Volume 5, Edition 3

Kaiden Olmos, a third grader at RCES, and her mother Rocio, show one of two loads of canned goods Kaiden collected to support the Cheez and Cracker Box. She is a student in Mrs. Thomas' class.

Love goes round in circles

After learning of the support and love her mother's family experienced at the Cheez and Cracker Box on Main Street in the 1980s, Kaiden Olmos is now giving back to them. She decided to support her class by holding a can food drive at Gallop Farms in Ehrhardt, where her father, Orlando is a forman. She brought in 118 cans.

Her mother tells of how her family frequented the business when she was a child, and she was touched when Mrs. Enid Bishop gave her a baby doll.

Kaiden smiled as her mother told how this small community service has guided her in love, and she will graduate in May 2019 with a Bachelor of Science in Nursing from USC.

Gage Steen in Mrs. Mitchell's class does his part to help with recycling at RCES!

RCES Book Fair a success

RCES Librarian Mrs. Proctor wants to thank all parents, grandparents, students, and teachers who supported our RCES September book fair. Our fair was a *Win-Win* success in getting great books into the hands of children for their personal libraries.

Grandparents Day provided an opportunity for grandparents and children to enjoy breakfast together and then shop at the book fair. Thank you, too, for putting a smile on teachers' and students' faces through your generous gifts to your child's classroom library.

All proceeds will go towards purchasing new resources for the library. By synergizing or working together, we can positively influence the reading future of our students by promoting the gift of literacy.

4th grader Grayson Murdaugh shows his love of gardening through growing cabbage plants in the 3rd Grade cabbage Program. Scholarships up to \$1000 are given from Bonnie Plants.

1000 Facts Strong!!!!

Sanai Daniels, Joslyn Bishop, Jordyn Jackson, Tucker Reagan, Carington Albrittain, Jaxon Barnes— Solved 1000 Facts!!

RCES Vision Statement

We are Richard Carroll Elementary School
and together we
Learn with Passion,
Lead with Integrity, and
Succeed with Confidence.

Moultrie Coggins and Aerial Buie follow safety rules during a penny lab in Mrs. Templeton's class. Students had to make a hypothesis of which would clean the penny better: vinegar or soap.

Calendar of Events
