

Comprehensive School & Community Treatment Program (CSCT)

Providing counseling and behavior management support
to children and adolescents in their communities.

Introduction

The **Comprehensive School & Community Treatment Program (CSCT)** is a therapeutic service jointly provided by the Bitterroot Valley Education Cooperative (Co-op) and participating schools. It is designed for children and adolescents who are experiencing serious emotional and behavioral problems. The program offers services for preschool through high school aged youth and their families.

Using a team approach, teachers and mental health staff work closely to provide an environment where children and adolescents can be successful. The final result is youth and families learn new strategies to cope with conflicts and stress.

Our goal is to help students improve quality of life and increase academic functioning.

Services Offered

The **Comprehensive School & Community Treatment (CSCT)** Program is carried out by a licensed Mental Health Clinician, trained Behavior Specialist and School Education Personnel, who team with parents.

Services include:

- Individual and Family Counseling
- Therapeutic Recreation
- Life Skills Training
- Behavior Intervention at school and home
- Group Therapy
- Social Skills Training
- Parenting Education

*Working Together
For Success*

Eligibility

The CSCT licensed Mental Health Clinicians provide assessment and diagnostic services for referred students to determine eligibility for CSCT services.

For additional information about eligibility limitations, please call the Bitterroot Valley Education Cooperative at 777-2494 ext. 115 or ext. 116.

Funding

CSCT services are primarily billed to Healthy Montana Kids *Plus* (Medicaid). The Co-op may also serve Healthy Montana Kids (Chip), private insurance and sliding fee clients.

Financial eligibility for sliding fee services will be determined at intake.

Referring a Student

To make a referral, contact your local school counselor or administrator.
