ART AND BUILDING PROJECTS

Mrs. Capps' HS ART class recently took advantage of the great weather to create 3D solar system paintings. A GIANT thank you to Home Depot's Evan Perschon who helped supply some of the paint that was used to create some of these masterful works of art! Alongside us were Mr. Kepler's construction students who were leveling the structural supports of their outdoor covered seating area. It was inspiring to see the students' imaginations and creativity come to fruition.

Above Left: Isaac M., Thomas J. and Owen L. level a post; Above Right: Michael S. admires his finished 3-D painting; Below Left: Isaac M., Joey B., Owen L., Mr. Kepler and unidentified person, add in another post; Bottom Center – a finished art project. Bottom Right: the process of painting a 3-D solar system. Messy but beautiful!
