

KINDERGARTEN ART LESSON WEEK 4

April 13 - April 17

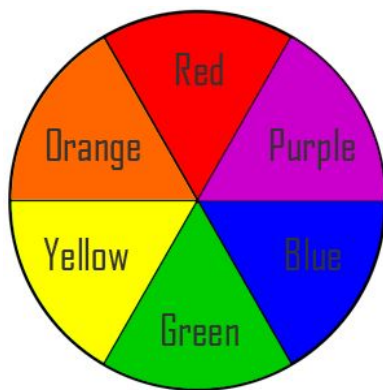

In the art lesson this week you will be learning about the color wheel! The color wheel is like a map for colors! Artists use color wheels to help them learn about colors and guess what...color wheels are in the same pattern as a **RAINBOW**.

Here are links to videos about the color wheel:

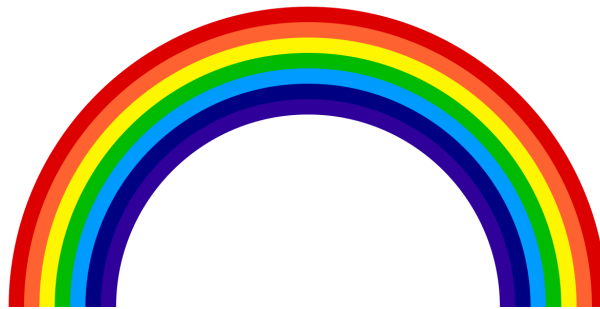

[Scratch Garden](#) - a favorite with kindergarten!

COLOR WHEEL

RAINBOW

(rainbows have an extra color called indigo, can you find it?)

Your job this week is to create a color wheel or rainbow using objects from your house! You can go around the house with your parents and create a color wheel using anything you find, such as, socks, cereal boxes, cups, toys, shoes and anything else that is the right color! Once you make a color wheel snap a picture on a phone and email it to me so I can see your work!

Email : Leah.Kilgore@carrollcountyschools.com

Here is a more advanced color wheel to match if you are up for a challenge!
