The mood of this story was a little confusing but the “The Best We Could Do”, mood put me in a mood of emotional and something that I will have memorize about.

Summary

The summary of the story is that she tried to make sure that her future be better than her past. She did not want her child to grown up in a trauma time in his life. She went to her past to understand the history better so she could take care of the child and make sure him have a better life than she did when she was coming up in her child. She also want to make sure that everyone understand her life and what people goes through and have memory about what each family can experience when the growing up in a different world.
