

Clinical Internship

Clinical Internship COURSE SYLLABUS

Course Title: Health Science Internship

Course Description: Health Science Internship is a one credit course designed for students in Grade 12. This course provides students with the knowledge and skills necessary for becoming a health care worker or for preparing students for postsecondary health care education programs. Theory and laboratory components comprise at least ten percent of the course. Health Science Internship is designed to be completed in a hospital, extended care facility, rehabilitation center, medical office, imagery laboratory, or other health care facility. The prerequisite for the course is Health Science Education , Medical Therapeutics, Diagnostic Services, Rehab Careers & Medical Terminology.

Career and technical student organizations are integral, co curricular components of each career and technical education course. These organizations serve as a means to enhance classroom instruction while helping students develop leadership abilities, expand workplace-readiness skills, and broaden opportunities for personal and professional growth.

CTSO: Health Occupations Students of America (HOSA)*

*All students are encouraged to join HOSA. Membership is optional, not required. HOSA dues are \$__20__ per year.
