INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees Florence County School District Five Johnsonville, South Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Florence County School District No. 5 as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Florence County School District No. 5's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to on the previous page present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Florence County School District No. 5 as of June 30, 2020, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and the pension and OPEB schedules on pages 6 through 12 and 48 through 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Florence County School District No. 5's basic financial statements. The accompanying combining and individual fund financial statements and schedules listed under the other information section in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 4, 2020, on our consideration of Florence County School District No. 5's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Florence County School District No. 5's internal control over financial reporting and compliance.

Florence County School District Five's (the "District") Management Discussion and Analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide a concise overview of the District's financial status, (c) identify any changes in the District's financial position (its ability to address and meet the challenges of subsequent years), (d) provide an overview of material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

This annual report consists of four sections: (1) the basic financial statements which include government-wide statements and fund specific statements, (2) required supplementary information, (3) combined and individual fund statements and schedules for major and non major governmental funds, and (4) compliance.

Government-Wide Statements. The government-wide financial statements section provides a broad overview of the District's overall financial status, in a manner similar to a private-sector enterprise. The statement of net position is designed to be similar to bottom line results of the District and over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information regarding how net assets changed during the most recent fiscal year. All changes in net position are reported as soon as possible, regardless of the timing or related cash flows. Thus, for some items, revenues and expenses are reported in this statement that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the District include instruction, support services, community services and intergovernmental.

Fund Financial Statements. The fund financial statements give greater emphasis on individual parts of the District financial status and reports operation in greater detail than the government-wide statements.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. All of the funds of the District are governmental funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Year Ended June 30, 2020

Because the focus of governmental funds is more narrow than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information in the government-wide financial statements. By doing so, the reader may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. The District adopts an annual appropriated budget for its General Fund and for special revenue funds when required. Budgetary comparison statements have been provided as part of the required supplementary information section for these funds to demonstrate compliance with their budgets.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

In the case of the District, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$18.1 million at the close of the most recent fiscal year.

Net position of the District's governmental activities was a deficit of (\$18.1 million) at June 30, 2020. This is a negative net position due primarily to the District's proportionate share of the net pension liability and the net OPEB liability.

Unrestricted net position is the part of the net position that can be used to finance daily operations without constraints established by debt covenants, enabling legislation and other legal requirements.

Unrestricted Net Position of the District's governmental activities is a deficit of (\$26.5 million).

Net Position: For the 2019-2020 fiscal years, the District's Total Net Position was a deficit of (\$18.1 million).

Total Net Position of the District's governmental activities is a deficit of (\$18,055,702) with \$1,902,668 restricted for specific purposes. Net position of \$6,516,594 is the amount invested in capital assets, net of related debt. \$28,103,617 of the negative net position is due to the proportionate share of the net pension liability and net OPEB liability.

Year Ended June 30, 2020

The following table provides a summary of the District's net position as of June 30, 2020 and 2019:

	Govern	mental
	Acti	vities
	2020	2019
Current and Other Assets	\$ 4,287,537	\$ 3,685,241

Total Net Assets	\$ <u>(18,055,702)</u>	\$ <u>(17,617,671)</u>

By far the largest portion of the District's net position reflects negative unrestricted net position due to the District's proportionate share of the net pension and OPEB liabilities. Net investment in capital assets (e.g., land, buildings and improvements, vehicle, furniture and equipment and construction in progress); less any related debt used to acquire those assets that are still outstanding was \$6,516,594 at June 30, 2020. The District uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending.

Unrestricted net assets are the part of the net assets that can be used to finance daily operations without constraints established by debt covenants, enabling legislation and other legal requirements.

Year Ended June 30, 2020

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The following table provides a summary of the District's changes in net position for the 2018/2019 and 2019/2020 fiscal years.

Governmental Funds. The analysis of governmental funds serves the purpose of examining the sources of revenue that came into the funds, how these revenues were spent, and what is available for future expenditures. Key questions answered are:

- 1. Was enough revenue generated to cover the expenditures occurring during the 2019-2020 year?
- 2. Is there any revenue available for future expenditures at the end of the 2019-2020 fiscal year?

