

**LELAND SCHOOL DISTRICT
REVOCATION OF CONSENT**

To: _____, Parent Date Sent: _____

Public agencies are required to provide written notice to the parent when they propose or refuse to initiate or change the identification, evaluation, or educational placement of a child or propose or refuse to initiate or change the services and supports provided to a child which constitute a Free Appropriate Public Education (FAPE).

On _____ (date), the **Leland School District** received your written revocation of consent for your child, _____, to receive special education and related services. This letter is to inform you that, although the **Leland School District** believes that your child continues to need special education and related services, the **district** will stop providing these services on _____ (date) based on your written revocation of consent for services.

When you revoke special education and related services, the **Leland School District** cannot use mediation or Due process procedures to challenge your decision to terminate services. The **Leland School District** must honor your request within a reasonable time after the receipt of your letter.

Once your revocation of consent is effective, your child will no longer be considered as a child with a disability for educational purposes and will lose all of the protections and procedural safeguards afforded to him/her by the Individual with Disabilities Education Act of 2004 (IDEA). Your child will no longer be eligible for a free appropriate public education (FAPE) as defined by IDEA. The **Leland School District** will not reconvene an IEP meeting, conduct a reevaluation, or develop an IEP. Your child will be subjected to all requirements that apply to general education students including, but not limited to, district and statewide assessments, graduation requirements, extracurricular activities, and discipline.

Revocation of consent for special education and related services is not retroactive. The district will not amend your child's records to remove any references of special education and related services. However, if you wish to have your child receive special education and related services in the future, an initial comprehensive evaluation must first be conducted (as if your child was never a child with a disability). If you do wish to have your child considered for special education and related services in the future, please contact **Tiffany Murrell , Special Education Director** to make a request for an initial evaluation.

I have included the following important information for you:

- Resource list of parent advocacy groups
- Procedural Safeguards Notice
- Other: _____

Please contact me if you have any questions regarding this information.

Sincerely,
