

To our Awesome Parents:

In an effort to assist parents in reducing the “summer loss of learning”, we have created Summer Packets for students in grade levels Pre-K-8. Each Summer Packet consists of math, reading, language, and writing activities. The goal of the packets is to have students work for about 15-20 minutes on skill-based activities (IN EACH SUBJECT) to continue learning for the upcoming school year. The activities are designed to be a review of material from the past school year and have been pulled from our current reading and math series so they should be familiar to you and your child. We hope that you will find these Summer Packets to be a tool to help reduce the “summer loss of learning”, but also fun. Students that complete their packets, and return them to school in August, will be allowed to receive two 100 starting off the school year in both ELA & Math, along with an incentive! We also encourage you to reward your child at home for their efforts in completing these activities. Below you will find assigned pages for each grade level mathematics pack for eight weeks.

	Pre-K
Domain	Numbers Within 5
Wk. 1	Pp. 41-44
Wk. 2	Pp. 45- 50
Wk. 3	Pp. 51-55
Wk. 4	Pp. 56-58
	Numbers Within 10
Wk. 5	Pp. 107-112
Wk. 6	Pp. 113 - 118
Wk. 7	Pp. 119-124
Wk. 8	Pp. 143148-

	Kindergarten	First	Second	Third	Fourth	Five