For the year ended June 30, 2020, the District's governmental activities funds reported fund balances of:

	<u>2019-2020</u>	<u>2018-2019</u>
Unassigned	\$ 1,631,960	\$ 1,544,637

General Fund Budgetary Highlights. The District's budget is prepared according to South Carolina Law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. The original budget was approved by the Board of Trustees at the regular scheduled meeting in May of 2019. During the course of the 2020 fiscal year, no amendments to the District's General Fund budget were made. The state revenues were over budget by \$26,961 due to an increase in state funding. Local revenues were over budget due to increased tax collections.

Year Ended June 30, 2020

Economic Factors

Florence County School District Five is located in the southeastern portion of Florence County and comprised of agriculture and limited industrial manufacturing. The "District" is primarily rural in nature. The assessed property values in the District have shown minimal changes in the past few years with a slight increase in the current year.

Fund Balances - total governmental funds	\$3,738,567
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. The cost of capital assets is \$18,850,669 and the accumulated depreciation is \$10,551,317.	8,299,352
Interest on long term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. GOVERNMENTAL FUNDS Year Ended June 30, 2020

\$939,520 Total net change in fund balance-governmental funds Amounts reported for governmental activities in the Statement of Activities are different because: Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense \$469,474 differs from capital outlays \$1,284,667 in the period. Capital outlays below the capitalization threshold \$330,950 are 484,243 reclassified as expenses. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and therefore, is not reflected in the Statement of Activities. 342,541 The issuance of long-term debt provides current financial resources to the governmental funds in the period issued, but it increases long term liabilities in the Statement of Net Position, and (1.839.050)therefore, is not reflected in the Statement of Activities. Interest on long term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. This amount is the difference between the June 30, 2020 interest in the amount of \$8,953 (7,623)and the June 30, 2019 interest in the amount of \$1,330. The increase in the liability for the net pension obligation and net pension deferred charges and credits does not require the use of current financial resources and therefore, is not reported as an expenditure in the governmental funds. (214,337)The increase in the liability for the net OPEB obligation and net OPEB deferred charges and credits does not require the use of current financial resources and therefore, is not reported as an expenditure in the governmental funds. (118,671)The increase in the liability for compensated absences does not require the use of current financial resources and therefore, is not reported as an expenditure in the governmental funds. NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Florence County School District No. 5 (the "District") have been prepared in conformity with the accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The "District" was created by the General Assembly of South Carolina as a body politic and corporate.

The accounting and reporting framework and the more significant accounting principles and practices of the "District" are discussed in subsequent sections of this Note. The remainder of the notes is organized to provide explanations, including required disclosures, of the "District's" financial activities for the fiscal year ended June 30, 2020.

Measurement Focus, Basis of Accounting and Basis of Presentation

Government-wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the "District" as a whole. These statements include the financial activities of the overall government, except for fiduciary funds. Eliminations have been made to minimize the effects of internal activities upon revenues and expenses.

Governmental activities generally are financed through taxes and intergovernmental revenues, and other non-transactions and are reported separately from business-type activities, which rely to a significant extent on charges for support. The statements distinguish between those types of activities of the "District" that are governmental and those that are considered business-type activities. The District does not have a business-type activity.

The statement of activities reports the direct expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include charges paid by the recipient of goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the "District," with certain limited exceptions. The comparison of direct expenses with program revenue identifies the extent to which each business segment or governmental function is self financing or draws from the general revenues of the "District."

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). Reimbursements are reported as reductions to expenses. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Property tax revenues are recognized in the year for which they are levied while grants are recognized when grantor eligibility requirements are met.

Year Ended June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (continued)

Fund Financial Statements

Fund financial statements provide information about the "District's" funds. The emphasis of fund financial statements are on major governmental. All remaining governmental funds are aggregated and reported as non-major funds. Fiduciary funds are reported by fund type.

Property taxes, federal and state grant programs and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Fund financial statements report detailed information about the "District."

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial report and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. On the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when incurred. Under the modified accrual basis of accounting, revenues and expenditures are recognized when they become both measurable and available.

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are appropriated by the County (see Note 3). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, interest, tuition, grants, student fees and rentals.

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Delinquent property taxes and property taxes for which there is an enforceable legal claim as of June 30, 2020, but which have not met the revenue recognition criteria, have been recorded as revenue received in advance. Grant and entitlements received before the eligibility requirements are met are also recorded as revenue received in advance. On the governmental fund financial statements, receivables that will not be collected within the available period have also been reported as revenue received in advance.

