employees Retirement System, dated June 30, 2017, except for a different basis used to project future mortality improvements.

Non-disabled life rates for regular employees:

Males and Females: Headcount-Weighted RP-2014 Healthy Annuitant Table

These rates were then adjusted to anticipate future mortality improvement by applying MacLeod Watts Scale 2018 on a generational basis from 2018 forward (i.e. mortality is projected to improve each year until the payments anticipated in any future year occur).

The discount rate used to measure the total OPEB liability was 3.132% as of June 30, 2019. The District funds the PEBP OPEB liability on a pay-as-you-go basis. Therefore, the discount rate used in this valuation is based on the Fidelity Municipal Bond AA 20 Year Maturity Yield.

NOTE 16. Postemployment Benefits Other Than Pensions (OPEB), Continued

WPCSDHIP

The total OPEB liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate | 2.75% |
|------------------|---|
| Salary increases | 4.00% per year |
| Discount rate | 3.13% |
| Funding method | Entry age normal cost, closed group, level percent of pay |
| Healthcare trend | Actual 2019 increases reflected. |
| | 6.0% on July 2020 grading down to 5.0% by 2024 |

The demographic actuarial assumptions used in this valuation are based on the most recently published report of the Nevada Public Employees Retirement System, dated June 30, 2017, which covers the employees included in this valuation except for a different basis used to project future mortality improvements.

Non-disabled life rates for regular employees:

Males and Females: Headcount-Weighted RP-2014 Healthy Annuitant Table

Pre-retirement life rates for regular employees:

Males and Females: Headcount-Weighted RP-2014 Employee Table

These rates were then adjusted to anticipate future mortality improvement by applying MacLeod Watts Scale 2018 on a generational basis from 2018 forward (i.e. mortality is projected to improve each year until the payments anticipated in any future year occur).

The discount rate used to measure the total OPEB liability was 3.13% as of June 30, 2019. The District funds the PEBP OPEB liability on a pay-as-you-go basis. Therefore, the discount rate used in this valuation is based on the Fidelity Municipal Bond AA 20 Year Maturity Yield.

NOTE 16. Postemployment Benefits Other Than Pensions (OPEB), Continued

Plan fiduciary net position

Detailed information about PEBP's fiduciary net position is available in a separately issued PEBP financial report. WPCSDHIP does not issue a separate financial report.

OPEB expense

For the year ended June 30, 2020, the District recognized OPEB expense for PEBP of \$213,317 and for WPCSDHIP of \$63,097.

Deferred outflows/inflows of resources related to OPEB

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<u>PEBP</u>

| | Deferred Outflows of Resources | | Deferred Inflows of Resources | |
|--|--------------------------------------|---------|----------------------------------|---|
| Contributions subsequent to the measurement date | \$ | 181,706 | \$ | - |
| Total | \$ | 181,706 | \$ | |

The amount \$181,706 reported as deferred outflows of resources related to OPEB resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the subsequent fiscal year.

WPCSDHIP

| | Deferred Outflows of Resources | | | Deferred Inflows of Resources | |
|--|--------------------------------------|------------|----|----------------------------------|--|
| Changes of assumptions Plan experience | \$ | 27,316 | \$ | 113,918 74,129 | |
| Contributions subsequent to the measurement date | | 55,878 | | - | |
| Total | \$ | 83,194 | \$ | 188,047 | |
| Expected average remaining service life: | | 9.81 years | | | |

NOTE 16. Postemployment Benefits Other Than Pensions (OPEB), Continued

The amount \$55,878 reported as deferred outflows of resources related to OPEB resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ending June 30, | Deferred Outflows (Inflows) of Resources | | |
|--|---|--|--|
| 2021 2022 2023 2024 2025 Thereafter | \$ | (21,578) (21,578) (21,578) (21,578) (21,578) (52,841) | |

Combined balances for OPEB plans

The combined balances for both the PEBP and WPCSDHIP OPEB plans as of and for the year ended June 30, 2020 are as follows:

| | PEBP | | WPCSDHIP | | Combined | |
|--------------------|-----------------|----|----------|----|-----------|--|
| Net OPEB liability | \$ 2,614,342 | \$ | 896,133 | \$ | 3,510,475 | |
| Deferred outflows | 181,706 | | 83,194 | | 264,900 | |
| Deferred inflows | - | | 188,047 | | 188,047 | |
| OPEB expense | 213,317 | | 63,097 | | 276,414 | |

Assigned Fund Balance

The assigned fund balance of \$152,400 in the general fund relates to the projected other post employment benefits (OPEB) obligation on behalf of possible future retirees projected to elect coverage and be entitled to a subsidy from the District. The District has chosen to set aside, by way of this assigned fund balance, rather than maintain an insurance trust fund. Additional amounts have not been assigned.

