White Pine County School District

1135 Avenue C Ely, Nevada 89301 (775) 289-4851 FAX (775) 289-3999

October 30, 2014

To the Citizens of White Pine County School District:

The ensuing report represents the fiscal year ended June 30, 2014 annual financial report for the White Pine County School District. The purpose of the financial report is to provide readers with a representation of the District's financial position and activity for the fiscal year.

Nevada Revised Statute (NRS) 354.624 requires the District undergo an audit performed by an independent certified public accountant on an annual basis. Each annual audit must be concluded and the report of the audit submitted to the governing body no later than four (4) months after the close of the fiscal year for which the audit is conducted. An extension of this time may be granted by the Nevada Department of Taxation to any local government that submits an application for an extension due to circumstances beyond their control.

The District is also required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and U.S. Office Management and Budget Circular A-133, Audits of State and Local Governments, and Non-Profit Organizations.

White Pine County School District History

In 1869, twelve counties existed in Nevada. These counties were: Elko, Esmeralda, Humboldt, Ormsby, Washoe, Storey, Douglas, Lincoln, Lyon, Churchill, Nye, and Lander. An act of the Legislature created White Pine County from part of Lander County and located the new county seat at the townsite. Ely became the county seat by action of the Nevada Legislature and the foundation for the original courthouse was laid September 3, 1887.

Prior to 1956, each town was its own school district. In 1956, county school districts were created and their boundaries were coterminous with the county boundaries hence the creation of the White Pine County School District. School Districts were organized pursuant to Nevada Revised Statute Chapter 386 and are political subdivisions of the State. There is one school district serving the county with responsibility for all public education from kindergarten through the twelfth grade.

BOARD OF SCHOOL TRUSTEES

Irene Chachas, Chair ● Denys Koyle, Vice Chair ● Bunny Hill, Clerk Lori Hunt, Member ● Matt Hibbs, Member ● Pete Mangum, Member ● Cyndi Sanborn, Member Bob Dolezal, Superintendent The District has a seven member Board of Trustees. Board members are elected for four-year terms by the voters in the District. The Board elects one of its members as chairperson, one as vice chairperson, and one of its members as clerk. Board meetings are held the first and third Tuesdays of each month while school is in session and asneeded during the summer.

Mission Statement

White Pine County School District is committed to providing excellence in education for each and every student.

Vision

Our vision is to be a district where students and staff continually develop and refine core academic learning, social development and successful life skills, with exposure to career and technical education.

Highlights

The District experienced a loss of instructional and support staff positions due to a decline in the state budget and the sun setting of several federal and state grants. Despite the loss of staff the district has been able to maintain its educational programs, in part due to the willingness of teachers, administrators and support staff to do more for the same or reduced compensation including a district wide salary freeze for the 2012-2013 school year. White Pine Middle School was named as a National Model School by the International Center for Leadership in Education (I.C.L.E.) for the fourth consecutive year. White Pine Middle School and White Pine High School have both been selected to present at the ICLE National Model Schools conference in June 2012. The White Pine County School Board approved continuation of a four day school week at district schools (with the exception of Baker Elementary). This schedule has been used district-wide since the 2009-2010 school year. All schools use the Professional Learning Community model for professional development. The Professional Learning Community model serves as the mechanism to drive school improvement. McGill Elementary school continues to offer a pre-school for qualified three and four year old students. This program is funded through grant monies and has proven an effective means of improving student achievement in its participants. White Pine County School District has provided Sheltered Instruction Observation Protocol (S.I.O.P.) training to assist our English Language Learners (E.L.L.), training in autism testing and best education practices, as well as sign language interpreter training. By training a core of staff members in each school throughout the district White Pine County School District can better serve these students and improve their academic performance. David E. Norman Elementary and McGill Elementary were recipients of the 21st Century Grant. This multi-year grant provided funding for after school tutoring and academic enrichment activities for participating students. With the loss of the grant for the 2012-2013 school year, the district was not going to be able to offer any after-school services. Under the direction of the former after-school program director, Ms. Artava Gross, funds were secured from several benefactors including Barrick Nevada Mining, Mid-Way Gold Mining, Mt.

Wheeler Power Cooperative and the Rotary Club of Ely. With these donations the district was able to sponsor an after-school program at Norman Elementary serving 23 students. White Pine Middle School continues with a school-within-a-school program for middle school students who are credit deficient or experiencing problems in the regular classroom environment. This has been one contributing factor in the reduction of the number of students failing classes and has enabled students to complete the required coursework to be eligible to enroll in high school. White Pine Middle School has taken an active role in training staff and educating students as part of a proactive effort to combat bullying. White Pine Middle School has attained notoriety for its implementation of strategies used to identify bullies, assist identified bullies in becoming better citizens and helping every student identify ways to combat bullying. White Pine High School continued to use the Freshman Achievement Program for all freshman students who are credit deficient. Another program which has been highly effective has been White Pine High School's Senior Achievement Program which is designed to assist students in preparing for life after they have completed their secondary education experience. Baker Elementary School, serving students grade 3-6, continues to meet AYP standards. Community involvement in the school remains high with support from both parents and the business community which are strong advocates for their students and the school. The White Pine County School District Board of Trustees continues to be active in the Nevada Association of School Boards and was recognized at the NASB Annual Conference as the 2012 School Board of the Year. The board continues to foster a sitebased decision making process within schools and provides guided autonomy to each school site allowing the schools to develop plans to meet board goals and address the need of individual schools in supporting student achievement. The Board of Education has been developing a long range strategic plan for the school district. The board meets on a regular basis to review and update this plan.

Goals and Objectives

Each year the District holds a series of public meetings to identify goals and objectives. The purpose is to review prior goals, track progress, obtain feedback and modify the goals and objective to improve the quality of our services.

Student Achievement:

- 1. All instructional staff will receive professional development to increase their understanding and to facilitate instruction regarding the common core state standards.
- 2. All students will meet or exceed state standards in all core areas.
- 3. The district will fully implement the Measured Academic Progress Assessment to target instruction in order to meet student academic needs and to improve student academic performance.
- 4. Each school site will increase student performance for the English Language Learner (ELL), Individualized Education Plan (IEP) and Free/Reduced Lunch (FRL) populations.
- 5. The school district has increased the number of dual credit courses offered through Great Basin College. White Pine High School is providing time during the

instructional day for high school students to complete on-line college courses.

Facility and Transportation:

- 1. Internal improvements to all facilities.
- 2. Establish a rotation schedule for replacement of all district vehicles and establish a budget to meet this need. During FY 2013 the district was able to purchase two vans and two personal vehicles for transportation of students and staff.

Professional Development:

- 1. The district will establish funding to support professional development for both classified and certified employees.
- 2. Teachers and administrators will become proficient at using Measured Academic Progress assessment to target and guide instruction.
- 3. Academic review teams will be reviewing and revising the curriculum and instructional strategies for math and language arts to meet the requirements of the common core state standards.

Information Technology:

- 1. Upgrade district network capability.
- 2. Use E-rate to upgrade district network and support services
- 3. Establish budget and schedule to upgrade information technology software.
- 4. Establish budget and schedule to upgrade information technology hardware.

Parental Involvement:

- 1. Continue to survey parents to measure the impact of the four day school week.
- 2. Upgrade technology to further encourage/support parental involvement.
- 3. Parent Involvement Committee will meet on a regular basis to develop and implement parental involvement strategies.

Career and Technical Education:

- 1. Review and revise the K-12 School-to-Career program and District Career Guidance Program.
- 2. Update GBC articulated agreements and CTE Skill Certificates.
- 3. Update CTE programs by including new projects such as solar power construction in the Construction Trades Program.

School Climate:

- 1. Implement citizenship and anti-bullying program K-12 with the focus on the Leader in Me as the major component of instructional citizenship curriculum
- 2. Implement an anti-cyber bullying program.
- 3. Provide parents with information about the different types of bullying and measures that can be taken to protect their children at all district schools.
- 4. Update the District's Emergency Response Plan.

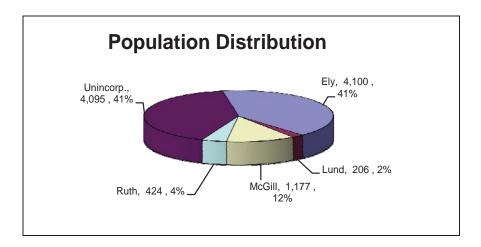

This information is also contained in the District's state mandated Accountability Report that can be viewed online at http://www.nevadareportcard.com/.

White Pine County Demographic Characteristic

The White Pine County School District is located in east central Nevada and is bordered by Elko County to the North, Eureka County on the West, and Lincoln County on the South. The State of Utah borders White Pine on the East. The boundaries of the District are the same as the boundaries of the County. White Pine is one of the largest counties in the United States, covering 8,941 square miles, has a sparse population of 10,002¹ and is larger than the State of Massachusetts. Ely, with an estimated population of 4,100, is the largest population center in the County and is the largest community within a 180 mile radius.

White Pine's landscape is dominated by north-south mountain ranges with elevations up to 13,000 feet. Between the mountain ranges are long, narrow valleys that range from 5,000 to 7,000 feet in elevation. These valleys are the sites of transportation corridors, agricultural activity, industrial development and urban development.

The communities of Lund and Baker are primarily supported by agriculture. The communities of Ely, Ruth, and McGill were originally founded and supported by mining. The following graph illustrates the population distribution within the County.

Small geographic areas known as Baker, Preston, and Cherry Creek are included in the unincorporated portion of White Pine County and do not have the ability to assess taxes.

White Pine County Local Economy

The natural resources and mining industries account for approximately 27% of the labor force in White Pine which is similar to the prior year. This is in sharp contrast to a decade ago when the same industry accounted for 6% of the work force. During fiscal

 $^{1. \} http://nvdemography.org/wp-content/uploads/2014/03/Popul-of-Nevadas-Counties-and-Incorp-cities-2013-Certified-Series-012614-Final.pdf$

year (FY) 1998, the largest local mining operation, a copper mine, reduced its workforce and subsequently closed. From FY1999 through FY2004, mineral prices fell and the mining industry reduced employment to a minimum which caused a significant recession. In FY2005, the industry rebounded demonstrating the classic mining boom and bust cycles inherent in many rural Nevada mining communities.

The government sector has remained a significant and stable influence on White Pine's job market. In calendar year (CY) 2013, the government segment reflected 1,400 jobs and approximately 33.5% of employment. In CY2000, when mining faltered, government reported 1,320 jobs or approximately 42% of total employment. The table below illustrates employment by industry segment.

Industrial Employment Summary

| maaoma | | | | | |
|------------------------------------|----------|------------|-----------|--------|------------|
| | CY = Cal | endar Year | | | |
| White Pine County | CY2013 | CY2012 | | CY2013 | |
| - | Avg | Avg | Inc/(Dec) | Avg | % of Total |
| | | | | | |
| Total All Industries | 4,180 | 4,330 | -150 | 4,180 | 100.00% |
| Natural Resources and Mining | 1,140 | 1,180 | -40 | 1,140 | 27.27% |
| Construction | 120 | 210 | -90 | 120 | 2.87% |
| Manufacturing | 20 | 30 | -10 | 20 | 0.48% |
| Trade, Transportation & Utilities | 510 | 510 | 0 | 510 | 12.20% |
| Information | 20 | 20 | 0 | 20 | 0.48% |
| Financial Activities | 90 | 90 | 0 | 90 | 2.15% |

| Other Services | 60 | 60 | 0 | 60 | 1.44% |
| Government | 1,400 | 1,390 | 10 | 1,400 | 33.49% |
| | | | · | | |

Note: The information on the table above was obtained from www.Nevadaworkforce.com. This table reflects employment by place of work and does not necessarily coincide with labor force concepts. The table includes multiple jobholders. Detail may not add to total due to rounding.

http://www.nevadaworkforce.com/aspdotnet/search/adSearch.aspx?quickSearch=2013+industrial+employment+summary.

Education and health services could also be included in government. There is one public school system serving White Pine County and the hospital is a quasi-governmental entity that is subsidized in part through property taxes. With these segments added together, the percent of employment is approximately 36%. Average employment was down 3.5% from the prior year. With the exception of the government segment, all of the segments remained the same or declined. Because employment in natural resources and mining can be volatile, it is important to note that this segment represents 1,140 jobs or approximately 27% of the workforce. Although mineral prices have slumped recently, there is no indication that the current and proposed mining operations are at risk. In fact, one mining operation is under construction and is expecting to be in production within 12 months. Two other gold mines are in the permitting stages.

