

**What will special classes look like? (Music, Art, Library)**

- Students will be able to travel to Art, Music, and Library unless deemed necessary to have these classes in the homeroom..
- Social distancing protocols will be in place in the hallways.
- As the art, music, and library rooms are used for classes, rooms and materials will be sanitized between classes throughout the day before the next class arrives.

**What procedures will be in place for PE?**

- Physical education is a time meant to build strong bodies and have fun.
- We have taken extra precautions to limit the number of students in PE by staggering the number of classes within the same grade level.
- The PE coaches have developed activities for students to participate in while remaining within the guidelines.
- PE equipment will be sanitized after each use prior to the arrival of the next class.
- When weather permits PE will be outside on the playground with activities designed to practice social distancing as much as possible. On days the students can't go outside, PE will be in the gym and practice social distancing as much as possible.
- When outside or inside where proper distancing can be achieved, students will not be masked.

**What about field trips?**

- There will be no field trips until further notice.

**How do we send school supplies?**

- Because parents are not allowed in the building on the first day, send what you can in your child's backpack. If needed, send a little bit every day. If it is too much, drop the supplies off in the front office and we will get them delivered to the teacher.
