The Connecticut Mission of Mercy is affectionately referred to as CTMOM. The two day clinic provides free dental care to the underserved and uninsured in Connecticut – those that would otherwise go without dental care. Oral health is inseparable from general health and can affect a person's self-esteem, compromise their ability to work, attend school and lead a normal life. The Connecticut Foundation for Dental Outreach (CDFO) in collaboration with the Connecticut State Dental Association (CSDA) held the state's first Mission of Mercy project in 2008. Every year, the Connecticut Mission of Mercy project is held in a different location throughout the state.

### **Connecticut State Dental Association**
