

## ONLINE ETIQUETTE: Rules to Help the Remote Learning Process be a More Successful One

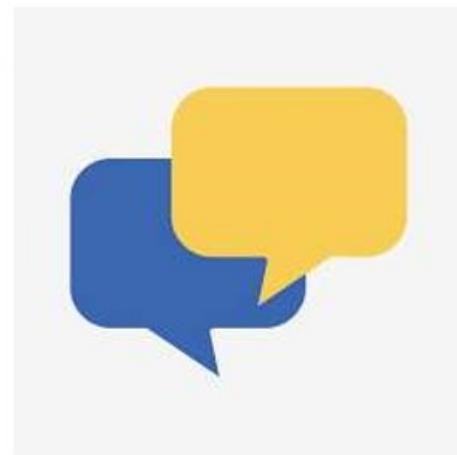

**1. Be on time for class.** The teacher cannot stop class to assist those logging in late. Try the link ahead of time to make sure it works.

**2. Be up and dressed appropriately,** or you will be removed and marked absent, until you can return dressed appropriately. Remember, everyone can see you! Also, have what is needed to learn for the day.

**3. No eating and drinking during class.** You have a scheduled lunch time, besides we have to care for our Chromebooks.

**4. Please chat responsibly** AND only chat when the teacher permits you to do so.

**5. Please be mindful of noise, mute your mic until the teacher asks you to speak.** Also, if someone is making noise in your household, that would be a good time to mute your mic, too. Always use appropriate language when speaking. Ask those in your household to do the same.

**\*\*Students can be removed from class for any violation of our online etiquette.**