The table below compares the White Pine industrial average employment for calendar year 2000 with 2013.

White Pine County & Nevada Average Wage Comparison

| | Av | g. Annual Wage | Α | vg. Annual Wage | | | |
|------------|----|-------------------|----|--------------------|----|-----------|-------------|
| | | 2000 | | 2013* | | Inc/(Dec) | % Inc/(Dec) |
| White Pine | \$ | 29,131 | \$ | 49,900 | \$ | 20,769 | 71.30% |
| Nevada | \$ | 32,275 | \$ | 42,947 | \$ | 10,672 | 33.07% |
| Difference | \$ | (3,144) | \$ | 6,953 | | | |

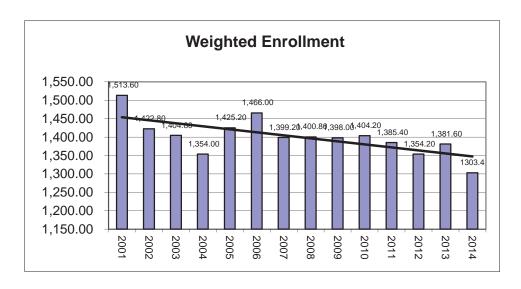

http://www.nevadaworkforce.com/admin/uploadedPublications/3412_2013_E&P_final.pdf

The table above shows the dynamics of wages during distinctly different phases of mining. The year 2000 was chosen because it represents a year where there was little mining influence on the county. As the table indicates, when the mining industry declined, annual average wages in White Pine were approximately \$3,144 less than the statewide average. In sharp contrast, now that mining has surged, the average wage in White Pine is approximately \$6,953 more than the statewide average.

When mining is prosperous, school districts have difficulty finding and retaining qualified support staff because mining operations can typically offer more for positions with similar skills. In order to compete for labor, the District has chosen to increase certain wage classifications through collective bargaining. When the mining industry cycles, it will be difficult to normalize wages through collective bargaining to reflect the change in market conditions.

Currently employment and student enrollment are stable. However, because mining represents a significant portion of the workforce, changes in mineral prices and exploration and extraction costs could adversely affect employment, enrollment and local revenue.

The following table illustrates and compares enrollment from FY2001 through FY2014.

^{*}The comparison above was taken from the Nevada Employment and Payrolls 2013, Page 23; Nevada Counties 2013 Total Payrolls with Average Wages.

In 1996 when total weighted enrollment climbed to 1,933.6 students, the District was faced with a shortage of classroom space and considered options to expand or construct facilities. Since that time, the District has realized a decrease in enrollment of approximately 550 students or 28% of its student population despite the resurgence of mining. Classroom space is no longer an immediate concern. We speculate that the intermittent mining activity has created a sense of instability in the local labor market causing families to be cautious about moving. In FY2014, enrollment declined further because a charter elementary school opened. Approximately 120 elementary students migrated to the charter school.

The short-term (1 - 5 years) and mid-term (5 - 10 years) forecasts appear to be positive due to the continued mining activity. Midway Gold is expected to be operating within 12 months and two other gold mines are in the federal permitting stages. An energy transmission line through White Pine County to Las Vegas has been constructed and increased the potential for energy development. These projects could lead to further expansion of the mining industry and development of renewable energy.

Because of the speculative nature and significant presence of mining, it is difficult to maintain an optimistic view of the long-term economic picture. As the past has proven, mining is an intermittent industry influenced by global factors that can threaten operations. The District has built reserves to hedge for the industry's eventual downturn but these reserves are limited and short-term.

Long-term Capital Asset and Construction Demand

Currently, local economic factors and tax limitations inhibit the District's ability to issue debt or raise funds to adequately meet school construction needs. Because revenue is limited, the District has had to focus on repair and improvement of existing facilities instead of replacement, expansion or construction of new facilities. School building bonds authorized by NRS 387 remain the primary means of financing school improvements and construction in Nevada but unfortunately are not an option in White Pine due to statutory tax limitations. School construction bonds issued in 1993 and local economic factors forced the property tax rate to its maximum allowable limit since 1997. This means the District has been unable to issue additional bonds or assess a capital levy to address capital demands. Should the student population rise to levels attained in 1996, the District will once again be faced with school construction issues and potentially an inability to fund construction.

In November 2008, the District received voter approval of a rollover bond initiative. This allowed the district to issue additional debt within the existing debt rate of 24.9 cents per \$100 of assessed valuation. If property tax revenue exceeds the principal and interest of the voter approved bonds, the District can use the surplus on a pay-as-you-go basis to fund capital projects providing prescribed fund reserves are met. Through June 30, 2013 the District transferred approximately \$1.5 million through this mechanism to fund capital improvements. The District is currently seeking to a secure bond issue from \$6 to

\$9 million to assist with facility improvements but will not be sufficient to replace or build new schools.

School construction and deferred improvements represent a tremendous obstacle. Based on recent estimates, the District has approximately \$75 million in deferred construction and capital improvements. Facilities that were built in the early 1900's are still in existence and are currently used for education. Approximately 50% of the student population is housed in facilities that were originally constructed a century ago. The original facility currently known as David E. Norman Elementary, White Pine's largest elementary school, was constructed in 1909. The historic White Pine Middle School, formerly White Pine High School, was originally constructed in 1913. These school facilities have physical barriers that make it difficult to comply with Americans with Disability Act (ADA) requirements and typically cost more to operate and maintain than newer schools. In addition to ADA, there have been changes in building codes, construction, educational standards and methods of instruction that influence and challenge the District's ability to offer quality and equitable educational facilities and services. This can put our students at somewhat of a competitive disadvantage compared with other communities with new schools. Basic items such as employee parking lots and air conditioning systems were not considerations for school construction in White Pine at the beginning of the 20th century. Three of six schools have inadequate parking and student loading zones and four have no, or inadequate, air conditioning systems.

Repairs, maintenance and improvements have been met with General Fund; Building and Sites Fund; and Extraordinary Repair, Maintenance, and Improvement Fund. Additional assistance has been secured through federal grants, installment purchase agreements, donations and private foundations. Without assistance from the state or federal government, change to the local economy and/or legislative reform, it is likely that the list of deferred capital projects will continue to grow.

Investments

The White Pine County School District invests any excess cash with the Nevada State Treasurer's Local Government Investment Pool (LGIP) and money market accounts through Nevada Bank and Trust (NBT) and the Nevada State Bank (NSB). Government securities are pledged to secure the funds held with both banks. The money market account with NBT is used similar to a sweep account. Money is transferred to the operating checking account as needed to cover checks presented for payment. The money in the NSB account will be used to pay a lump-sum payment of principal to retire Qualified Zone Academy Bonds that mature March 11, 2015.

The net interest rates on the District's cash and cash equivalents as of June 30, 2014 were as follows:

| LGIP funds | 0.0885% |
|------------------|---------|
| NBT Money Market | 0.15% |
| NBT Checking | 0.05% |

Risk Management

The District is a member of the Nevada Public Agency Insurance Pool (POOL) for insurance other than employee health insurance and the Public Agency Compensation Trust (PACT) for worker's compensation. Both entities are pools of local government entities that combine resources to obtain a better value. The pool concept was created under the Nevada Interlocal Cooperation Act and involves similar public agencies joining together with a common purpose to manage their risks better, share in funding the cost of risks, and stabilize and reduce the costs of risks and insurance. POOL began operations on May 1, 1987 with four members and PACT began operations on April 1, 1996 with the members of POOL. Both POOL and PACT have over 100 local governments and agencies as members. POOL and PACT are governed by its members. The maintenance deductible is \$5,000 with a \$300 million blanket loss limit.

The District has a Facilities/Safety Committee that was created to analyze and provide recommendations to the Board of Trustees for facilities improvements and worker safety. This committee was responsible for completing a comprehensive written safety manual and program. The committee meets monthly to review facility and safety issues and orchestrated a mock earthquake drill at its White Pine Middle School. Fire and safety personnel throughout the County were involved. The purpose of the drill was to not only to test the communities resolve with respect to a natural disaster but also for staff to become familiar with the crisis response protocol. Because of the positive feedback and significance of the event, the committee plans on having future mock drills.

Summary

Despite economic challenges, the White Pine County School District Board of Trustees have acted responsibly and made appropriate budget decisions to adapt to financial challenges. Mineral exploration, construction of an energy transmission line and renewable energy plants bring opportunity for economic development that will help stabilize the local economy for the foreseeable future but does not solve the District's financial uncertainty. Also, the District is dependent upon State revenue for a significant portion of its operating budget. State budget struggles directly influence the District's budget. The District continues to streamline and reduce operations in a manner to preserve instructional services while meeting fiscal constraints. As resources continue to shrink, class sizes increase and employees assume additional responsibilities and reduced compensation. In spite of the obstacles, White Pine schools continue to meet or exceed federal and state requirements to meet adequate yearly progress (AYP). It is important to recognize and commend the Board members, volunteers, teachers, support staff, administrators, and community for their collaborative efforts to make the White Pine County School District one of the most personable, quality educational environments in Nevada.

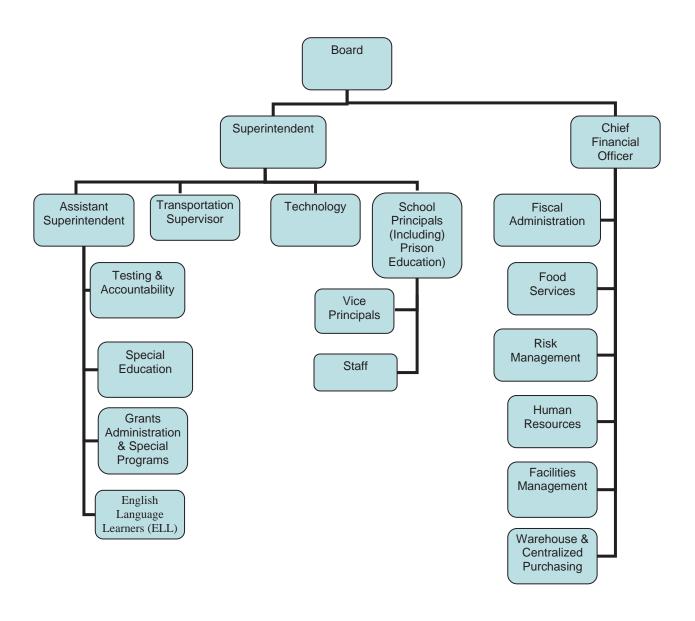

For additional information with respect to the White Pine County School District or this annual financial report, please contact us at your earliest convenience.

Sincerely,

Paul Johnson Chief Financial Officer White Pine County School District (775) 299-4851 x125 (775) 289-3999 (fax)

INDEPENDENT AUDITOR'S REPORT

Board of Trustees White Pine County School District Ely, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of White Pine County School District, State of Nevada (a Nevada local government unit) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of White Pine County School District, as of June 30, 2014, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Report on Summarized Comparative Information

We have previously audited White Pine County School District's financial statements for the year ended June 30, 2013, and our report dated October 28, 2013, expressed an unmodified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2014, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and schedule of funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the White Pine County School District's basic financial statements. The introductory section, combining and individual nonmajor fund and project financial statements, schedules of changes in fiduciary net position, schedules of capital assets used in the operation of governmental funds, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund and project financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements

and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund and project financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section, schedules of changes in fiduciary net position, schedules of capital assets used in the operation of governmental funds, and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2014, on our consideration of White Pine County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering White Pine County School District's internal control over financial reporting and compliance.

White Pine County School District Management's Discussion and Analysis June 30, 2014

This section of the White Pine County School District's annual financial report presents a discussion and analysis of the District's financial performance for the fiscal year ended June 30, 2014. Management's discussion and analysis (MDA) is supplementary information that is intended to provide a readable analysis of the District's financial activities. The MDA is required *before* each basic financial statement and provides an analysis of the District's overall financial position to help the user assess the District's financial position compared with prior year's activity. We encourage readers to read the MDA in conjunction with the letter of transmittal and the financial statements which immediately follow this section.