Year Ended June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (continued)

The fair value of donated commodities used during the year is reported in the statement of revenues and expenditures as an expenditure with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Governmental Financial Statements

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. The "District" considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported as expenditures in the year due.

Fiduciary Financial Statements

Fiduciary Fund types use the economic resources measurement focus and the accrual basis of accounting; they are used to account for expendable assets held by the "District" in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds and include agency funds. Fiduciary Fund Types include the following fund:

Agency Funds account for the receipt and disbursement of monies to and from student activity organizations. These funds have no equity (assets are equal to liabilities) and do not include revenues and expenditures for general operation of the "District." This accounting reflects the agency relationship of the "District" with the student activity organizations. Agency funds do not have a measurement focus.

Fund Types and Major Funds

The accounts of the government are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. There are a minimum number of funds maintained to keep the accounts consistent with legal and managerial requirements. The following major funds and fund types are used by the "District."

Governmental Fund Types:

The "District" reports the following major governmental funds:

General Fund - The General fund is the general operating fund of the "District" and is used to account for all financial resources except those required to be accounted for in another fund. All general tax revenues and other receipts that are not allocated by law or contractual agreement to other funds are accounted for in the General Fund.

Special Revenue Funds - are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The School District has three special revenue funds:

Year Ended June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (continued)

- 1. The Education Improvement Act (EIA) Fund is used to account for the revenue from the Education Improvement Act of 1984 and is legally required to be accounted for as a specific revenue source.
- 2. Special Projects Fund is used to account for financial resources provided by federal, state, and local projects and grants.
- 3. Food Service Fund -accounts for the operating activities of the "District's" student and teacher lunch and breakfast programs.

School Building Fund - is used to account for financial resources for major repairs and for the acquisition or construction of major capital facilities by the "District."

The "District" reports the following non-major governmental fund:

Debt Service Fund - is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Assets, Liabilities, and Net Position or Equity

Cash and Cash Equivalents

The "District" considers all cash on hand, demand deposits, and short-term investments with original maturities of three months or less when purchased to be cash equivalents.

Investments

The "District's" investment policy is designed to operate within existing statutes (which are identical for all funds, fund types within the State of South Carolina) that authorize the School District to invest in the following:

- A. Obligations of the United States and agencies thereof;
- B. General obligations of the State of South Carolina or any of its political units;
- C. Savings and Loan Associations to the extent that the same are insured by an agency of the Federal Government;
- D. Certificates of Deposit and funds in deposit accounts with banking institutions provided that such certificates and funds in deposit accounts are collaterally secured by securities of the type described in (a) and (b) above, held by a third party as escrow agent, or custodian of a market value, not less than the amount of the certificates or funds in deposit accounts so secured, including interest; provided, however, such collateral shall not be required to the extent the same are insured by an agency of the federal government;
- E. Collateralized repurchase agreements when collateralized by securities as set forth in above and held by the governmental entity or a third party as escrow agent or custodian; and
- F. No load open-end or closed-end management type investment companies or investment trusts registered under the Investment Company Act of 1940, as amended, where the investment is made by a bank or trust company or savings and loan association or other financial institution when acting as trustee or agent for a bond or other debt issue of that local government unit, political subdivision, or county treasurer if the particular portfolio of the investment company or investment trust in which the investment is made (i) is limited to obligations described in items (a), (b), and (e) of this subsection, and (ii) has among its objectives the attempt to maintain a constant net asset value of one dollar a share and to that end, value its assets by the amortized cost method.

Year Ended June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (continued)

G. South Carolina Pooled Investment Fund ("SC Pool") investments are invested with the South Carolina State Treasurer's Office, which established the South Carolina Pool pursuant to Section 6-6-10 of the South Carolina Code. The Pool is an investment trust fund, in which public monies in excess of current needs, which are under the custody of any city treasurer or any governing body of a political subdivision of the State, may be deposited. The Pool is a 2a 7-like pool which is not registered with the Securities and Commission ("SEC") as an investment company, but has a policy that it will operate in a manner consistent with the SEC's Rule 2a 7 of the Investment Company Act of 1940. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools," investments are carried at fair value determined annually based upon quoted market prices. The total fair value of the Pool is apportioned to the entities with funds invested on an equal basis for each share owned, which are acquired at a cost of \$1.00.

