

Dixon Unified School District

DUSD Netbook Checkout

By checking out a computer for my child, I understand that we are responsible to return the machine in good working order at the termination of the school closure. Failure to return the machine in good working order will result in me being charged for the machine. My signature below acknowledges acceptance of this policy.

Each computer is equipped with a Go Guardian account which prohibits users from accessing content not suitable for children. Should a user attempt to access inappropriate content, I understand that a report will be sent to District staff for follow up. While Go Guardian will block most inappropriate content, students should be monitored while using the Internet so as to ensure their safety at all times.
