Alvord Middle School – Alvord Independent School District

2021-22

It is the purpose or mission of the Alvord Independent School District to provide a safe environment and a sound educational program for all students allowing them to develop to their full potential intellectually, physically, and socially in order to become responsible citizens and contributing members of society. Inherent within this purpose and mission is the belief that all students can learn and that the school, the home, and the community can make a difference in the lives of its students.

The mission of the public education system of this state is to ensure that all Texas children have access to a quality education that enables them to achieve their potential and fully participate now and the future in the social, economic, and education opportunities of our state and nation. That mission is grounded on the conviction that a general diffusion of knowledge is essential for the welfare of this state and for the preservation of the liberties and rights of citizens. It is further grounded on the conviction that a successful public education system is directly related to a strong, dedicated, and supportive family; and that parental involvement in the school is essential for the maximum educational achievement of a child.

THE STATE OF TEXAS PUBLIC EDUCATION GOALS

GOAL #1: The student in the public education system will demonstrate exemplary performance in the reading and writing of the English language.

GOAL #2: The students in the public education system will demonstrate exemplary performance in the understanding of mathematics.

GOAL #3: The students in the public education system will demonstrate exemplary performance in the understanding of science.

GOAL #4: The students in the public education system will demonstrate exemplary performance in the understanding of social studies.

THE STATE OF TEXAS PUBLIC EDUCATION OBJECTIVES

Objective #1: Parents will be full partners with educators in the education of their children.

Objective #2: Students will be encouraged and challenged to meet their full educational potential.

Objective #3: Through enhanced dropout prevention efforts, all students will remain in school until they obtain a high school diploma.

Objective #4: A well-balanced and appropriate curriculum will be provided to all students.

Objective #5: Qualified and highly effective personnel will be recruited, developed, and retained.

Objective #6: The state's students will demonstrate exemplary performance in the comparison to national and international standards.

Objective #7: School campuses will maintain a safe and disciplined environment conducive to student learning.

Objective #8: Educators will keep abreast of the development of creative and innovative techniques as appropriate to improve student learning.

Objective #9: Technology will be implemented and used to increase the effectiveness of student learning, instructional management, staff development, and administration.

Every Student Succeeds Act (ESSA)

Highlights:

- States would still have to test students in reading and math in grades 3–8 and once in high school, and break out the data for whole schools, plus different subgroups of students (English-learners, students in special education, racial minorities, those in poverty).
- States get wide discretion in setting goals, figuring out just what to hold schools and districts accountable and deciding how to intervene in low-performing schools. While tests still have to be a part of state accountability systems, states must incorporate other factors that take into account students' opportunity to learn, like school climate, teacher engagement or access to and success in advanced coursework.
- Combines 50 programs, some that have not been funded in years, into one block grant.
- The authority of the U.S. Secretary of Education is also limited, especially when it comes to interfering with state decision-making on testing, standards and school turnarounds.
- ESSA keeps in place maintenance of effort (MOE), with some new flexibility for states.
- ESSA is only "authorized" for four more years, as opposed to the typical five. That gives lawmakers a chance to revisit the policy under the next president. Its overall authorization funding levels are largely consistent with the most recent budget deal.

Accountability:

States would still have to submit accountability plans to the Education Department (ED). These new ESSA plans would start in the 2017–18 school year. States can pick their own goals, both long- and short- term goals. These goals must address: proficiency on tests, English-language proficiency, graduation rates, and closing gaps in achievement.

GOAL 1:
