

# **Kindergarten I Can Statements-Science**

## **Motion & Stability: Forces & Interaction**

\*K-PS2-1 I can investigate how pushing or pulling on something makes it move in different ways.

\*K-PS2-2 I can figure out how to change the speed and direction of balls and other objects.

## **Energy**

\*K-PS3-1 I can describe how the sun's rays affect sand, soil, rocks, and water.

\*K-PS3-1 I can build something to protect the ground and water from the hot sun.

## **From Molecules to Organisms: Structures & Processes**

\*K-LS1-1 I can compare and contrast the types of food and shelters that different plants and animals need to live.

\*K-ESS2-1 I can tell you what the weather is like at different times of the year and how many sunny and rainy days we get in different months.

## **Earth's Systems**

\*K-ESS2-2 I can tell you ways that plants and animals dig, build, grow, and adapt to survive.

\*K-ESS3-2 I can draw pictures of plants and animals in the places they really like to live.

\*K-ESS3-2 I can be prepared for severe weather and even tell a friend how to be prepared.

## **Earth & Human Activity**

\*K-ESS3-3 I can plan ways to reduce, reuse, and recycle. I can help take care of nature.

\*K-ETS1-1 I can make a new tool or improve an old one to solve a simple problem like cracking an egg.

## **Engineering Design**

\*K-ETS1-2-4 I can draw accurate pictures of different tools doing their jobs correctly.

\*K-ETS1-3 I can compare two tools and tell you which one will do a better job.