Financial Highlights

- The District qualified as a low-risk auditee and the auditor's report offered an unmodified opinion. This provides the highest level of assurance of the District's financial activity.
- The District's assets (net of depreciation) exceeded liabilities by \$18,608,663.
- Overall, total governmental revenues increased by approximately \$893,672 or 5.2% compared with FY2013. State sources increased by \$2,027,455 (28%) that offset decreases in local sources of \$953,441 (11%) and federal sources of \$183,659 (15%).
- General Fund revenue remained stable. Revenue increased by \$347,514 or 2.8%.
- The General Fund realized an operating deficit of \$1,231,237 reducing the fund balance by approximately 42%. The ending fund balance at year-end was approximately \$1.7 million including a stabilization fund of \$805,803.
- Significant capital improvements were completed at the David E. Norman Elementary (DEN) and Baker Grade School campuses. The DEN improvements of approximately \$727,000 were designed to improve parking, transportation, student and public safety. The Baker school improvements of approximately \$286,000 were designed to improve the exterior structure of the facility and included a pitched roof and reinforced, stucco exterior walls.
- The District was able to transfer \$350,000 from its debt services fund for capital improvements and realized a fund balance of \$1,636,462.
- The School Board authorized a bond issue up to \$9 million for facility improvements. The District will make improvements to as many facilities as the funding will permit.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the District's basic financial statements. The basic financial statements consist of the following components:

- 1. Government-wide financial statements
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

Notes to the financial statements provide additional detail and information about the District's accounting practices, financing arrangements, capital assets, and significant financial and economic events. Review of the notes helps the public understand the financial position. The audited financial reports provide a reasonable assurance about whether the basic financial statements represent fairly the District's financial situation.

Government-Wide Financial Statements. The government-wide statements are designed to provide readers with a broad overview of White Pine County School District's finances in a manner similar to private-sector businesses. They consist of a Statement of Net Position and Statement of Activities. Prior to the implementation of GASB 63, the Statement of Net Position was referred to as the Statement of Net Assets.

<u>Statement of Net Position</u>: This Statement of Net Position reports all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Also, the amount invested in capital assets, net of related debt, was changed to "net investment in capital assets".

The Statement of Net Position can be useful in assessing the District's ability to cover its costs and to continue financing services in the future. Comparing total assets with total liabilities provides information about what the District owns versus what the District owes. The Statement will also determine how much of the District's net position can be used to provide new services or start new programs, versus how much is invested in capital assets or restricted for specific purposes. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

Statement of Activities: The statement of activities presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g. earned but unused vacation leave). The Statement of Activities also helps explain how the District's net position changed during the fiscal year by providing a comparison of public services (expenses) and the resources obtained to finance services (revenues). This Statement is helpful in learning where the District gets its resources and how they are spent.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other state and local governments, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. Fund financial statements are used by government entities to provide details and report activity related to the District's governmental, business-type (a.k.a. proprietary), and fiduciary funds. White Pine, however, has no business-type activities to report.

Governmental Funds: Governmental funds report the finances of a school district's most basic services which are generally the same as the governmental activities. However, the governmental fund financial statements are prepared using the modified accrual basis of accounting instead of the accrual basis of accounting. Accrual accounting recognizes revenues and expenses in the accounting period in which they have been earned or incurred, regardless of when cash is

received or paid. Generally, under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. Expenditures are recognized when the related liability is incurred. There are a few exceptions to the general modified accrual expenditure recognition criteria such as unmatured interest on general long-term debt but generally revenues are recorded as mentioned previously.

The governmental fund financial statements show the major funds (or larger funds) individually and total the remaining governmental funds in a single column. GASB Statement No. 34 specifies several provisions regarding major funds. Major fund reporting is required only for governmental funds and enterprise funds each year. Because this is done on a year-by-year basis, some funds may be major funds one year but not in another year. If the fund does not qualify as a major fund, it is included in the "other governmental" category.

<u>Major Funds</u>: Major funds represent the government's most important or significant funds. There are three provisions for determining which governmental funds and enterprise funds should be considered major funds:

- 1) The general fund is always a major fund.
- 2) Any other governmental fund or enterprise fund is required to be reported as a major fund in any year that the total assets, liabilities, revenues, or expenditures/expenses (excluding extraordinary items) of that individual governmental fund or enterprise fund are both:
 - a) 10 percent or more of the corresponding total (assets, liabilities, and so forth) for all funds of that category or type (i.e., total governmental funds or total enterprise funds), and
 - b) 5 percent or more of the corresponding total for all governmental funds and enterprise funds combined.
- 3) Any other governmental fund or enterprise fund that government officials consider particularly important to users may be reported as a major fund.

In addition to the major funds, individual fund data for each of the non-major governmental funds is provided in the form of combining statements elsewhere in the report (refer to the table of contents).

Notes to the Financial Statements. The notes to the financial statements disclose additional information essential to representing the District's financial status accurately and completely. They are an integral part of the financial statements and are necessary for a full understanding of the data provided. The notes disclose information such as accounting and budget practices; finance, legal and contractual information; financial obligations, and significant economic events and transactions. Refer to the table of contents for the location and page numbers of the notes to the financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information. The combining fund statements are presented immediately following the notes to the financial statements. The District may include other information it feels is necessary to help better understand this annual report and the financial condition of the District.

Government-wide Financial Analysis

The comparison of assets to liabilities provides an indication of the District's ability to meet current and long-term demands. The table below illustrates the net position of the District.

White Pine County School District's Net Position

| Description | overnmental Activities | June 30, 2013 Governmental Activities | Increase (Decrease) |
|--|---------------------------|---|------------------------|
| Current Assets | \$ 5,344,213 | \$ 7,720,699 | \$ (2,376,486) |
| Capital Assets | 22,431,655 | 22,589,081 | (157,426) |
| Total Assets | 27,775,868 | 30,309,780 | (2,533,912) |
| Current Liabilities | 1,753,613 | 1,626,491 | 127,122 |
| Current portion of long-term liabilities | 1,816,034 | 1,094,999 | 721,035 |
| Long-term Liabilities | 5,581,575 | 7,021,077 | (1,439,502) |
| Total Liabilities | 9,151,222 | 9,742,567 | (591,345) |
| Total deferred inflows of resources | 15,983 | 287,699 | - |
| Net Position | | | |
| Net Invested in Capital Assets | 16,976,354 | 16,215,979 | 760,375 |
| Restricted | 2,693,708 | 3,684,753 | (991,045) |
| Unrestricted | (1,061,399) | 378,782 | (1,440,181) |
| Total Net Position | \$ 18,608,663 | \$ 20,279,514 | \$ (1,670,851) |

The District's assets exceeded liabilities by \$18,608,663 as of June 30, 2014. The largest portion of total net position, \$16,976,354, is invested in capital assets. Capital assets are items such as land, buildings, equipment and other physical, tangible items that are used in the regular course of business and are not easily converted into cash nor are they available for future spending.

A comparison of current assets and liabilities called a current ratio provides a liquidity measure of the District's ability to pay short-term obligations. Current assets are assets that are reasonably expected to be converted into cash within one year in the normal course of business. These include items such as cash, marketable securities, prepaid expenses and other items that can easily be converted to cash to pay liabilities. Current liabilities are obligations or expenditures that are due within one year. This includes the current liabilities and current portion of the long-term liabilities in the table above. Current assets exceeded current liabilities by a ratio of \$1.5 to \$1. This means that for each \$1.00 of current liabilities there was \$1.50 of current assets to cover what was owed.

Current assets were significantly lower than FY2013 because the District's fund balance decreased by approximately \$2.2 million. A significant portion of the fund balance was used to stabilize operations. This also affected the total net position.

The District's Net Position decreased by \$1,670, 851. The following Changes in Net Position provides an analysis of revenues and expenditures that help understand the decrease in net position.

<u>Changes in Net Position:</u> The Changes in Net Position provides a comparison of the resources (revenues) of the District with the costs of the services (expenses) including any extraordinary or special items and/or prior period adjustments.

Business-type activities (also known as proprietary funds) reflect functions that are supported through user fees or charges other than typical governmental revenue that pay for the operation. The White Pine County School District currently has no business-type activities so the Statement of Activities will only reflect governmental activities.

Charges for services are comprised of tuition and nutrition program fees. Nevada and Utah school districts that border White Pine County enter into tuition agreements for students that attend schools in their neighboring district. The District also provides school psychologist services to the Eureka County School District for a fee to cover the costs associated with the time and travel for the school psychologist. The District operates a nutrition program and charges students and staff for meals unless the families qualify for free meals.

Capital grants and contributions are state, federal, private grants and donations for capital items. Capital grants and contributions are not ongoing sources of revenue and the total received in any given year will vary. Expenditures are limited by the donor or grantor and are typically used for non-recurring items.

General revenues consist of local taxes, state and federal aid, and other revenue. The funding mechanism for public instruction in Nevada is designed to reduce state funding when local sources are more than anticipated.

The table on the following page illustrates the revenues, expenses, and changes in net position.

White Pine County School District's Changes in Net Position June 30, 2014

| Revenues Program Revenues: Charges for services \$ 137,559 \$ 184,803 \$ (47 Capital grants and contributions \$ 12,999 10,540 2 | | | June 30, 2014 | | |

Financial Analysis of the District's Funds

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. There are essentially three groups of funds for which financial statements are prepared: 1) governmental, 2) proprietary, and 3) fiduciary. Like other state and local governments, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. Fund financial statements are used by government entities to provide details and report activity related to the District's governmental, business-type (a.k.a. proprietary), and fiduciary funds. Because White Pine has no business-type

activities to report, the fund financial analysis will consist of governmental and fiduciary funds only.

Governmental Funds: Governmental funds are funds that account for and are related to the District's objective to provide educational and correlated services. The table below shows the sources of revenue for each of the governmental funds:

White Pine County School District

FY2014 Governmental Fund Revenues

| Revenues | Ge | eneral Fund | | Special ducation | De | Debt Services Fund | | nmajor Funds | G | Total overnmental Funds | % Total Revenue |
|-----------------|----|-------------|----|---------------------|----|-----------------------|----|--------------|----|-------------------------------|--------------------|
| Local Sources | \$ | 6,346,385 | \$ | 11.280 | \$ | 911,645 | \$ | 487,197 | \$ | 7,756,507 | 42.96% |
| State Sources | Ψ | 6,109,580 | Ψ | 665,725 | Ψ | - | Ψ | 2,485,716 | Ψ | 9,261,021 | 51.29% |
| Federal Sources | | 280,880 | | 12,226 | | - | | 745,694 | | 1,038,800 | 5.75% |
| Total Sources | | 12,736,845 | | 689,231 | | 911,645 | | 3,718,607 | | 18,056,328 | 100.00% |
| Total Sources | | 12,730,643 | | 009,231 | | 911,043 | | 3,710,007 | | 10,030,320 | 100.00 |

Local sources are derived primarily through taxes ad valorem (aka property taxes) including net proceeds of minerals, sales taxes and government services tax. State and federal sources are obtained through legislative action and can be directly or indirectly appropriated, or awarded on an application basis. Indirect appropriations are typically from the federal government and are passed through the State. Grants can either be distributed via formula or on a competitive application basis.

The table below provides an analysis of the functions the District devotes its resources to in order to carry out its objectives:

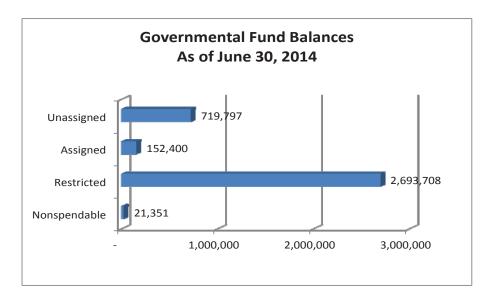

White Pine County School District FY2014 Governmental Fund Revenues

| Revenues | Ge | eneral Fund | Special Education | | De | Debt Services Fund | | Nonmajor Funds | | Total overnmental Funds | % Total Revenue |
|-----------------------------|----|-------------|----------------------|-----------|----|-----------------------|----|-------------------|----|-------------------------------|--------------------|

| | | | | | | | | | | | |

Governmental funds report the differences between their assets and liabilities as fund balance. A fund balance can be restricted and/or unrestricted. An unrestricted fund balance can be appropriated and a restricted fund balance it is not available for appropriation. Also, an unrestricted fund balance can be categorized as: 1) committed, 2) assigned, or 3) unassigned. Committed and assigned balances are designated by the governing body. These balances are typically limited or reserved for a future or specific purpose which may make them unavailable for appropriation based on the nature of the limitation(s). Unassigned balances in the general fund can be appropriated in subsequent years without restriction. According to Nevada

Administrative Code (NAC) 354.650, if the ending fund balance in the general fund of a local government has been budgeted for less than 4% of the actual expenditures for the previous year, the local government shall provide written explanation to the Department of Taxation that includes the reason for the low ending fund balance and the manner in which the local government plans to increase the fund balance. A fund balance of 8.3% or less is not subject to negotiations with local government employee organizations pursuant to NAC 354.660. Fund balances of special education, debt services, capital projects, grants, donation and other governmental funds are restricted by federal or state law or other criteria for the specific purposes of the fund and are not available for spending at the District's discretion.