Receivables and Payables

Transactions between funds that represent reimbursement arrangements outstanding at the end of the year are referred to as "due from other funds" or "due to other funds" on the fund financial statements. These amounts are eliminated in the governmental columns of the statement of net position.

All trade and property tax receivables are shown net of an allowance for uncollectible amounts.

Inventories and Prepaid

Materials and supplies are carried in an inventory account at cost on the first-in, first-out method of accounting and are subsequently charged to expenditures when used. Inventories consist of purchased food, supplies, and commodities received from the United States Department of Agriculture as of June 30, but not consumed. The value of commodities on hand at year-end is recorded at fair value as provided by the United States Department of Agriculture.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which the services are consumed.

Capital Assets

General capital assets are those assets not specifically related to activities reported in an enterprise fund. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The "District" maintains a capitalization threshold of \$5,000 for furniture, equipment, vehicles, land, buildings and improvements. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the life of the asset's life are not capitalized.

All reported capital assets except land and construction in progress are depreciated. Construction projects will begin being depreciated once they are complete, at which time the complete costs of the project are transferred to the appropriate fixed assets category. Improvements are depreciated over the remaining useful lives of the related capital assets.

Year Ended June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (continued)

Depreciation is computed using the straight-line method over the following useful lives:

Buildings	5 -50
Improvements, other than buildings	2 -50
Equipment	3 -30

Compensated Absences

The "District" allows employees to accumulate sick leave up to a maximum of 90 days per individual. Sick leave is not paid upon termination, but will be paid upon illness while in the employment of the "District." Sick leave will be transferable to any school district in the State by an employee with the earned leave. The "District" allows employees to accumulate unused vacation days up to a maximum of 30 days for carryover from one year to the subsequent year. The amount has been reflected on the statement of net position as compensated absences.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide basic financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund basic financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments (including estimated arbitrage liabilities), compensated absences, contractually required pension contributions and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year-end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

In the government-wide basic financial statements for the Primary Government, long-term debt and other long-term obligations are reported as liabilities on the Statement of Net Position. Bond premiums and discounts, as well as bond issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Advance refunding costs are deferred and amortized over the life of the refunding bonds, which has the same maturity as the bonds that were refunded. Amortization of premiums, discounts, bond issuance costs and deferred advance refunding costs are included in interest expense. Bonds payable are reported net of the applicable bond premiums, discount and deferred advance refunding costs.

Bond issuance costs are reported as other assets and are amortized over the term of the related debt. Accrued arbitrage payable is also reflected in long-term obligations.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Year Ended June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (continued)

Fund Balance

The District reports five classifications of governmental fund balances:

<u>Nonspendable</u> - amounts that cannot be spent either because they are not in a spendable form or because they are legally or contractually required to be maintained intact.

<u>Restricted</u> - amounts that can be spent only for specific purposes because of District, state or federal laws, or externally imposed conditions by grantors or creditors.

<u>Committed</u> - amounts that can be used only for specific purposes determined by a formal action by the Board of Trustees. Commitments may be modified or rescinded only through policies approved by the Board, the highest level of decision making authority.

<u>Assigned</u> - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The Superintendent or Board may assign, modify, or rescind amounts for specific purposes.

<u>Unassigned</u> - all amounts not included in other spendable classifications.

For the government-wide financial statements, the District applies restricted resources first when an expenditure is incurred for the purposes for which both restricted and unrestricted net position are available. For the governmental funds financial statements, the District applies committed, then assigned, then unassigned resources when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Outstanding debt, which has not been spent, is included in the same net position component as the unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

When both restricted and unrestricted resources are available for use, it is the "District's" policy to use restricted resources first, then unrestricted resources as needed.

Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the "District's" management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Budgets and Budgetary Accounting

Budgetary Information

Budgets for the General Fund and the Special Revenue Funds including the EIA Funds are presented in the required supplementary section. Each budget is presented on the modified accrual basis of accounting, which is consistent with accounting principles generally accepted in the United States of America.

Each budget is presented by function and object as dictated by the State of South Carolina's adopted Program Oriented Budgeting and Accounting System and for management control purposes. The "District's" policies allow funds to be transferred between functions. However, the total budget cannot be increased beyond that level without approval of the Board in supplementary action. The legal level of control is at the fund level. During the year, the Board did not amend the budget.