REQUIRED SUPPLEMENTARY INFORMATION

BUDGETARY COMPARISON SCHEDULES

FOR THE FOLLOWING FUNDS:

- The **General fund** is used to account for resources traditionally associated with government which are not required legally or by sound financial management to be accounted for in another fund.
- The **Special Education Fund** is used to account for revenues received for the instruction of pupils with disabilities and gifted and talented pupils in accordance with Senate Bill 569 passed in 1994.
- The **State Special Revenue Fund** is used to account for monies provided for State funded projects.

SCHEDULE OF THE PROPORTIONATE SHARE OF THE NET PENSION LIABILITY

• Schedule of the proportionate share of the net pension liability for pension plans, see note 14.

SCHEDULE OF PENSION CONTRIBUTIONS

• Schedule of contributions for pension plans, see note 14.

SCHEDULE OF CHANGES IN THE NET OPEB LIABILITY AND RELATED RATIOS

• Schedule of Changes in the Net OPEB Liability and Related Ratios for post employment health care plans, see note 16.

NOTE 1. OPEB – Factors that Affect Trends

There are no factors (e.g. changes in benefit terms, the use of different assumptions, changes in investment policies) that significantly affect trends in the amounts reported in the required schedules.

NOTE 2. OPEB – Plan Assets

There are no assets accumulated in a trust that meet the criteria in GASB 75 (paragraph 4) to pay related benefits.

SUPPLEMENTARY INFORMATION

BUDGETARY COMPARISON SCHEDULES

• The **Debt Service Fund** is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

COMPARATIVE BALANCE SHEETS

FOR THE FOLLOWING MAJOR FUNDS:

- The **General fund** is used to account for resources traditionally associated with government which are not required legally or by sound financial management to be accounted for in another fund.
- The **Special Education Fund** is used to account for revenues received for the instruction of pupils with disabilities and gifted and talented pupils in accordance with Senate Bill 569 passed in 1994.
- The **State Special Revenue Fund** is used to account for monies provided for State funded projects.
- The **Debt Service Fund** is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

SUPPLEMENTARY INFORMATION

COMBINING STATEMENTS AND BUDGETARY COMPARISON SCHEDULES

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for specific revenues (other than expendable trusts and capital projects) that are legally restricted to expenditure for particular purposes.

Class Size Reduction – To account for money appropriated by the Nevada State Legislature. Expenditures are restricted to reduction of class size in grades kindergarten through third.

Adult Education – This funding is provided by the Nevada legislature each year to assist with programs and services for adult high school education programs and services. Expenditures are restricted to adult high school diploma programs.

Gifts and Donations – To account for various monies received from private organizations or individuals: State Superintendent Meeting Donations, PACE Coalition SVHS Grad Night Donation, E.L. Cord Foundation Donations, Hughes & Jones Music Donations, Donations – General, Science Fair Donations, WP Education Community Coalition, Spring Valley Wind Donations, Senior FFA Scholarship Donation, Jack and Renee Smith Scholarship, Pool/Pact, Mt. Wheeler Donation, Pennington Donation, Banis Donation, Samantha Anderson Donation, Memory of Ruth Donation, and WPHS Pantry Donations.

Other Special Revenue Fund – To account for various monies received from private organizations or individuals: Soda Fund.

Federal Special Revenue Fund – To account for monies provided for Federally funded projects.

School Nutrition Fund– Requested by State Department of Education and Taxation, used to pay for school nutrition program. Funded by Federal and State entitlement payments, fees and transfers from general fund.

Scholarship Fund – Donations made for the purpose of providing scholarship to students.

Capital Project Funds

Capital project funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Building and Sites Fund – This fund is used to record transactions related to receipts of rentals, sales of school property and gifts to the District as set forth in NRS 387.177 and federal funds for construction of school facilities. Expenditures are limited as set forth in NRS 387.177.

Capital Projects Fund - This fund is used to account for revenues received for capital projects from grants, taxes or private donations and the related expenditures. Within this fund, accounting is done for School Construction and Extraordinary Repair.

FIDUCIARY AND AGENCY FUNDS

STATEMENTS OF CHANGES IN ASSETS AND LIABILITIES

Fiduciary funds are used to account for assets held by the government in a trustee capacity. Agency funds are used to account for assets held by the government as an agent for individuals, private organizations, other governments and/or other funds.