As of June 30, 2014, the District realized a governmental fund balance of \$3,587,256 however only \$719,797 was unassigned and can be spent at the District's discretion. The graph below illustrates the components of the governmental fund balances:

The assigned balance of \$152,400 was designated through a Board action as a means to reserve a portion of its fund balance to meet its other post-employment benefits (OPEB) obligation for retiree health insurance. For additional information about OPEB, refer to the notes to the financial statements.

The restricted fund balance is related to the debt, capital, stabilization and other special governmental funds that are designated for a specific purpose. Each of these funds are explained in further detail later in this report.

The nonspendable balance is related to prepaid expenses. These are expenses paid in the current year for products or services for the subsequent year(s). These expenses are typically for insurance or multi-year agreements for tech support and licenses for example. There is usually an economic advantage or price break offered by the vendor that makes it cost beneficial to secure agreements for future periods.

<u>Major Funds</u>: Major funds represent the government's most important or significant funds and are determined by a mathematical calculation. In addition to the calculation, the District will also include any fund it believes is significant as a major. For example, special education has not always qualified as a major fund based on the mathematical calculation but the District believes it

is significant and has consistently reported it as a major fund. The District reported the following major funds in FY2014:

- General Fund
- Special Education
- Debt Services

General Fund: The General Fund is the District's operating fund and is not restricted. The fund is used to pay the expenditures related to the District's formative purpose and funds may be transferred to other funds, grants and programs to support services.

Special Education: The Special Education Fund accounts for the revenues and expenditures for the instruction of pupils with disabilities. Unlike the basic support per pupil guarantee (a.k.a. Basic Support) in the General Fund, special education funding is based on a "unit" and the unit dollar amount is established by the Nevada Legislature. A unit is essentially the same as one teaching position although the unit amount does not cover the full cost of a teacher. The number of teaching positions is prescribed by the State Board of Education based on special education caseloads. State revenue remained stable and the number of units remained the same.

Debt Services: The debt fund is used to account for the accumulation of resources for, and the payment of, general long-term principal and interest. Additional information about this fund is contained in the Capital Assets and Debt Administration section on the following pages.

Governmental and major fund financial statements include the Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balance.

General Fund Budgetary Highlights

The White Pine County School District prepares its budgets pursuant to Section 354 of the Nevada Revised Statutes. The provisions of the act establish the following timelines for budget preparation:

- On or before April 15, the Board must file a tentative budget with the Nevada Department of Taxation
- A public hearing is required to be held on the third Wednesday of May
- On or before June 8, the Board must adopt a final budget by majority vote
- In any year in which the legislature by law increases or decreases the revenues of a local government, the District government may, within 30 days of adjournment of the legislative session, file an amended budget
- On or before January 1 of each school year, each school district shall adopt an amendment to its final budget after the official count of pupils

The District takes advantage of these opportunities to revise its budget to include changes in weighted enrollment, fund balance, economic events, and other changes in budget assumptions.

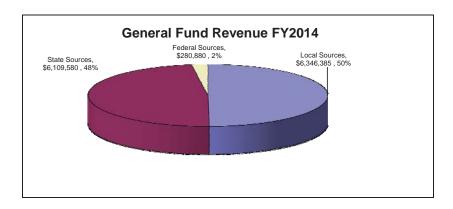

The General Fund is also referred to as the District's operating fund. This is the District's largest fund and accounted for approximately 70.5% of total governmental revenue. Total General Fund revenue increased by \$347,514 or 2.8%. Changes in state and local sources are typically inversely related. The Nevada Plan formula for funding public education is designed to provide less support from the state when local sources increase. The contrast in state revenue and local

revenue in the table below provide a good example of how the funding formula works and the relationship between local wealth and State support.

The table below and graph on the following page provides a comparison of General Fund revenue:

General Fund Revenue

| Description | FY2014 | % of Total | FY2013 | % of Total |
|---|---|------------------|---|------------------|
| Local Sources State Sources Federal Sources | \$ 6,346,385 6,109,580 280,880 | 50% 48% 2% | \$ 7,297,234 4,731,880 360,217 | 59% 38% 3% |
| Total | \$ 12,736,845 | 100% | \$ 12,389,331 | 100% |

Local sources are derived from taxes ad valorem (property taxes), net proceeds of minerals (NPM) tax, local school support tax (LSST), government services tax and other non-tax revenue collected by the District such as tuition, fees and miscellaneous items.

State revenue is appropriated on a per pupil basis. The state combines the LSST, 1/3 of the property tax (including NPM) and state revenue into an economic formula to determine a basic per pupil guarantee. This per pupil guarantee is then multiplied by the weighted enrollment as of the official count day. The enrollment is considered weighted because kindergarten students do not attend school for a full day and are counted as 60% of a full time student. The official count day is the last day of the first school month. In FY2014 weighted enrollment decreased by 78.2 students or 5.7% compared with FY2013. The decrease is due to the opening of an elementary charter school. Approximately 120 students migrated from the District to the charter school. To protect districts from adverse financial affects caused by decreases in enrollment, the Nevada Revised Statutes contain a hold harmless provision that allows districts to be funded on the highest enrollment among the current year and prior two years if enrollment declines by more than 5%. The fiscal impact of the drop enrollment will not be realized until FY2016.

Federal revenue comes predominantly from sources related to the Secure Rural Schools and Community Self-Determination Act. The District does not qualify for other federal sources such as impact aide at this time.

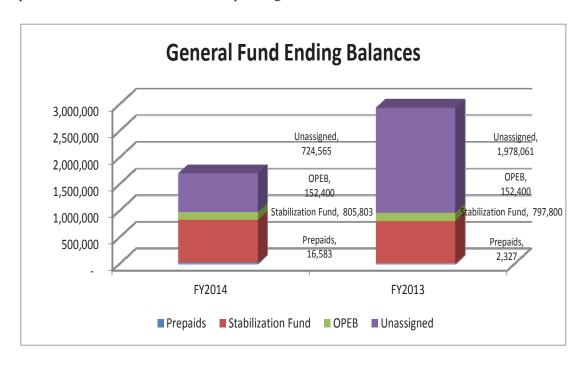

General fund expenditures will generally vary with revenue; however, the District may subsidize operations on a short-term basis with its unassigned fund balance.

The table below illustrates the General Fund expenditures excluding transfers to other funds.

General Fund Expenditures

| Description | FY2014 Actual | | FY2013 Actual | | \$ Change (Decrease) | % Change |
|---------------------------------|------------------|------------|------------------|----|-------------------------|----------|
| Expenditures | | | | | | |
| Instruction | \$ | 5,364,301 | \$ 5,096,547 | \$ | 267,754 | 5.25% |
| Student Support | | 225,544 | 225,841 | | (297) | -0.13% |
| Instructional Staff Support | | 124,909 | 100,130 | | 24,779 | 24.75% |
| General Administration | | 499,236 | 388,302 | | 110,934 | 28.57% |
| School Administration | | 1,469,753 | 1,239,176 | | 230,577 | 18.61% |
| Business Support | | 1,026,834 | 800,494 | | 226,340 | 28.28% |
| Operations & Maintenance | | 2,135,886 | 1,982,686 | | 153,200 | 7.73% |
| Student Transportation Services | | 1,212,731 | 988,993 | | 223,738 | 22.62% |
| Other Support | | 211,705 | 234,607 | | (22,902) | - |
| Total Expenditures | \$ | 12,270,899 | \$ 11,056,776 | \$ | 1,214,123 | 10.98% |

Expenditures increased because the District provided salary increases to staff and financed operations with a significant portion of its fund balance. The District also transferred \$1,697,183 of its General Fund to support special education and other restricted programs and services. The expenditures and transfers created an operating deficit of \$1,231,237.

The graph above illustrates and compares the ending balances. The District used its unassigned fund balance to cover the operating deficit.

Fiduciary Funds

Fiduciary funds are funds that are held in trust for, or on behalf of, others. The District has two types of fiduciary funds:

- School student activity accounts, or agency funds,
- Employee insurance fund

Fiduciary funds are not included in the government-wide financial statements. The fiduciary fund financial statements include the Statement of Fiduciary Net Assets and the Statement of Changes in Fiduciary Net Assets. These statements report similar information about assets, liabilities, revenues, and expenditures as the government-wide and fund financial statements.

The student activity accounts are checking accounts maintained by the schools that collect funds from fund raising activities. These funds are controlled and administered by the individual schools.

The employee insurance fund is used to account for the funds received in trust from retirees and COBRA participants and employees to pay for group insurance. After the funds are collected, they are remitted to the appropriate entities.

Capital Assets and Debt Administration

Capital assets are the property, facilities, automobiles, and equipment the District owns. New construction and facility improvements are typically conducted through property tax levies; however, the District has been unable to issue general obligation bonds or capital project levies due to statutory limitations that cap the combined property tax rate at \$3.64 per \$100 of assessed value. In November 2008, the District was successful gaining voter approval of a ballot question for a bond initiative that will lock the debt rate at 24.9 cents regardless of the changes in the property tax base. If the tax base increases and the debt rate of 24.9 cents generates more revenue than is required to pay the principal and interest on voter approved bonds, the excess can be put into a fund reserve and can be used to secure additional debt or for capital improvements on a pay as you go basis. From the time the initiative was approved through the end of FY2014, the District has transferred approximately \$1.5 to assist with capital improvements.

The Board of Trustees authorized the District to issue a general obligation bond up to \$9 million for facility improvements. This issue will not be large enough to construct or replace school facilities but will be sufficient to improve several of the facilities.

NRS 350.013 and NRS 354.5945 require school districts to update its debt management policy, indebtedness report, and five-year capital improvements plan prior to August 1 of each year. The primary capital improvement funds are the Building and Sites Fund; Extraordinary Maintenance, Repair, and Improvements Fund; and Debt Services fund. The revenue for Building and Sites is derived from interest earnings, federal grants for construction, donations, and property sales. A 1/8 cent sales tax is the source of revenue for the Extraordinary Repair Fund.

White Pine County School District's Capital Assets

(net of depreciation)

| | Governmental Activities | | | | | | | |
|-----------------------------------|-------------------------|---------------|--------|--|--|--|--|--|
| Description | 6/30/2014 | 6/30/2013 | Change | | | | | |
| | | | | | | | | |
| Land | \$ 986,274 | \$ 986,274 | 0.00% | | | | | |
| Construction in Progress | 1,500 | 25,710 | 94.17% | | | | | |
| Buildings and Improvements | 19,738,549 | 19,741,556 | 0.02% | | | | | |
| Furniture, equipment and vehicles | 1,705,332 | 1,835,541 | 7.09% | | | | | |
| Total Capital Assets, net | \$ 22,431,653 | \$ 22,589,081 | 0.70% | | | | | |

White Pine County School District's financial demand for construction and facility and grounds improvements greatly exceeds its financial supply. Financial sources available through Nevada Revised Statutes for capital improvements are either already being utilized, are at the statutory maximum, or are insufficient to fuel significant improvements. The District has approximately \$75 million in deferred construction and capital improvements and a debt rate that would secure a up to \$9 million based on the current tax base (excluding net proceeds of minerals). Without financial assistance, new construction or replacement of outdated facilities will not be possible. Federal programs designed to assist rural schools have been limited because the programs require the District match a portion of the federal grant. This match can range anywhere from 20% to 80% of the federal award. The District has had difficulty securing the funds necessary to meet the matching requirements.

Facilities that were built in the early 1900's are still in existence and are currently being used for education. Because of existing financial limitations, it is likely that these facilities will remain active and the list of deferred projects will continue to grow until economic conditions significantly change and/or legislative changes are enacted that provide financial assistance.

The fund balance in excess of required reserves is available for capital projects. Required reserves are equal to 10% of the outstanding principal or one year of principal and interest.