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- 1. In the fall of the preceding year, the "District" begins its budget process for the next succeeding fiscal year beginning on July 1.
- 2. After the "District's" budget committee reviews all requests and allocation requirements and related revenue, it presents a tentative proposed budget to the Superintendent for his review and adjustment.
- 3. The Superintendent then presents a proposed budget to the Board of Trustees, which reviews the proposed budget, in a series of workshops, and makes any additions or deletions as deemed necessary.
- 4. Prior to July 1, the Board legally enacts the budget through passage of a resolution.

The administration has discretionary authority to make transfers between appropriation accounts. All annual appropriations lapse at fiscal year end.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation is utilized in the governmental funds.

The "District" had no outstanding encumbrances reportable for the current year-end.

NOTE 2 - DEPOSITS AND INVESTMENTS

At June 30, 2020, the carrying amount of the "District's" deposits, including Fiduciary Funds, was \$471,781 and the bank balance was \$1,032,290. The breakdown of cash reported on the financial statements is as follows:

Non-Pooled
Agency Fund \$ 193,035

Pooled General Fund

Food Service Fund

40,089 \$ 278,746

Year Ended June 30, 2020

NOTE 2 - DEPOSITS AND INVESTMENTS - (continued)

Custodial Credit Risk for Deposits: Custodial credit risk for deposits is the risk that, in the event of a bank failure, the "District's" deposits might not be recovered. The "District" does not have a deposit policy for custodial credit risk but follows the investment policy statues of the State of South Carolina. As of June 30, 2020, none of the "District's" deposits were exposed to custodial credit risk because they were unsecured and un-collateralized.

Custodial Credit Risk for Investments: Custodial credit risk for investments is the risk that, in the event of a failure, the government will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The "District" does not have an investment policy for custodial credit risk but follows the investment policy statutes of the State of South Carolina. As of June 30, 2020, none of the "District's" investments were exposed to custodial credit risk because it was unsecured or collateralized with securities held by the pledging financial institution's trust department or its agent, but not in the "District's" name.

As of June 30, 2020, the "District" had the following investments:

Investment Type	Maturities	Credit Rating	Fair Value
SC Local Government Investment Pool	Various	Unrated	\$ <u>2,110,915</u>

Credit Risk for Investments: South Carolina statutes authorize investments in certificates of deposit, savings accounts, repurchase agreements, the State Treasurer's Local Government Investment Pool, obligations of the U.S. Government and government agencies unconditionally guaranteed by the U.S. Government. The "District" has no investment policy that would further restrict its choices.

The Local Government Investment Pool (LGIP) is not rated. Further information may be obtained from the LGIP's complete financial statements. These financial statements may be obtained by writing to the following address:

Office of the State Treasurer Local Government Investment Pool Post Office Box 11778 Columbia, SC 29211

Interest Rate Risk: The "District" does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Credit Risk for Investments: The "District" places no limit on the amount it may invest in anyone issuer. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds and external investment pools are excluded from this disclosure requirement. The "District" has no other investments.

NOTE 3 - PROPERTY TAXES

Florence County, South Carolina (the County) is responsible for levying and collecting sufficient property taxes to meet funding obligations for the "District." The property taxes are considered both measurable and available for purposes of recognizing revenue and a receivable from the county at the time they are collected by the County.

Year Ended June 30, 2020

NOTE 3 - PROPERTY TAXES - (continued)

Property taxes are levied and billed by the County on real and personal properties (excluding vehicles) on October 1 based on assessed values. These taxes are due without penalty through January 15. Penalties are added to taxes depending on the date paid as follows; January 16 through February 1 - 3% of tax, February 2 through March 16 - 10% of tax, after March 16 - 5% of tax, current year real and personal property taxes become delinquent on March 17. Unpaid property taxes become a lien against the property as of June 1 of the calendar year following the levy date. The levy date for motor vehicles is the first day of the month in which the motor vehicle license expires. These taxes are due by the last day of the same month.

At June 30, 2020 the District reported total taxes receivable of \$1,269,667 for the general fund and \$660,027 for the debt service fund. Of these amounts, \$1,254,944 and \$656,709 are deemed doubtful for collection or deferred for future years for the general fund and debt service funds respectively.

Allowances for non collectibles were not necessary for the other receivable accounts, which are expected to be collected within the next twelve months.