Student Activity Funds – These agency funds are used to maintain the operations of the various school activities. The monies actually belong to the various clubs and classes and are maintained by each school principal.

FEDERAL AND STATE REPORTS

THIS PAGE INTENTIONALLY LEFT BLANK

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Trustees White Pine County School District Ely, Nevada

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of White Pine County School District, State of Nevada, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise White Pine County School District's basic financial statements and have issued our report thereon dated October 23, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered White Pine County School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of White Pine County School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the White Pine County School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies.

2018-001 Controls and Segregation of Duties

Compliance and Other Matters

As part of obtaining reasonable assurance about whether White Pine County School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

District's Response to Finding

The District's response to the finding identified in our audit is described in the accompanying corrective action plan. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

WHITE PINE COUNTY SCHOOL DISTRICT Notes to Schedule of Expenditures of Federal Awards June 30, 2020

NOTE 1. Summary Significant Accounting Policies and Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the White Pine County School District under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of White Pine County School District, it is not intended to and does not present the financial position or changes in financial position of White Pine County School District.

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 2. Indirect Cost Rate

White Pine County School District has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance for the year ended June 30, 2020.

NOTE 3. Federal Loans and Loan Guarantee Programs Outstanding

White Pine County School District had no balances of loan and loan guarantee programs outstanding as of June 30, 2020.

Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance

Board of Trustees White Pine County School District Ely, Nevada

Report on Compliance for Each Major Federal Program

We have audited White Pine County School District, State of Nevada's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of White Pine County School District's major federal programs for the year ended June 30, 2020. White Pine County School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about White Pine County School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, White Pine County School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of White Pine County School District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of White Pine County School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control other compliance with a type of compliance control over compliance with a type of compliance is a deficiency of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Section II - Financial Statement Findings

INTERNAL CONTROL OVER FINANCIAL REPORTING:

Material Weaknesses:

None noted

Significant Deficiencies:

2018-001. Controls and Segregation of Duties

Criteria: A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected in a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Furthermore, auditing standards indicate that the identification by the auditor of misstatements in the financial statements may be a deficiency in the District's internal controls.

Condition: The combination of deficiencies in internal control, as summarized below, is deemed to be a significant deficiency. There appears to be a lack of controls in the following areas:

- Segregation of duties and staff changes
- Tracking and monitoring payroll cost allocations for grants
- Tracking leave time and days worked
- Approval of extra duties compensation
- Timeliness of bank reconciliations
- Misstatements and reconciliations, including revenue accruals and capital assets

Cause: There are multiple factors causing the deficiencies, including the following: office staff changes (a lack of resources), including staff turnover and extended leave absences, and a lack of formal policies and procedures in certain areas. The District's payroll clerk position turned over multiple times and the business supervisor was unavailable during much of fiscal year 2020, which contributed to the lack of controls and reconciliations and to the increased misstatements.

Section II - Financial Statement Findings, Continued

Effect: These circumstances increase the potential for financial statement misstatements (whether due to fraud or error), misappropriation of assets, employee turnover, audit delays and not meeting statutory compliance requirements or deadlines.

Recommendation: We recognize the District must balance demands with respect to all aspects of its budget. In light of the risks facing the District from a lack of segregation of duties and staff changes, we continue to emphasize the importance of adequately staffing the District office, particularly as it relates to maintaining greater stability. The District should continue to consider providing the resources for cross-training in key accounting functions. The District should consider the fiscal and business process review findings and recommendations in addressing these issues.

We recommend the District develop a plan to ensure that all significant adjustments are posted to the general ledger before the annual audit takes place. The plan should address the need to perform complete and timely reconciliations of various accounts and areas including revenue accruals and capital assets.

Report of Independent Certified Public Accountants on Compliance with Statutes and Administrative Code in Accordance with NRS 354.624(4)(C) and 354.6241

Board of Trustees White Pine County School District Ely, Nevada

We have audited the basic financial statements of the White Pine County School District School, State of Nevada, for the year ended June 30, 2020, and have issued our report thereon dated October 23, 2020. Our audit also included test work on White Pine County School District's compliance with selected requirements identified in the State of Nevada Revised Statutes (NRS) including, but not limited to, NRS section 354.624 and section 354.6241.

Management of White Pine County School District is responsible for the District's compliance with the Nevada Revised Statutes (NRS) and regulations (Nevada Administrative Code). Our responsibility is to express an opinion on compliance with those requirements based on our audit and make specific statements regarding funds established and the status of prior year finding and recommendations; accordingly, we make the following statements:

There were no instances of noncompliance in the prior year which needed to be corrected.

