

Ecology - Listmania

This type of activity can be used as an introduction to the ecology unit or an opener for environmental issues. In this activity, students work in groups to make lists with a topic prompt. Students then share their list with the class by writing it on the board.

Environmental Issues Facing the World Today	Species of Animals that Should be Saved
College Majors that Relate to Ecology	Places to Visit to Enjoy the Environment
Ways that Individuals Can Help the Environment	Movies That Have an Environmental Theme or Message
Laws that Protect the Environment	Products that Have an Environmental Message or Application