NOTE 5 - RETIREMENT

The South Carolina Public Employee Benefit Authority ("PEBA"), created July 1, 2012 is the state agency responsible for the administration and management of the various Retirement Systems and retirement programs of the state of South Carolina, including the state Optional Retirement Program and the SC Deferred Compensation Program, as well as the state's employee insurance programs. As such, PEBA is responsible for administering the South Carolina Retirement Systems' five defined benefit pension plans. PEBA has an 11-member Board of Directors, appointed by the Governor and General Assembly leadership, which serves as custodian, co-trustee and co-fiduciary of the Systems and the assets of the retirement trust funds. The Retirement System Investment Commission (Commission as the governing body, RSIC as the agency), created by the General Assembly in 2005, has exclusive authority to invest and manage the retirement trust funds' assets. The Commission, an eight-member board, serves as co-trustee and co-fiduciary for the assets of the retirement trust funds. By law, the State Fiscal Accountability Authority (SFAA), which consists of five elected officials, also reviews certain PEBA Board decisions regarding the actuary of the Systems.

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions and pension expense information about the fiduciary net positions of the Systems and additions to/deductions from the Systems' fiduciary net position have been determined on the accrual basis of accounting as they are reported by the Systems in accordance with generally accepted accounting principles (GAAP). For this purpose, revenues are recognized when earned, and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

PEBA issues a Comprehensive Annual Financial Report ("CAFR") containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Dr., Columbia, SC 29223. PEBA is considered a division of the primary government of the State of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

Plan Description

Substantially all School District employees are members of the South Carolina Retirement System ("SCRS"). The South Carolina Retirement System ("SCRS"), a cost-sharing multiple-employer defined benefit pension plan, was established effective July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits for teachers and employees of the state, and its political subdivisions. SCRS covers employees of state agencies, public school districts, higher education institutions, other participating local subdivisions of government and individual newly elected to the South Carolina General Assembly at or after the 2012 general election.

The State Optional Retirement Program (State ORP) is a defined contribution plan that is offered as an alternative to SCRS to certain newly hired employees of state agencies, institutions of higher education, public school districts and individual first elected to the General Assembly at or after the general election in November 2012. State ORP participants direct the investment of their funds into an account administered by one of four third party record keepers. For this reason, State ORP assets are not part of the retirement systems' trust funds for financial statement purposes.

NOTE 5 - RETIREMENT - (continued)

Membership

Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented as follows.

- SCRS Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.
- State ORP As an alternative to memberships in SCRS, newly hired state, public school, and higher education employees and individuals first elected to the S.C. General Assembly at or after the November 2012 general election have the option to participate in the State ORP. Contributions to the State ORP are at the same rates as SCRS. A direct remittance is required from the employer to the member's account with the ORP service provider for the employee contribution and a portion of the employer contribution (5 percent). A direct remittance is also required to SCRS for the remaining portion of the employer contribution and an incidental death benefit contribution, if applicable, which is retained by SCRS.

Benefits

Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation. A brief summary of the benefit terms for each system is presented below.

• SCRS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five-or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of 1% or \$500 every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

Year Ended June 30, 2020

NOTE 5 - RETIREMENT - (continued)

Contributions

Actuarial valuations are performed annually by an external consulting actuary to ensure applicable contribution rates satisfy the funding parameters specified in Title 9 of the South Carolina Code of Laws. Under these provisions, SCRS contribution requirements must be sufficient to maintain an amortization period for the financing of the unfunded actuarial accrued liability (UAAL) over a period that does not exceed the number of years scheduled in state statute. Legislation in 2017 increased, but also established a ceiling for SCRS employee contribution rates. Effective July 1, 2017, employee rates were increased to a capped rate of 9.00 percent for SCRS. The legislation also increased employer contribution rates beginning July 1, 2017 for SCRS by two percentage points and further scheduled employer contribution rates to increase by a minimum of one percentage point each year through July 1, 2022. If the scheduled contributions are not sufficient to meet the funding periods set in state statute, the board shall increase the employer contribution rates as necessary to meet the funding periods set for the applicable year. The maximum funding period of SCRS is scheduled to be reduced over a ten-year schedule from 30 years beginning fiscal year 2018 to 20 years by fiscal year 2028.