The District has complied with the provisions of NRS 354.6113.

The District has complied with the provisions of NRS 354.6115.

White Pine County School District appears to be using all of its funds expressly for the purposes for which they were created in accordance with NRS 354.624.

NRS 354.624 requires that a schedule of all fees imposed by the District which are subject to the provisions of NRS 354.5989 be presented. The District does not impose fees that are subject to NRS 354.5989.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, White Pine County School District complied, in all material respects, with the requirements identified above for the year ended June 30, 2020.

Other matters

The results of our auditing procedures disclosed no instance of noncompliance for the year ended June 30, 2020.

The purpose of this report is solely to describe the scope of our testing of the applicable compliance requirements identified in the Nevada Revised Statutes (NRS) and regulations (Nevada Administrative Code) and the results of that testing based on the state requirements. Accordingly, this report is not suitable for any other purpose.

WHITE PINE COUNTY SCHOOL DISTRICT Schedule of Extraordinary Repair Fund pursuant to NRS 354.6105. Year Ended June 30, 2020

On June 25, 2000, pursuant to NRS 374A.010, the Board passed a resolution to establish a fund for the extraordinary maintenance, repair, or improvement of the District's facilities. Revenue for this fund is generated through a one-eighth of one percent sales tax in White Pine County. As required by NRS 354.6105 a separate fund has been established which may only be used for the extraordinary maintenance, repair or improvement of existing local government facilities or facilities which replace those facilities. A plan for this fund has been established. A detail of the actual and planned activity, stated on an accrual basis, in that fund follows.

THIS PAGE INTENTIONALLY LEFT BLANK

White Pine County School District

1135 Avenue C Ely, Nevada 89301 (775) 289-4851 FAX (775) 289-3999

Response to Findings/Corrective Action Plan For the Year Ended June 30, 2020

During the fiscal year 2018, 2019 and 2020 audits, the following significant deficiency was noted by the external, independent auditors with respect to controls and segregation of duties.

2018-001. Controls and Segregation of Duties

Response to Finding/Corrective Action Plan

The District agrees with the auditor findings and recommendations. As the auditor indicated, there are multiple factors causing the deficiencies, including the following: office staff changes (a lack of resources), including staff turnover and extended leave absences, and a lack of formal policies and procedures in certain areas. The District's payroll clerk position turned over multiple times and the business supervisor was unavailable during much of fiscal year 2020, which contributed to the lack of controls and reconciliations and to the increased misstatements.

During FY2020, the District leveraged federal funding to contract with a company called WestEd to analyze the work flow and volume in the District's central support services to identify appropriate staffing and operating efficiencies. WestEd is a nonpartisan, nonprofit research, development, and service agency that works with education and other communities throughout the United States and abroad to promote excellence, achieve equity, and improve learning for children, youth, and adults. Their final report was issued in May 2020 and identified a need for additional staffing, resources and operating efficiency measures with respect to purchasing and payroll. Management is in the process of implementing the measures from the report as well as other improvements. The District added a ½ position and is considering moving this position to full-time. Cross training and segregation of duties was delayed primarily because of an unplanned long-term absence and resignation of a key position. This position has been replaced and staffing has been stable.

The District has made significant progress in FY2021 with respect to the conditions identified by the auditor in FY2020. Duties such as deposits, data entry and reconciliations have been segregated. With the addition to staff and stability of work force, management has been able to focus on training (including cross training) opportunities to improve operations and provide essential redundancies for key services such as payroll and accounts payable. The additional position has also allowed management to assess and redistribute work flow that has helped segregate duties and facilitated the timeliness of bank reconciliations. All bank reconciliations for cash and investments are current and performed on a monthly basis. Deposits have been segregated and are no longer a responsibility of the Business Supervisor. Timely bank reconciliations and recording of deposits will help identify revenue accruals and associated journal entries. Reconciliation of the capital assets has been removed from the Accounts Payable Clerk and assumed by the Business Supervisor and CFO. In addition, the inventory control

software provider has made significant changes to their program that should help facilitate physical inventory counts and proper recording of inventory.

The District is confident that the deficiencies identified by the auditor in FY2020 have been remedied and sufficient measures implemented in FY2021.

Individuals/Entities Responsible for Corrective Action Plan

White Pine County School District

- Board of Trustees
- Adam Young, Superintendent
- Paul Johnson, Chief Financial Officer
- Ken Jones, Business Supervisor

The White Pine County School District operates without discrimination on the basis of sex, religion, national origin, age or disability in compliance with the Title VI, Title VII, Title IX, Section 504, and all other applicable civil rights legislation.