Debt Administration: The Debt Services Fund is used to account for the accumulation of resources for, and the payment of, general long-term principal and interest. Voter approved bond indebtedness is secured through property taxes. Statutes guarantee the District's ability to assess a property tax rate equal to principal and interest payments on voter approved general obligations. Other obligations are paid from one of more of the following:

- Government services tax (aka motor vehicle taxes)
- Interest earnings
- Fund reserves, and
- General Fund transfers
- Capital Fund transfers

In November 2008, the District was successful in obtaining voter approval of a bond rollover question. This allowed the District to assess a fixed property tax rate of 24.9 cents per \$100 of total assessed valuation (including net proceeds of mineral) for debt services instead of changing

the rate annually based on debt requirements and assessed values. Any revenue in excess of the annual bond principal and interest payments can remain in a fund reserve. After the fund reserve is greater than or equal to one year's principal and interest, any excess may be used to secure additional debt or used for capital projects. Through June 30, 2014, the Debt Services fund balance was \$1,636,462.

The voter authorization is only valid for ten years but should provide additional sources for minor capital improvements providing mining operations remain open and net proceeds of minerals continue.

The table below compares the voter approved general obligation debt with the prior year:

General Obligation Bonds As of June 30, 2014

| Description | | FY2014 | | FY2013 | % Change |
|--|----------|------------------------|----------|------------------------|--------------------|
| G.O. Refunding Bonds 2010 Series G.O. Refunding Bonds 2013 Series | \$ \$ | 2,085,000 2,048,000 | \$ \$ | 2,555,000 2,411,000 | -18.40% -15.06% |
| Total | \$ | 4,133,000 | \$ | 4,966,000 | -16.77% |

Local sources are comprised of ad valorem taxes (i.e. property taxes) including net proceeds of minerals, government services tax (GST) (a.k.a. motor vehicle taxes), interest and other financing sources. Net proceeds of minerals are a volatile revenue source and may fluctuate significantly from year to year causing significant variances when comparing local revenue from year to year.

The District currently incurs principal and interest on other obligations that are medium-term in nature and did not require voter approval. The following table compares the other outstanding obligations:

White Pine County School District Other Obligations

As of June 30, 2014

| Description | FY2014 | FY2013 | % Change |
|--|-----------------|-----------------|----------|
| Qualified Zone Academy Bonds (QZAB) | \$ 677,000 | \$ 677,000 | 0.00% |
| (Interest only through FY2014, lump sum principal payment due March 2014) PNC Equipment Finance - Lease Purchase Agreement | \$ 460,483 | \$ 499,079 | -7.73% |
| Total | \$ 1,137,483 | \$ 1,176,079 | -3.28% |

For additional detail with respect to the District obligations and debt management, please refer to the Debt Management Policy on the District's web-site under Business and Finance (http://www.whitepine.k12.nv.us).

Economic Factors and Next Year's Budgets

Despite a strengthened local economy, the State of Nevada continues to struggle financially. Nevada's financial struggles are significant because approximately half of the District's revenue comes from the State. Current factors indicate Nevada's economy has stabilized but not yet recovered. The District will be required to stabilize operations with its fund balance for a finite period that will hopefully bridge Nevada's economic slump. The District anticipates that it will exhaust its fund reserves and be forced to reduce budgets over the next biennium.

The Learning Bridge Charter School opened in FY2014 and enrolled approximately 120 students. Enrollment in the charter school will adversely affect enrollment and funding in FY2016. Because the drop enrollment is more than 5%, the District will qualify for a two-year hold harmless. This means the District will be allowed to use the highest enrollment of the current year and prior two years for funding purposes. The combination of diminished state resources and decrease in enrollment will create a significant financial challenge to the District. Charter schools are independent, self- governed schools that operate within the construct of the Nevada Public Charter School Authority and Nevada Revised Statutes. Students enrolled in charter schools are not included in the weighted enrollment of the school district. The per-pupil guarantee the District would normally receive is paid directly to the charter school. In addition to the per pupil guarantee, charter schools receive a per pupil allotment from the school district based on one third of the property taxes including net proceeds of minerals and the government services tax. These sources are commonly referred to as "outside revenue" because they are not included in the Nevada Plan funding formula. It is estimated that this will reduce operating revenue in FY2015 by approximately \$210,000. Because of the two-year hold harmless provision, the financial impact from the drop in student population will not be felt until FY2016. At that time enrollment for apportionment purposes will reflect the loss of students. Unless revenue or enrollment increases to offset the impact of the charter school, the District will be faced with a reduction of revenue of approximately \$1 million and required to reduce staff and services.

The first phase of a 510 mile 500kV transmission line project known as the Southwest Intertie Project (a.k.a. SWIP) has been completed. This first phase consisted of the construction of 235 miles of 500kV transmission line from the newly constructed Robinson Summit Substation near Ely to the Harry Allen Substation north of North Las Vegas. This transmission line has made the development of energy projects more feasible such as the Spring Valley Wind Farm developed in 2011. Other projects are being explored but not likely to be developed in the next fiscal year.

The mining industry has remained relatively stable and will most likely expand. Midway Gold is currently constructing one mining operation and another site is in the permitting stages. They expect to be pouring gold before the end of calendar year 2014 on the project currently under construction. This project is expected to employ approximately 160 employees during construction and 120 employees during operation. The second project will be developed later and is expected to have a similar impact.

Ely Gold and Minerals and Solitario Exploration & Royalty Corp. (NYSE Amex: XPL, TSX: SLR) have formed the Mt. Hamilton LLC ("MH-LLC"). According to the company's website, MH-LLC now holds 100% of the Mt. Hamilton project assets under an Operating Agreement. A Bankable Feasibility Study (BFS) of project economics was completed by SRK Consulting (US) Inc. in Feb 2012. Based on recent cost and commodity pricing, the BFS demonstrates robust economics with excellent potential for developing additional resources. General Manager, Kevin

Brown, indicated they are hopeful they will obtain federal and state permits before the first quarter of 2015. Construction could begin as early as the summer of 2015 and gold production in 2016. The mine is expected to employ approximately 130 employees from the Duckwater, Eureka and Ely areas.

Ely Gold and Minerals, Incorporated currently in the permitting stages for exploration of the recently acquired Green Springs project 35 miles west of Ely, Nevada and 7 miles south of Mt. Hamilton. According to the company's website, the property consists of 76 unpatented mineral claims and 2 mining claims covering an area of 1,500 acres. Green Springs is a past producing gold mine which produced 1.1 million metric tons of ore averaging 2.1 g/t gold and is prospective for Carlin-style gold and silver mineralization.

General Moly Incorporated, a U.S.-based molybdenum mineral development, exploration and mining company based out of Lakewood Colorado, is seeking financing for its Mt Hope Project. According to company publications, this project remains one of the world's best and largest undeveloped moly projects, and is fully permitted and construction ready. Financing for the project is tenuous however. If the project is financed, construction of Mt. Hope will take approximately two years, and at full production on a 100% basis, the Project will have the capacity to produce approximately 40 million lbs per year of moly metal. Construction employment is expected to peak at about 600 workers with a permanent mine workforce of about 400 people for the estimated 44-year mine life. The company anticipates it will hire employees from Eureka neighboring Elko and White Pine County.

The potential for economic growth in the next few years is promising. Expansion of mining and renewable energy has the potential to positively influence the local economy. However, because White Pine's economy is predominantly based on mining which has proven to be a transient industry, it is important for the school district to build sufficient reserves during the periods of economic growth to hedge for future economic declines.

Requests for Information

This report has been designed to provide an overview of the White Pine County School District's finances. Questions concerning any of the information contained herein should be addressed to:

Notes to the Financial Statements June 30, 2014

NOTE 1. Summary of Accounting Policies

Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, when applicable, the *primary government* is reported separately from certain legally separate component units for which the primary government is financially accountable. No business activities or component units are reported.

Reporting Entity

The White Pine County School District is authorized under NRS 386.010 and is governed by an elected Board consisting of seven members. The Board possesses final decision making authority and is held primarily accountable for those decisions. The Board is responsible for approving the budget, establishing spending limitations, funding any deficits and borrowing funds and/or issuing bonds to finance District operations and construction.

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government. As to the District, there are no component units which are included to form the reporting entity.

Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from the governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category—governmental and fiduciary—are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Notes to the Financial Statements June 30, 2014

NOTE 1. Summary of Accounting Policies, Continued

The government reports the following major governmental funds:

General Fund – the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Special Education Fund – used to account for revenues received for the instruction of pupils with disabilities and gifted and talented pupils in accordance with Senate Bill 569 passed in 1994.

Debt Service Fund – used to account for the accumulation of resources that are restricted, committed, or assigned for the payment of principal and interest on long-term obligations of governmental funds.

Additionally, the District reports the following fund types:

Fiduciary Funds

Employee Insurance Fund is used to account for assets held in a trustee capacity or as an agent for individuals, private organizations, or other governmental units, and/or other funds.

Student Activity Funds are custodial in nature and cannot be used to support the District's own programs.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Notes to the Financial Statements June 30, 2014

NOTE 1. Summary of Accounting Policies, Continued

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Budgets and Budgetary Accounting

Budgets are prepared, filed, noticed and public hearings held in accordance with the Local Government Budget Act (NRS 354). The Board of Trustees may prepare additional financial information and hold additional meetings and/or public hearings other than those identified in statute in order to disseminate to, and solicit information from, the general public. The provisions of this Act include the following major procedures to establish the budgetary data which is reflected in these financial statements.

- 1. On or before April 15, the Board files a tentative budget with the Nevada Department of Taxation for all funds other than Fiduciary Funds, which are not required to be budgeted. The appropriated budget is prepared by fund, function and department.
- 2. Public budget hearings on the tentative budgets are held on the third Wednesday in May.
- 3. On or before June 8, the Board indicates changes, if any, to be made to the tentative budget and adopts a final budget by the favorable vote of a majority of the members of the Board. The final budget must then be forwarded to the Nevada Department of Taxation for final approval.
- 4. On or before January 1, the Board must adopt an amendment to its final budget to reflect any necessary adjustments as a result of the District's completed pupil count.
- 5. The Department of Taxation shall examine the submitted documents for compliance with law and with appropriate regulations and shall submit to the governing body at least 3 days before the public hearing a written certificate of compliance or a written notice of lack of compliance. The written notice must indicate the manner in which the submitted documents fail to comply with law or appropriate regulations.
- 6. Whenever the governing body receives from the Department of Taxation a notice of lack of compliance, the governing body shall forthwith proceed to amend the tentative budget to effect compliance with the law and with the appropriate regulation.

The District maintains site-based budgets that identify costs associated with each site and/or department in addition to other formats that may be prescribed by the Board of Trustees or required by Nevada Revised Statutes. Each site will be recognized as a separate unit and will be analyzed as to use of resources and performance.

Generally, budgets for all funds are adopted in accordance with generally accepted accounting principles. All uncommitted appropriations lapse at fiscal year-end.

Budget changes may be required to reflect changes in revenue and/or expenditures. Any transfer, increase or decrease in budget appropriations are conducted pursuant to NRS 354.

Actual expenditures may not exceed budgetary appropriations of the various governmental functions per NRS.

Notes to the Financial Statements June 30, 2014

NOTE 1. Summary of Accounting Policies, Continued

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Receivables

Receivables, as stated in the balance sheet, are considered collectible. Accordingly, an allowance for uncollectible accounts is not deemed necessary.

Inventories and prepaid items

Expenditures for supplies held for future consumption and minor equipment purchases are charged against appropriations of all governmental funds at the time of purchase. Any inventories of such supplies at year end are not material to the individual funds and are not recognized in these financial statements.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Capital Assets

Capital assets, which include property and equipment, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

| Buildings | 35-50 years |
|-----------------------|-------------|
| Building improvements | 20-30 years |
| Equipment | 4-20 years |
| Vehicles | 5-8 years |

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures by the governmental fund upon acquisition.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item that qualifies for reporting in this category.

Notes to the Financial Statements June 30, 2014

NOTE 1. Summary of Accounting Policies, Continued

Accordingly, the item, *deferred revenue*, is reported in both the governmental funds balance sheet and the statement of net position. This item relates to net proceeds from minerals taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts apply to.

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing board is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Chief Financial Officer is authorized to assign amounts to a specific purpose in accordance with the District's budget policy pending Board approval. The board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Notes to the Financial Statements June 30, 2014

NOTE 1. Summary of Accounting Policies, Continued

Revenues and Expenditures/Expenses

Program revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. The liability for these compensated absences is recorded as a long-term liability in the government-wide statements. A liability for these accounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Prior-Year Summarized Comparative Information

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the government's financial position and operations. However, comparative data has not been presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2013, from which the summarized information was derived.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Notes to the Financial Statements June 30, 2014

NOTE 2. Reconciliation of Government-Wide and Fund Financial Statements

The governmental fund balance sheet includes a reconciliation between total governmental fund balances and net position of governmental activities as reported in the government-wide statement of net position. This difference primarily results from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheets. The details of these differences are reported in the reconciliation on page 41.

