

Internship Position
Dauphin Island Sea Lab: Discovery Hall Programs

Position: Marine and Environmental Science Education Intern

Organization: Dauphin Island Sea Lab

Department: Discovery Hall Programs for Education & Outreach

Location: Dauphin Island Sea Lab

Duration: 9 weeks, summer

Interests Required: ocean science, ocean technology, education

Time requirements: Approximately 20 hrs per week

Compensation: \$10 / hr

Start Date: June 1 – July 31, 2021

Job Description:

The intern will assist in preparation for Discovery Hall Programs summer camps for students of all ages. These tasks may consist of preparing for camp activities (crafts, field excursions, copying, preparing specimens, organizing supplies, etc.), accompanying student field trips to island sites, gathering equipment across campus, loading/unloading vehicles and boats, assisting in outreach events, and other duties as assigned.

Qualifications:

Students wishing to work in Discovery Hall Programs should:

- Have completed their junior or senior year of high school
- Work well with others
- Like children and people
- Be a self-starter, arriving at work on time, comfortable being held responsible for completing tasks and communicating daily with the supervisor
- Be comfortable working outside in all types of weather encountered during typical Gulf coast summers (heat, sunny, humid, rain, wind, etc.)
- Be able to lift ~25 lbs
- Be able to get themselves to and from the Sea Lab on a daily basis
- Be able to work an occasional night or weekend
- Be able and willing to communicate well with the supervisor and other departmental personnel
- Be able to provide a letter of recommendation from a counselor, teacher, or previous employer

Application Procedure:

Interested students should forward their resume and a cover letter to their school Signature Academy Specialist. Any questions about the position can be directed to Cassie Hanback, Administrative Assistant, Discovery Hall Programs at 251-861-2141, 7515 or DHPsummer@disl.org
