

SEASIDE SCHOOL DISTRICT
Instruction and Connectivity Survey

Student Last Name: _____ First Name: _____

School: _____ Grade: _____

DISTANCE LEARNING (choose one)*:

- Comprehensive Distance Learning (CDL)/Hybrid Model:** CDL/Hybrid is for students and families who are interested in attending school in-person when it is allowable and safe to do so; however, we will begin the year with Distance Learning. If students select this option, students will be assigned a regular schedule and classroom teachers who coincide with their peers. Students will pivot to the Hybrid Model when it is safe to do so and allowable by the state of Oregon. We must follow the CDL guidelines and will have synchronous teaching/check-ins with students daily.

- Online Thrive:** Students and families who select Online Thrive will participate in a 100% online curriculum that is facilitated by Seaside School District staff. This option is a separate program for families who want a yearlong online option for their students. If students select this option, they will be connected with a Seaside School District staff member and enrolled in online classes, but not a classroom of students. Students will stay in this program even if the district pivots to a Hybrid Model. The staff member assigned to this program will check in with the family/student two times per week, but will not be providing any synchronous teaching. In this option, students are expected to be supported at home by an adult or older sibling daily since their assigned teacher will not be checking in with them daily. Parents will have the opportunity to switch to the CDL/Hybrid Model at the trimester if this option is not working well for their student.

**Cannon Beach Academy students MUST choose Comprehensive Distance Learning (CDL)/Hybrid Model.*

HOME ACCESS:

1. Device for Distance Learning (choose one):
 - Yes, my child has access to a device (greater than 4 hours per day)
 - Yes, my child has access to a device (less than 4 hours per day)
 - No, my child does not have access to a device

2. Internet Access At Home (choose one):
 - Yes, my child has reliable internet access at home daily
 - Yes, my child has reliable internet access at home, but not daily
 - No, my child does not have reliable internet access