The governmental fund statement of revenues, expenditures, and changes in fund balance includes a reconciliation between net changes in fund balances-total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. These differences are the result of converting from the current resources measurement focus and modified accrual basis for governmental fund statements to the economic resources measurement focus and full accrual basis used for government-wide statements. The details of these differences are reported in the reconciliation on page 43.

NOTE 3. Deposits and Investments

Deposits and investments of the District at June 30, 2014 consist of the following:

| | Carrying mount-Fair Value |
|-----------------------------------|---------------------------------|
| Deposits: | |
| Cash in bank | \$ 1,073,586 |
| Cash in brokerage account | 223,429 |
| Investments: | |
| State Treasurer's Investment Pool | 271 |
| Fidelity Investments | 1,511,514 |
| Total cash and investments | \$ 2,808,800 |

A reconciliation of cash and investments as shown on the statement of net position is as follows:

| Cash and investments | \$ 1,669,955 |
|-------------------------------------|-----------------|
| Restricted cash and investments | 805,803 |
| Fiduciary fund cash and investments | 333,042 |
| Total cash and investments | \$ 2,808,800 |

Notes to the Financial Statements June 30, 2014

NOTE 3. Deposits and Investments, Continued

Deposits

Custodial Credit Risk

For deposits this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of June 30, 2014, none of the District's bank balance was exposed to custodial credit risk because it was insured or collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

Investments

State statutes authorize the District to invest in the State Treasurer's investment pool, bonds and debentures of the United States, obligations of the Federal Land Banks, bills and notes of the U.S. Postal Service, obligations of the Federal National Mortgage Association, short-term bonds of local governments, and banker's acceptances.

As of June 30, 2014 the District had the following investments, maturities, and quality ratings:

| | | Fair | Credit | Rating (1) | Weighted Average | | |
|-----------------------------------|----|-----------|--------|------------|---------------------|--|--|
| Investment Type | | Value | | Moodys | Maturity - Days (2) | | |
| Nevada Local Government | | | | | | | |
| Pooled Investment Fund | \$ | 271 | N/A | N/A | 80 | | |
| U.S. agency notes | | 775,204 | AA+ | Aaa | 1,349 | | |
| Bonds-certificates of deposit (3) | | 736,310 | N/A | N/A | 973 | | |
| Total Fair Value | \$ | 1,511,785 | | | | | |

- (1) Ratings are provided where applicable to indicate associated Credit Risk. N/A indicates not applicable.
- (2) Interest rate risk is estimated using the weighted average days to maturity.
- (3) FDIC insured.

Interest rate risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's policy for managing its exposure to fair value loss arising from decreasing interest rates is to comply with the provision of the Nevada Revised Statutes (NRS).

Credit risk

For an investment, this is the risk that, in the event of a failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that were in the possession of an outside party. The District does not have a formal investment policy. Credit risk is reduced by investing in the Nevada Local Government Investment pool and other investments authorized by NRS.

Notes to the Financial Statements June 30, 2014

NOTE 3. Deposits and Investments, Continued

The District is subject to the provision of GASB 31 which requires that investments be valued at their fair market value on the balance sheet date. At June 30, 2014, the District had investments with the Nevada State Treasurer with a carrying value and market value of \$271. The State Treasurer is required to have collateral pledged for amounts deposited in the pool not covered by Federal Depository Insurance. In addition, the District had cash holdings and investments in a brokerage account at fiscal year-end that were insured or collateralized.

NOTE 4. Interfund Receivables, Payables, and Transfers

Interfund account balances due to/from consisted of the following at June 30, 2014:

| | Due From | |] | Due To |
|-------------------|----------|-----------|----|-----------|
| | Otl | ner Funds | Ot | her Funds |
| | | | | |
| General fund | \$ | 351,647 | \$ | - |
| Debt service fund | | 560,793 | | - |
| Nonmajor funds | | - | | 912,440 |
| Total | \$ | 912,440 | \$ | 912,440 |

Interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers for the fiscal year ended June 30, 2014 are as follows:

| | Transfers In | Transfers Out |
|-------------------|-----------------|---------------|
| General fund | \$ - | \$ 1,697,183 |
| Special education | 1,178,126 | - |
| Debt service fund | 449,692 | 350,000 |
| Nonmajor funds | 607,116 | 187,751 |
| Total | \$ 2,234,934 | \$ 2,234,934 |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Notes to the Financial Statements June 30, 2014

NOTE 5. Capital Assets

Capital asset activity for the year ended June 30, 2014 was as follows:

| Governmental Activities: | Balance | | | | | Balance | | | | |
|--|---------|--------------|----|-------------|----|---------------------|----|--------------|-----------|--|
| | | 6/30/2013 | | Additions | | Additions Deletions | | Deletions | 6/30/2014 | |
| Capital assets, not being depreciated: | | | | | | | | | | |
| Land | \$ | 986,274 | \$ | - | \$ | - | \$ | 986,274 | | |
| Construction in progress | | 25,710 | | 988,473 | | (1,012,683) | | 1,500 | | |
| Total capital assets, not being depreciated: | | 1,011,984 | | 988,473 | | (1,012,683) | | 987,774 | | |
| Capital assets, being depreciated: | | | | | | | | | | |
| Buildings and improvements | | 31,295,985 | | 1,068,829 | | - | | 32,364,814 | | |
| Equipment and vehicles | | 5,095,612 | | 180,423 | | (128,961) | | 5,147,074 | | |
| Idle capital assets | | 1,499,938 | | | | | | 1,499,938 | | |
| Total capital assets, being depreciated: | | 37,891,535 | | 1,249,252 | | (128,961) | | 39,011,826 | | |
| Less accumulated depreciation for: | | | | | | | | | | |
| Buildings and improvements | | (11,554,429) | | (1,071,836) | | - | | (12,626,265) | | |
| Equipment and vehicles | | (3,842,023) | | (293,421) | | 127,782 | | (4,007,662) | | |
| Idle capital assets | | (917,986) | | (16,032) | | | | (934,018) | | |
| Total accumulated depreciation | | (16,314,438) | | (1,381,289) | | 127,782 | | (17,567,945) | | |
| Total capital assets, being depreciated, net | | 21,577,097 | | (132,037) | | (1,179) | | 21,443,881 | | |
| Governmental activities capital assets, net | \$ | 22,589,081 | \$ | 856,436 | \$ | (1,013,862) | \$ | 22,431,655 | | |

Depreciation expense was charged to functions/programs of the primary government as follows:

| Regular programs | \$ 833,549 |
|---|-----------------|
| Special programs | 4,117 |
| Vocational programs | 8,750 |
| Other instructional programs | 237 |
| Adult/continuing ed. programs | 120 |
| Food services | 2,690 |
| Athletics | 3,312 |
| Students | 2,747 |
| Instructional staff | 3,262 |
| General administration | 9,772 |
| School administration | 1,077 |
| Central services | 48,796 |
| Operations and maintenance | 36,754 |
| Student transportation | 102,074 |
| Other support | 10,553 |
| Site improvements | 124,577 |
| Architecture and engineering services | 14,109 |
| Building acquisition and construction | 855 |
| Building improvements (including idle capital assets) | 173,938 |
| | \$ 1,381,289 |

Notes to the Financial Statements June 30, 2014

NOTE 6. Long-Term Liabilities

Long-term liabilities at June 30, 2014 consisted of the following:

| Governmental Activities: | Balance 6/30/2013 | Additions | F | Retirements | Balance 5/30/2014 | Current Portion |
|------------------------------|-----------------------|---------------|----|-------------|-------------------|--------------------|
| Bonds payable | \$ 5,643,000 | \$ - | \$ | (833,000) | \$ 4,810,000 | \$ 1,532,000 |
| Deferred amounts: | | | | | | |
| For issuance premiums | 231,023 | - | | (46,205) | 184,818 | - |
| Capital leases payable | 499,079 | - | | (38,596) | 460,483 | 46,255 |
| Accrued compensated absences | 568,920 | 246,901 | | (259,338) | 556,483 | 237,779 |
| Net OPEB obligation | 1,174,054 | 408,896 | | (197,125) | 1,385,825 | |
| | | | | | | |
| Total long-term liabilities | \$ 8,116,076 | \$ 655,797 | \$ | (1,374,264) | \$ 7,397,609 | \$ 1,816,034 |

The aggregate maturities of notes and bonds payable are as follows:

| Period Ending | | |
|---------------|-----------------|---------------|
| June 30, | Principal | Interest |
| 2015 | \$ 1,532,000 | \$ 146,997 |
| 2016 | 883,000 | 110,425 |
| 2017 | 849,000 | 80,826 |
| 2018 | 730,000 | 50,044 |
| 2019 | 174,000 | 19,076 |
| 2020-2023 | 642,000 | 34,627 |
| | \$ 4,810,000 | \$ 441,995 |

Notes to the Financial Statements June 30, 2014

NOTE 6. **Long-Term Liabilities, Continued**

The following is a listing of long-term liabilities as of June 30, 2014:

Bonds Payable:

Governmental Activities:

General Obligation (Limited Tax) Medium-Term Bonds, Series 2005 (QZAB), with interest only payments until March 2015 when the principal is due, bearing interest at 1.99%.

677,000

General Obligation (Limited Tax) Refunding Bonds, Series 2010, with semi-annual interest payments ranging between \$14,000 and \$76,048, and annual principal payments ranging between \$435,000 and \$560,000, bearing interest from 3% to 5%, maturing June 2018.

2,085,000

General Obligation (Limited Tax) Refunding Bonds, Series 2013, with semi-annual interest payments ranging between \$1,363 and \$18,892, and annual principal payments ranging between \$85,000 and \$189,000, bearing interest from .76% to 2.87%, maturing December 2022.

2,048,000

Total bonds payable

4,810,000

Bond Issuance Premiums

184,818

Leases Payable:

Governmental Activities:

Lease payable to PNC Equipment Finance, payable in monthly installments ranging between \$4,700 and \$11,086,

bearing interest at 4.35%, maturing March 2021.

460,483 460,483

Accrued Compensated Absences

Total leases payable

556,483

Net OPEB Obligation

1,385,825

| Total long-term liabilities | 7,397,609 |
|-----------------------------|--------------|
| Less current portion: | (1,816,034) |
| Net long-term liabilities | \$ 5,581,575 |

Notes to the Financial Statements June 30, 2014

NOTE 7. Capital Leases Payable

The District has entered into a lease agreement, which is considered a capital lease in accordance with accounting standards. The lease is shown in the governmental activities of the government-wide statements. The following is an annual schedule of future minimum lease payments together with the present value of the net minimum lease payments:

| Year Ending | |
|--|---------------|
| June 30, | Total |
| | _ |
| 2015 | \$ 65,400 |
| 2016 | 69,900 |
| 2017 | 73,500 |
| 2018 | 77,100 |
| 2019 | 80,700 |
| 2020-2021 | 172,716 |
| Total remaining minimum lease payments | 539,316 |
| Less amount representing interest | (78,833) |
| Present value of net remaining minimum | |
| lease payments | \$ 460,483 |

A summary of the assets acquired through capital leases is as follows:

| | | | | umulated |
|--------------|---------|------------|-------------------|----------------------|
| Cost Expense | | pense | Decpreciation | |
| | | | | |
| 558,701 | \$ | 55,870 | \$ | 139,966 |
| 558,701 | \$ | 55,870 | \$ | 139,966 |
| | 558,701 | 558,701 \$ | 558,701 \$ 55,870 | 558,701 \$ 55,870 \$ |

NOTE 8. Property Taxes

All real property within White Pine County is assigned a parcel number in accordance with state law, with each parcel being subject to physical reappraisal every five years. A factoring system is used to adjust the appraised value during the years between physical appraisals. The valuation of the property and its improvements are being assessed at 35% of "taxable value" as defined by statute. The amount of tax levied is developed by multiplying the assessed value by the tax rate applicable to the area in which the property is located.

The maximum tax rate was established in the State Constitution at \$5.00 per hundred dollars of assessed valuation; however, as a result of the 1979 legislative sessions, the tax rate was further limited to \$3.64 per hundred dollars of assessed valuation unless an additional rate is approved by the electorate. White Pine County is currently at this maximum tax limit.

Notes to the Financial Statements June 30, 2014

NOTE 8. Property Taxes, Continued

Taxes on real property are a lien on the property and attach on July 1 of the year for which the taxes are levied.

