

*Pauline  
Chadwick*

Ms. Chadwick is Facilitator for the Scientific Learning *Fast ForWord* program at our school, and is working in her eighth year with the program. *Fast ForWord* is Language and Reading software which strengthens the skills of memory, attention, processing, and sequencing. The reading products align to state mandates and supports existing curriculum. *Fast ForWord* Language and Reading software targets the skills that help students make the critical link between spoken and written Language. The gains students achieve are lasting, the result of enduring positive changes in their processing skills and learning capacity.

Ms. Chadwick, who is in her eighth year as Facilitator of Fast ForWord, recently attended a training seminar where she accepted a gold metal for our student's accomplishments in the *Fast ForWord* program. Decherd Elementary was recognized as a "Gold Caps" School and received a Gold Ribbon for our student's success in the program.

Ms. Chadwick has *Fast ForWord* classes from 12:00 noon until 3:00, and an additional class from 3:00 until 4:00. In the AM hours she is in the computer lab with students practicing **key boarding skills** in Microsoft Word, and creating academic slides *in PowerPoint*. Ms. Chadwick is also in the computer lab for Accelerated Reader testing and Think Link testing.

Ms. Chadwick has served as our school's annual *Talent Show* director for the past eleven years. She also maintains our sound system for school functions.
