

To Parents of the Randolph County School System:

If your student was an active daily bus rider during the spring of 2021 or if you have completed a transportation request form since May 2021, your student will automatically be assigned to a bus route for the 2021-2022 school year.

However, if your student was not an active daily bus rider during the spring of 2021 or you have not completed a transportation request form since May 2021 or your address has changed, you need to contact your child's school and complete a bus rider transportation request form.

The bus rider transportation request form must be completed and submitted to your child's school no later than 5:00pm on August 2. Thank you for your help with this matter to ensure students are assigned to a bus route in a timely manner for the 2021-2022 school year.