Taxes on property are due on the third Monday in August; however, they may be made in four installments payable on the third Monday in August, and the first Mondays in October, January and March. Penalties are assessed if a taxpayer fails to pay an installment within ten days of the installment due date. After a two year waiting period, a tax deed is issued conveying the property to the County with a lien for back taxes and accumulated charges. Redemption may be made by the owner and such persons as described by statute by paying all back taxes and accumulated penalties, interest and costs before sale. Taxes on personal property are collected currently. Personal property declarations are mailed out annually and the tax is computed using percentages of taxable values established by the Department of Taxation and tax rates described above.

The major classifications of personal property are commercial, mobile homes, aircraft and agricultural. In White Pine County, taxes on motor vehicles are collected by the State. The taxes are then returned to the County of origin to be apportioned based on a statutory formula.

White Pine County collects property taxes for all entities, including the District and remits the tax collected the month following collections to the District.

NOTE 9. Nevada Plan for Local Education Agency Financing

The Nevada Plan is the means used to finance elementary and secondary education in Nevada's public schools. The State develops a guaranteed amount of funding for the District. Funding consists of State support received through the distributive school account and locally collected revenues through a 2.25 cent local school support tax and 25 cents of the ad valorem tax.

The District receives funding based on the number of students enrolled on the last day of the first school month. The funding rate is determined by a formula that considers the demographic characteristics of the District. In addition, transportation costs are included using approximately 85% of the actual historical costs adjusted for inflation according to the Consumer Price Index. A wealth adjustment based on the District's ability to generate revenues in addition to the guaranteed funding is also included in the formula.

Special education is funded on a unit basis, with the amount per unit established by the legislature. A unit includes the full-time services of licensed personnel providing a program of instruction in accordance with minimum standards prescribed by the State Board of Education. To protect the District from decreases in enrollment by 5% or more, the Nevada Revised Statutes contain a Hold Harmless Provision. If the District's enrollment decreases, the guaranteed level of funding is based on the highest enrollment figures from the prior two years. If the decrease in enrollment is less than 5%, funding is based on the prior year enrollment figures.

Under this plan, the District received \$6,109,580 in the General Fund and \$665,725 in the Special Education Fund.

Notes to the Financial Statements June 30, 2014

NOTE 10. Available Borrowing Capacity

The lawful County School District bonded indebtedness limit is established under NRS 387.400 not to exceed an amount equal to 15 percent of the total of the last assessed valuation of taxable property situated within the County School District. At June 30, 2014, the bonded indebtedness limit of White Pine County School District was \$64,979,840. The District has general obligation long-term bonds outstanding at fiscal year-end of \$4,133,000. Accordingly, the legal borrowing capacity is \$60,846,840 at June 30, 2014.

NOTE 11. Operating Leases

The District maintains the following operating leases:

- 1. The District has entered into a month-to-month lease agreement with Office Products Incorporated for the use of copy machines at an average rate of \$.018 per copy. This agreement may be canceled at anytime. Total expense related to this lease for the fiscal year ended June 30, 2014 was approximately \$44,208.
- 2. In September 1998, the District entered into a lease agreement with DVM, a Nevada LLC, for the use of a building. The agreement is for \$600 per month. This agreement has an automatic renewal each successive fiscal year and can be cancelled by either party with a 60 day written notice. The District paid \$7,200 for fiscal year ended June 30, 2014.
- 3. During fiscal year 2010 the District entered in to a lease with White Pine County to use one of its baseball fields for high school baseball practice and games. The District made improvements to the park of approximately \$64,000 in lieu of annual rental payments. The improvements were paid through the Extraordinary Repair, Maintenance and Improvement fund. After approximately six years, the District will pay \$500 per year to use the park.

There are no operating leases with initial or remaining noncancelable lease terms in excess of one year. Therefore, future minimum rental payments are not applicable.

Notes to the Financial Statements June 30, 2014

NOTE 12. Commitments and Contingencies

The White Pine County School District is obligated as follows:

Janitorial Services

The District entered into a contract with Accurate Building Maintenance, LLC for janitorial services beginning in fiscal year 2013. The agreement is for \$24,898 per month with a 3% increase in the monthly service fee on the 3rd anniversary of the agreement. The term of the agreement is for an initial period of three years. This agreement has an automatic renewal each successive fiscal year and can be cancelled by either party with a 90 day written notice.

Grants Received

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability in the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

NOTE 13. Opened Funds/Projects

The following funds/projects were opened during the year ended June 30, 2014 (donation-type projects not included): Class Size Reduction – Additional Funding, Educational Technology – Hardware, NV English Language Learner (ELL), Jobs for America's Graduates, Renewable Energy Grant, and LSTA Library Sciences.

NOTE 14. Closed Funds/Projects

The following funds/projects were closed or had no activity because of discontinuance or lack of funding (donation-type projects not included): State Ed Technology Funds, Commission on Construction Education Grant, Carl D. Perkins Competitive Reserve Grant, Substance Abuse Prevention and Treatment Agency (SAPTA) – DEN, and State Clean Diesel Grant – SchoolBus Heater NDEP.

Notes to the Financial Statements June 30, 2014

NOTE 15. Retirement Plan

Plan Description

The District contributes to the Public Employees Retirement System of Nevada (PERS), a cost sharing multiple-employer defined benefit pension plan administered by the Public Employee's Retirement System of Nevada. PERS provides retirement, disability, and death benefits to long-term public employees. The authority to establish and amend benefit provisions is retained by the Nevada State Legislature with day to day operations governed by a seven member board authorized by Title 23, Chapter 286 of the Nevada Revised Statutes. The Public Employees Retirement System issues are a publicly available financial report that includes financial statements and required supplementary information for PERS. That report may be obtained by writing to Public Employees' Retirement System of Nevada, 693 West Nye Lane, Carson City, Nevada 89703-1599 or by calling 1-775-687-4200.

Funding Policy

Member contribution rates are established by the Nevada State Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. Each employer has elected one of two contribution plans. One plan provides for matching employee and employer contributions, while the other plan provides for employer-pay contributions only. Statutory rates effective for 2013-2014 fiscal year are as follows:

Dogular

Doline and

| | Kegular | Police and | |
|-------------------------|----------------|----------------|--|
| | <u>Members</u> | <u>Firemen</u> | |
| Employer-Pay Plan (EPC) | 25.75% | 40.50% | |
| Employee/Employer Plan | 13.25% | 20.75% | |

The District's contributions to PERS for the years ended June 30, 2014, 2013, 2012 were \$2,063,502, \$1,740,573, and \$1,797,552, respectively, equal to the required contributions for each year.

NOTE 16. Stabilization Fund

NRS 354.6115 states that the governing body of a local government may, by resolution, establish a fund to stabilize the operation of the local government and mitigate the effects of natural disasters. For the fiscal year ended June 30, 2010, the District's stabilization fund was reported as a separate major fund in the financial statements. However, in accordance with GASBS 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the District's stabilization fund is included in the General Fund, as restricted fund balance, beginning with the year ended June 30, 2011. The NRS also states that the money in this fund may be used only if the total actual revenue of the local government falls short of the total anticipated revenue in the general fund for the fiscal year in which the local government uses that money; or to pay expenses incurred by the local government to mitigate the effects of a natural disaster.

In addition, NRS 354.6115 states that the balance in the stabilization amount must not exceed 10 percent of the expenditures from the general fund for the previous fiscal year, excluding any federal funds expended by the local government.

During the fiscal year ended June 30, 2014, the District complied with the provisions of this section.

Notes to the Financial Statements June 30, 2014

NOTE 17. Post Employment Healthcare Plan

Plan Description

Nevada has legislated certain unique rights to retiree medical coverage. Nevada Revised Statutes NRS 287.023 provide that, prior to December 1, 2008, (most) local agency retirees could elect to continue in their employer's health plan after retirement, or join PEBP, Nevada's health plan for non-State public agency employees (NRS 287.023 section 1). PEBP is an agent multiple-employer defined benefit postemployment healthcare plan and is governed by a nine member board of trustees. The District continued to provide medical coverage to both its active and retired employees under PEBP until July, 2010. While a number of District employees retired between September 2008 and July 2010, upon withdrawing from PEBP, only those employees who retired prior to September 1, 2008 were permitted to retain their coverage under PEBP. These are the only retirees for whom the District has an explicit subsidy liability. Because employees can no longer choose PEBP, this explicit subsidy should gradually diminish and eventually be eliminated over time providing there are no legislative or health plan changes.

Retirees who retire September 1, 2008 and later can choose to be covered by the District's medical plan. Claims data of District actives and retirees is required to be actuarially "commingled" (NRS 287.023 section 5), so that the rates for actives and (at least pre-65) retirees are the same. For those retirees that elect to stay in their present plan, the Nevada requirement to allow retirees the opportunity to continue coverage at the same premium as is charged for actives will generally create an implicit subsidy.

The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employee's Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV, 89701, by calling (775) 684-7000, or by accessing the website at www.pebp.state.nv.us/informed/financial.htm

Funding Policy

NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired district employees. Plan members receiving benefits have their monthly contributions deducted from their pension checks based on the health plan chosen by the retiree as reduced by the amount of the subsidy. Retirees qualify for a subsidy of \$102.62 at five years of service and \$564.41 at 20 years of service with incremental increases for each year of service between. The contribution requirements of plan members and the District are established and amended by the PEBP board of trustees. As a participating employer, the District is billed for the subsidy on a monthly basis and is legally required under NRS 287.023 to provide for it. For fiscal year 2014, the District contributed \$197,125 to the plan for current premiums. The District did not prefund any future benefits.

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) for the plan is calculated based on the annual required contribution of the employer (ARC) that is an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Notes to the Financial Statements June 30, 2014

NOTE 17. Post Employment Healthcare Plan, Continued

For fiscal year 2014 the District's annual OPEB cost (expense) of \$408,896 for the PEBP was equal to the ARC less adjustments. The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 is as follows:

| | | al OPEB Cost | % of Annual | | |
|-------------------|-----|--------------|-------------|----|------------|
| | (E. | ANC Cost | OPEB Cost | 1 | Net OPEB |
| Fiscal Year Ended | 1 | Method) | Contributed | | Obligation |
| 6/30/2014 | \$ | 408,896 | 48% | \$ | 1,385,825 |
| 6/30/2013 | | 402,917 | 53% | | 1,174,054 |
| 6/30/2012 | | 580,142 | 39% | | 982,904 |

The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the district's net OPEB obligation to the PEBP:

| Annual required contribution | \$ 417,460 |
|--|-----------------|
| Interest on net OPEB obligation | 46,546 |
| Adjustments to annual required contributions | (55,110) |
| Annual OPEB cost (expense) | 408,896 |
| Contributions made | (197,125) |
| Increase in net OPEB obligation | 211,771 |
| | |
| Net OPEB obligation - beginning of year | 1,174,054 |
| Net OPEB obligation - end of year | \$ 1,385,825 |

Funded Status and Funding Progress

The District's most recent actuarial valuation was as of July 1, 2012 and as of the end of the fiscal year the District has not prefunded any portion of the plan. The actuarial accrued liability (AAL) for benefits was \$5,755,971 and having not funded the obligation the District currently has no associated assets to offset this liability. Because of this the unfunded actuarial accrued liability (UAAL) is equal to the AAL. The projected covered payroll (annual payroll of active employees covered by the plan) was \$7,922,688 and the ratio of the UAAL to the covered payroll was 72.7%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between

Notes to the Financial Statements June 30, 2014

NOTE 17. Post Employment Healthcare Plan, Continued

the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2012 actuarial valuation, the entry age normal cost, level of percent of pay – closed group basis actuarial cost method was used. The actuarial assumptions included a 4 percent investment rate of return which is the target rate of return for the Nevada Public Employee Retirement System. This rate is used since state law allows trusts to be created within the retirement system for investing assets associated with other post employment benefits. If the District ultimately chooses to fund the plan, they would fund it through a trust with the assets invested by PERS. An annual healthcare cost trend rate of 9 percent is used initially, reduced by decrements to an ultimate rate of 5 percent after eight years. A standard 3 percent inflation rate was used throughout.

The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2014 is 25 years.

Assigned Fund Balance

The assigned fund balance of \$152,400 in the general fund relates to the projected other post employment benefits (OPEB) obligation on behalf of possible future retirees projected to elect coverage and be entitled to a subsidy from the District. The District has chosen to set aside, by way of this assigned fund balance, rather than maintain an insurance trust fund. Additional amounts have not been assigned.

NOTE 18. Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District assesses these risks and manages these risks through commercial insurance companies. There were no significant changes in coverage during the year ended June 30, 2014.

