Assignment of Administrative Personnel

The assignment of administrative personnel is based on the overall well-being of the school system, with particular emphasis on the needs of the instructional program, the best interests of the students and the effective management of the school system. Further, the Board of Education believes that the appropriateness of each assignment will have a significant impact on the morale of the professional staff and the effectiveness of the total educational program.

The Superintendent shall have the responsibility to determine the assignment of all administrative personnel within the district. This responsibility shall include transfers or changes in assignment of administrative personnel as circumstances warrant.

When the Superintendent perceives that there is a need to transfer members of the administrative staff from one position to another or otherwise change assignment, he/she will make a thorough assessment of the attendant circumstances calling if need be upon such other personnel within the system, or outside, as shall in his/her judgment be most effective in assisting him/her to accurately make such assessment. Any transfer or change shall be made with the intent to benefit of the overall well-being of the school system as set forth above in this policy. The Superintendent shall apprise the Board of Education of such transfers or changes in assignment.