Additionally, the Board is prohibited from decreasing the SCRS and PORS contribution rates until the funded ratio is at least 85 percent. If the most recent annual actuarial valuation of the Systems for funding purposes shows a ratio of the actuarial value of system assets to the actuarial accrued liability of the system (the funded ratio) that is equal to or greater than 85 percent, then the board, effective on the following July first, may decrease the then current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than 85 percent. If contribution rates are decreased pursuant to this provision, and the most recent annual actuarial valuation of the system shows a funded ratio of less than 85 percent, then effective on the following July first, and annually thereafter as necessary, the board shall increase the then current contribution rates until a subsequent annual actuarial valuation of the system shows a funded ratio that is equal to or greater than 85 percent.

The District contributed amounts equal to 100% of the required contributions for employers:

NOTE 5 - RETIREMENT - (continued)

South Carolina Retirement System Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions.

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was calculated on the basis of historical employer contributions. For the measurement period ended at June 30, 2019, the District's proportion was 0.069728%.

Measurement Period	Fiscal Year	Net Pension
Ended June 30	Ending June 30	Liability-SCRS
2019	2020	\$ 15,921,779
2018	2019	\$ 16,086,377

For the year ended June 30, 2020, the District recognized pension expense of \$1,394,349. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources.

Deferred Outflows	Deferred Inflows
of Resources	of Resources
\$ 10,945	\$ 114,379
320,847	0
140,961	0

	of Resources \$ 10,945 320,847 140,961 0 1,176,071

The \$1,176,071 of deferred outflows of resources resulting from the District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021.

The difference between projected and actual earnings on pension plan investments are reported as deferred outflows (inflows) of resources and will be amortized over a closed five-year period and recognized in pension expense in future years. The difference between expected and actual experience and the change in proportionate share of contributions are reported as deferred outflows (inflows) of resources and will be amortized over the average remaining service lives of all plan participants. Average remaining service lives of all employees provided with pensions through the pension plan at June 30, 2019, measurement date was 4.026 years for SCRS. The following schedule reflects the amortization of the District's proportional share of the net balance of remaining deferred outflows (inflows) of resources at June 30, 2020.

Year Ended June 30, 2020

Actuarial Assumptions

Actuarial valuations involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued for the period ending June 30, 2015.

The June 30, 2019 total pension liability (TPL), net pension liability (NPL), and sensitivity information were determined by PEBA's consulting actuary, Gabriel, Roeder, Smith and Company (GRS), based on an actuarial valuation performed as of July 1, 2018. The total pension liability was rolled forward from the valuation date to the fiscal year ended June 30, 2019, using generally accepted actuarial principles.

The following provides a summary of the actuarial assumptions and methods used to calculate the TPL as of June 30, 2019.

	SCRS
Actuarial Cost Method Investment rate of return ¹ Projected salary increases Benefit adjustments	Entry Age Normal 7.25% 3.0% to 12.5% (varies by service)¹ lesser of 1% or \$500 annually
¹ Includes inflation at 2.25%	

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2016 Public Retirees of South Carolina Mortality table (2016 PRSC), was developed using the Systems' mortality experience. These base rates are adjusted for future improvement in mortality using published Scale AA projected from the year 2016.

Year Ended June 30, 2020

NOTE 5 - RETIREMENT - (continued)

Assumptions used in the June 30, 2019, valuations for SCRS as follows:

Former Job Class	Males	Females
Educators	2016 PRSC Males multiplied by 92%	2016 PRSC Females multiplied by 98%
General Employees and Members of the General Assembly	2016 PRSC Males multiplied by 100%	2016 PRSC Females multiplied by 111%
Public Safety and Firefighters	2016 PRSC Males multiplied by 125%	2016 PRSC Females multiplied by 111%

Net Pension Liability

The NPL is calculated separately for each system and represents that particular system's TPL determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2019, for SCRS are presented below.

	Total	Plan	Employers'	Plan Fiduciary
	Pension	Fiduciary Net	Net Pension	Net Position as a Percentage of the
<u>System</u>	<u>Liability</u>	<u>Position</u>	Liability (Asset)	Total Pension Liability
SCRS	\$ 34,914,943	\$ 18,993,151	\$ 15,921,779	54.4%

The TPL is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the Systems' financial statements. The NPL is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are not applicable for other purposes, such as determining the plans' funding requirements.

