### Academic Recommendations for Students During the State of Emergency Break

Students who have internet access are encouraged to log on to iReady (for elementary school) and to iReady and Nearpod (for middle school) and to Nearpod (for high school). Information about those online resources is available below. Assignments, codes and instructions to access online learning will be provided to your child by his or her school from Monday, March 16, through Friday, March 20, at 3 p.m. If you need technical assistance, please contact our hotline at 221-7777.

Students who do not have internet access can pick up an academic enrichment packet from their schools. Those packets are also available on this webpage by grade level and subject matter (i.e. “3<sup>rd</sup> Grade Reading” or “High School Flocabulary”) to print and complete.

#### Students in Grades K-5

iReady will be available to all K-5 students for reading and math. The iReady program, launched through Clever, will allow our students to access daily instruction and complete course work. iReady may be accessed by a desktop, laptop, or iPad at <https://clever.com/in/mcpss>. Our teachers are trained in iReady and will be able to customize assignments and monitor progress remotely. Parent and student instructions for access to iReady including usernames and passwords will be sent home with the students today. For absent students, parents may pick up their child’s folder at the school. **Printed packets will be provided by the school for students who do not have a device or Internet access for pickup by 3 PM on Friday, March 20, 2020.**

#### Students in Grades 6-8

iReady will be available to all 6-8 students enrolled in reading/ language arts and math. The iReady program, launched through Clever, allows our students to access daily instruction and complete course work. Our teachers are trained in iReady, and they will be able to customize assignments and monitor progress remotely. iReady may be accessed by a desktop, laptop, or iPad.

Students will be offered online instruction through Nearpod lessons for science and social studies. Any device may be used to access Nearpod. Nearpod may also be downloaded from the Apple App Store and Google Play Store. Teachers will provide students a code sheet and instructions on how to join the

lesson. **Nearpod codes are school-specific and will need to be picked up from your child's school if your child is absent this week.** Elective Courses will not be offered. Students in advanced classes will receive enrichment through [Khan Academy](#) or [Discovery Education](#).

Parent and student instructions for access to iReady including usernames will be sent home with the students Monday. For absent students, parents may pick up their child's folder at the school.

**Printed packets will be provided by the school for students who do not have a device or Internet access for pickup by 3 PM on Friday, March 20, 2020.**

## **Students in Grades 9-12**

Students will be offered online instruction through Nearpod lessons for all core subjects. Any device may be used to access Nearpod. Nearpod may also be downloaded from the Apple App Store and Google Play Store. Teachers will provide students a code sheet and instructions on how to join the lesson. **Nearpod codes are school-specific and will need to be picked up from your child's school if your child is absent from school this week.** Elective Courses will not be offered. Students in advanced classes will receive enrichment through [Khan Academy](#) or [Discovery Education](#). Students enrolled in ACCESS and Connexus courses may continue with their lessons. Assessments will be given on campus later when school resumes.

For absent students, parents may pick up their child's folder at the school.

**Printed packets will be provided by the school for students who do not have a device or Internet access for pickup by 3 PM on Friday, March 20, 2020.**
