

Special Education

Special Education is individualized education and support services that assist children with disabilities to do well in school. Special Education is provided under the IDEA law and the Alabama Administrative Code. Parents and families are key partners and decision makers in the special education process with school teams called IEP teams.

Autauga City Schools and the *Alabama Parent Training and Information center* are collaborating to provide you with information and support to enable you to be the best advocate for your child. Please join us for valuable training that can help you to understand and be an informed participant in your child's IEP.

The following training opportunity is provided for you to gain knowledge about Special Education. You will gain knowledge of the IEP form, team, process, and your rights as a team member. Everyone is welcome.

Special Education Basics

Date: Thursday October 22, 2020

Time: 12:00pm – 1:00pm CDT