NOTE 19. Subsequent Event

In September 2014 the District issued \$7,000,000 in general obligation (limited tax) school improvement bonds (PSF guaranteed) to fund various capital projects. The interest rate on the bonds varies from 3 to 4 percent and the maturity date is June 1, 2030.

SUPPLEMENTARY INFORMATION

BUDGETARY COMPARISON SCHEDULES

 The Debt Service Fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

COMPARATIVE BALANCE SHEETS

FOR THE FOLLOWING MAJOR FUNDS:

- The General fund is used to account for resources traditionally associated with government which are not required legally or by sound financial management to be accounted for in another fund.
- The **Special Education Fund** is used to account for revenues received for the instruction of pupils with disabilities and gifted and talented pupils in accordance with Senate Bill 569 passed in 1994.
- The **Debt Service Fund** is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

SUPPLEMENTARY INFORMATION

COMBINING STATEMENTS AND BUDGETARY COMPARISON SCHEDULES

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for specific revenues (other than expendable trusts and capital projects) that are legally restricted to expenditure for particular purposes.

Class Size Reduction – To account for money appropriated by the Nevada State Legislature. Expenditures are restricted to reduction of class size in grades kindergarten through third.

Adult Education – This funding is provided by the Nevada legislature each year to assist with programs and services for adult high school education programs and services. Expenditures are restricted to adult high school diploma programs.

State Special Revenue Fund – To account for monies provided for State funded projects. See the list of projects on page 101.

Gifts and Donations – To account for various monies received from private organizations or individuals: McGill Sign Donation, FOSS Donations, Risk Management Grant, Donations – General, Mt. Wheeler Power – Leadership Development Program, WP High School Library Donations, Teacher Appreciation, Science Fair Donations, WP Education Community Coalition, Spring Valley Wind Donation, WP County Tourism and Rec Board, Senior FFA Scholarship Donation, McGill PTA Donation, DEN PTO – SPED, Goldman Sachs Discover Brighter Future Fund, and Pennington Foundation Donation.

Other Special Revenue Fund – To account for various monies received from private organizations or individuals: Soda Fund.

Federal Special Revenue Fund – This fund is used to account for various federally-funded projects. See the listing of projects on page 103.

School Nutrition Fund– Requested by State Department of Education and Taxation, used to pay for school nutrition program. Funded by Federal and State entitlement payments, fees and transfers from general fund.

Scholarship Fund – Donations made for the purpose of providing scholarship to students.

Capital Project Funds

Capital project funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Capital Project Fund – This fund is used to account for revenues received for capital projects from grants, taxes or private donations and the related expenditures. Within this fund, accounting is done for School Construction and Extraordinary Repair.

Building and Sites Fund – This fund is used to record transactions related to receipts of rentals, sales of school property and gifts to the District as set forth in NRS 387.335 and federal funds for construction of school facilities. Expenditures are limited as set forth in NRS 387.335.

SUPPLEMENTARY INFORMATION

COMBINING STATEMENTS AND BUDGETARY COMPARISON SCHEDULES

Nonmajor Governmental Funds

Special Revenue Funds - Projects

Special revenue funds are used to account for specific revenues (other than expendable trusts and capital projects) that are legally restricted to expenditure for particular purposes.

Class Size Reduction

Class Size Reduction – To account for money appropriated by the Nevada State Legislature. Expenditures are restricted to reduction of class size in grades kindergarten through third.

Class Size Reduction – **Additional Funding** – To account for money appropriated by the Nevada State Legislature. Expenditures are restricted to reduction of class size in grades kindergarten through third.

Adult Education

Prison Fund – To account for money appropriated by the Nevada State Legislature. Expenditures are restricted to prison adult high school diploma programs.

Adult High School Diploma – This funding is provided by the Nevada legislature each year to assist with programs and services for adult high school education programs and services.

State Special Revenue Fund

Gifted and Talented – funding is provided to introduce students to real-world engineering and vital collaboration skills through Geo-Literacy Program and First Lego League.

McGill Preschool – State funds provided to McGill Elementary to develop and operate a comprehensive preschool.

AB268 Guidance - To account for state allocation to offset the cost of an Elementary Guidance Counselor.

Education Technology – Hardware – State grant used to fund the purchase of chromebooks.

State Ed Technology Funds – State grant that supports an education technology classroom at WPHS.

School Psychologist Bonus – State grant that provides salary incentive for certified school counselors and psychologists working in the district.

Northeastern Nevada Regional Professional Development Site Facilitators – State monies received to pay for the salaries and benefits of the site facilitators in the District.

Speech pathology – State grant that provides salary incentive for nationally certified and licensed speech pathologists working in the district.

Commission on Construction Education Grant – State funds to provide vocational education in the construction trades industry.

NV English Language Learner (ELL) – State funding provided to allow SIOP training onsite.

Full Day Kindergarten – State program for full day kindergarten.

AB 580 CTE Allocation Funds – State allocation grant that provides support for career and technical education.

CTE State Competitive Grant – State CTE grant that provides funding for auto body repair and law enforcement II classes.

Jobs for America's Graduates – State funds to pay for certified teachers' salaries for Jobs for America's Graduates and Multi-year Dropout Prevention program.

Gifts and Donations

McGill Sign Donation – Donation received to purchase a new sign at McGill Elementary.

FOSS Donation – Donations to purchase science FOSS kits at DEN.

Nevada Pool - Risk Management Grant – Donation from Nevada Public Agency Insurance Pool to purchase video cameras for the school busses.

Donations – **General** – This is to account for small donations made to the District for various reasons.

Mount Wheeler Power - Leadership Development Program — Donation from Mount Wheeler Power to provide program supplies supporting leadership development at White Pine Middle School.

WP High School Library Donations – Donation to provide computers and computer tables for WPHS library.

Teacher Appreciation – Donations for District-wide employee professional development.

Science Fair Donations – Donations for bonds of science fair winners.

WP Education Community Coalition – Grant is for educational benefits for elementary school students.

Spring Valley Wind LLC Donation – Donation to facilitate students development of 21st century skills.

WP County Tourism and Rec Board – Donations used to purchase bleachers.

Senior FFA Scholarship Donation – Donations used to provide scholarships for senior FFA students.

McGill PTA Donation – Donations to account for last day of school activities and other student activities.

DEN PTO – SPED – Donations used to purchase special education material for DEN.

Goldman Sachs Discover Brighter Futures Fund – Donations used to purchase Acellus Media program for WPHS.

Pennington Foundation Donation – Donations received to purchase new hospital equipment for the Health Science classroom.

Other Special Revenue Fund

Soda Fund – Local funds generated from vending machine in central office.

Federal Special Revenue Fund

Renewable Energy Grant – Federal grant used for the purpose of purchasing materials for WPMS science classes.

LSTA Library Sciences – Federal grant used to purchase library technology and eBooks.

Title I – School Improvement – Federal funds utilized to assist disadvantaged students meet high standards and to improve under achieving schools.

Title I – School Improvement 1003(a) – Used to provide services to Title I Focus Schools in need of improvement.

Carl Perkins Basic Grant – Federal funds used to enhance occupational education and career development.

IASA Title I-A Helping Disadvantaged Students – Federal funds utilized to assist disadvantaged students meet high standards

Carl D. Perkins Competitive Reserve Grant – Federal funds used to purchase educational items for the Health Sciences Career Educational Program.

Carl Perkins NonTraditional Grant – Federal funds that allowed high school and middle school students to visit colleges.

IDEA Part B – Local Plan – Federal funds used to enhance the education of handicapped and special needs students.

IDEA – District Initiative Grant – Federal funds used to provide supplemental educational materials to meet the needs of special education students.

IDEA Part B – Early Childhood Special Education – Federal funds used to provide instructional activities and services to meet the educational needs of special education students in the pre-kindergarten age group.

Substance Abuse Prevention and Treatment Agency – **(SAPTA) WPMS** – Federal funds to provide activities for students and parents such as family nights and assemblies aimed at drug and alcohol abuse prevention.

Title II, Part A – Improving Teacher Quality – Federal funds to provide professional development for staff.

Substance Abuse Prevention and Treatment Agency – **(SAPTA) DEN** – Federal funds to provide activities for students and parents such as family nights and assemblies aimed at drug and alcohol abuse prevention.

Community Services Block Grant, Footprints Afterschool Program – Federal funds that provide supplemental materials for the after school program.

State Clean Diesel Grant – School Bus Heater NDEP – Federal funds to install fuel operated heaters in diesel-powered schools buses.

21st **Century Learning Centers** – Federal funding used to provide before and after school tutoring for McGill Elementary School, David E. Norman Elementary School and White Pine Middle School.

Capital Project Fund - Projects

Capital project funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Capital Project Fund

School Construction – This fund is used to record grants, donations and other school construction sources and the related expenditures.

Extraordinary Repair – This fund is used to record transactions related to 1/8 cent sales tax pursuant to NRS 374A and NRS 387.335. Expenditures recorded in this fund are for extraordinary maintenance, repair or improvements of existing facilities or facilities that replace those facilities.

FIDUCIARY AND AGENCY FUNDS

SCHEDULES OF CHANGES IN FIDUCIARY NET POSITION

Fiduciary funds are used to account for assets held by the government in a trustee capacity. Agency funds are used to account for assets held by the government as an agent for individuals, private organizations, other governments and/or other funds.

Student Activity Funds – These agency funds are used to maintain the operations of the various school activities. The monies actually belong to the various clubs and classes and are maintained by each school principal.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Trustees White Pine County School District Ely, Nevada

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of White Pine County School District, State of Nevada, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise White Pine County School District's basic financial statements and have issued our report thereon dated October 15, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered White Pine County School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of White Pine County School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the White Pine County School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify and deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether White Pine County School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standard*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by OMB Circular A-133

Board of Trustees White Pine County School District Ely, Nevada

Report on Compliance for Each Major Federal Program

We have audited White Pine County School District, State of Nevada's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of White Pine County School District's major federal programs for the year ended June 30, 2014. White Pine County School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about White Pine County School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, White Pine County School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of White Pine County School District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of White Pine County School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report of Independent Certified Public Accountants on Compliance with Statutes and Administrative Code in Accordance with NRS 354.624(4)(C) AND 354.6241

Board of Trustees White Pine County School District Ely, Nevada

We have audited the basic financial statements of the White Pine County School District School, State of Nevada, for the year ended June 30, 2014, and have issued our report thereon dated October 15, 2014. Our audit also included test work on White Pine County School District's compliance with selected requirements identified in the State of Nevada Revised Statutes (NRS) including, but not limited to, NRS section 354.624 and section 354.6241.

The management of White Pine County School District, State of Nevada, is responsible for the District's compliance with the Nevada Revised Statutes (NRS) and regulations (Nevada Administrative Code). Our responsibility is to express an opinion on compliance with those requirements based on our audit and make specific statements regarding funds established and the status of prior year finding and recommendations; accordingly, we make the following statements:

We noted no instances of noncompliance for the year ending June 30, 2014.

The District has complied with the provisions of NRS 354.6113.

The District has complied with the provisions of NRS 354.6115.

White Pine County School District appears to be using all of its funds expressly for the purposes for which they were created in accordance with NRS 354.624. See the Schedule of Fund Requirements Subject to the provisions of NRS 354.6241 following this report.

NRS 354.624 requires that a schedule of all fees imposed by the District which are subject to the provisions of NRS 354.5989 be presented. The District does not impose fees that are subject to NRS 354.5989.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, White Pine County School District complied, in all material respects, with the requirements indentified above for the year ended June 30, 2014.

The purpose of this report is solely to describe the scope of our testing of the applicable compliance requirements identified in the Nevada Revised Statutes (NRS) and regulations (Nevada Administrative Code) and the results of that testing based on the state requirements. Accordingly, this report is not suitable for any other purpose.

WHITE PINE COUNTY SCHOOL DISTRICT Schedule of Extraordinary Repair Fund pursuant to NRS 354.6105. Year Ended June 30, 2014

On June 25, 2000, pursuant to NRS 374A.010, the Board passed a resolution to establish a fund for the extraordinary maintenance, repair, or improvement of the District's facilities. Revenue for this fund is generated through a one-eighth of one percent sales tax in White Pine County. As required by NRS 354.6105 a separate fund has been established which may only be used for the extraordinary maintenance, repair or improvement of existing local government facilities or facilities which replace those facilities. A plan for this fund has been established. A detail of the actual and planned activity, stated on an accrual basis, in that fund follows.
