

# State of Connecticut Department of Education Health Assessment Record

To Parent or Guardian:

In order to provide the best educational experience, school personnel must understand your child's health needs. This form requests information from you (Part 1) which will also be helpful to the health care provider when he or she completes the medical evaluation (Part 2) and the oral assessment (Part 3).

State law requires complete primary immunizations and a health assessment by a legally qualified practitioner of medicine, an advanced practice registered nurse or registered nurse, licensed pursuant to chapter 378, a physi-

cian assistant, licensed pursuant to chapter 370, a school medical advisor, or a legally qualified practitioner of medicine, an advanced practice registered nurse or a physician assistant stationed at any military base prior to school entrance in Connecticut (C.G.S. Secs. 10-204a and 10-206). An immunization update and additional health assessments are required in the 6th or 7th grade and in the 9th or 10th grade. Specific grade level will be determined by the local board of education. This form may also be used for health assessments required every year for students participating on sports teams.

Allergies to food or bee stings Y N Any broken bones or dislocations Y N Fainting or blacking out Y  Allergies to medication Y N Any muscle or joint injuries Y N Chest pain Y  Any other allergies Y N Any neck or back injuries Y N Heart problems Y  Any daily medications Y N Problems running Y N High blood pressure Y  Any problems with vision Y N "Mono" (past 1 year) Y N Bleeding more than expected Y  Uses contacts or glasses Y N Has only 1 kidney or testicle Y N Problems breathing or coughing Y  Any problems hearing Y N Excessive weight gain/loss Y N Any smoking Y  Any problems with speech Y N Dental braces, caps, or bridges Y N Asthma treatment (past 3 years) Y  Family History  Any relative ever have a sudden unexplained death (less than 50 years old) Y N Diabetes Y N				Please pri	nt

### Part 3 — Oral Health Assessment/Screening Health Care Provider must complete and sign the oral health assessment.

To Parent(s) or Guardian(s):

State law requires that each local board of education request that an oral health assessment be conducted prior to public school enrollment, in either grade six or grade seven, and in either grade nine or grade ten (Public Act No. 18-168). The specific grade levels will be determined by the local board of education. The oral health assessment shall include a dental examination by a dentist or a visual screening and risk assessment for oral health conditions by a dental hygienist, or by a legally qualified practitioner of medicine, physician assistant or advanced practice registered nurse who has been trained in conducting an oral health assessment as part of a training program approved by the Commissioner of Public Health.
