

## Story Telling: Year 2020

1. KTDB programming always directed towards education with special service to minority and diverse listeners. More new listeners are calling about the pandemic therefore more information on the Covid-19 virus.
2. KTDB shares with diverse audience within a remote area and closely works with local tribal government, community schools and other community businesses.
3. With ten months of Covid-19 people wanted more information on how this virus is affected different remote area of the communities, they are learning and responding on how to take care of themselves. KTDB is an essential technology used where communication is in a limited area.
4. KTDB speak 75% in Navajo Language and 25% in English. Many community elderlies do not understand or write English language. Since the COVID 19 started, everyone tuned to KTDB for updated virus information.
5. Thank you CPB, and The Government, KTDB would not have shared information with the community on the Covid-19. Thank you for funding. Without the funding, no communication or broadcast.