Discount Rate

The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS will be made based on the actuarially determine rate based on provisions in the SC Code of Laws. Based on those assumptions, each System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rates of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments, is based upon 20 year capital market assumptions. The long-term expected rate of return represent assumptions developed using an arithmetic building block approach, primarily based on consensus expectations and market based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2019 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation which is summarized in the table below. For actuarial purposes, the 7.25% assumed annual investment rate of return used in the calculation of the total pension liability includes a 5.0% real rate of return and a 2.25% inflation component.

NOTE 6 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS

Non-Employee Contribution

Plan Description Full time employees of the District are provided with OPEB through the South Carolina Retiree Health Insurance Trust (SCRHITF) and the South Carolina Long-Term Disability Insurance Trust Fund (SCLTDITF)cost-sharing multiple-employer defined benefit plans. Both plans are administered by the SC Public Employee Benefit Authority (PEBA), Insurance Benefits. The SC State Treasurer is the custodian of the funds held in trust. The Board of Directors of PEBA has been designated as the Trustee. Article 5 of the State Code of Laws defines the two plans and authorizes the Trustee to at any time adjust the plans, including its benefits and contributions, as necessary to insure the fiscal stability of the plans. In accordance with the SC Code of Laws and the annual Appropriations Act, the State provides post-employment health and dental and long-term disability benefits to retired State and school district employees and their covered dependents. For purposes of measuring the net OPEB liability, deferred outflows and inflows of resources related to OPEB, and OPEB expenses, information bout the fiduciary net position of the OPEB Trust, and additions to and deductions from the OPEB Trust fiduciary net position have been determined on the same basis as they were reported by the OPEB Trusts. For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Therefore, benefit and administrative expenses are recognized when due and payable. Investments are reported at fair value. PEBA, Insurance Benefits issues audited financial statements and required supplementary information for the OPEB Trust Funds. The information is publicly available through the Insurance Benefits' link on PEBA's website at www.peba.sc.gov or a copy may be obtained by submitting a request to PEBA - Insurance Benefits, 202 Arbor Lake Drive, Columbia, SC 29223.

Benefits Provided The SCRHITF is a healthcare plan that covers retired employees of the State of South Carolina, including all agencies, and public school districts. The SCRHITF provides health and dental benefits to eligible retirees. Generally, retirees are eligible for the health and dental benefits if they have established at least ten years of retirement service credit. For new hires beginning employment May 2, 2008 and after, retirees are eligible for benefits if they have established 25 years of service for 100% employer funding and 15-24 years of service for 50% employer funding.

The SCLTDITF is a long-term disability plan that covers employees of the State of South Carolina, including all agencies and public school districts and all participating local governmental entities. The SCLTDITF provides disability payments to eligible employees that have been approved for disability.

Contributions and Funding Policies

Section 1-11-710 of the South Carolina Code of Laws of 1976, as amended, requires the postemployment and long-term disability benefits to be funded through non-employer and employer contributions for active employees and retirees to the PEBA - Insurance Benefits. Non-employer contributions consist of an annual appropriation by the General Assembly and the statutorily required transfer from PEBA - Insurance Benefits reserves.

The SCRHITF is funded through participating employers that are mandated by State statute to contribute at a rate assessed each year by the Department of Administration Executive Budget Office on active employee covered payroll. The covered payroll surcharge for the year ended June 30, 2019 was 6.05 percent. The South Carolina Retirement System collects the monthly covered payroll surcharge for all participating employers and remits it directly to the SCRHITF. Other sources of funding for the SCRHITF also include the implicit subsidy, or age-related subsidy inherent in the healthcare premiums structure. The implicit subsidy represents a portion of the health care expenditures paid on behalf of the employer's active employees. For purposes of GASB Statement No. 75, this expenditure on behalf of the active employee is reclassified as a retiree health care expenditure so that the employer's contributions towards the plan reflect the underlying age-adjusted, retiree benefit costs. Non-employer contributions include the mandatory transfer of accumulated PEBA - Insurance Benefits' reserves and the annual appropriation budgeted by the General Assembly. It is also funded through investment income.

GASB Statement No. 75 requires participating employers to recognize revenue in an amount equal to the employer's proportionate share of the change in the collective net OPEB liability arising from contributions to the OPEB plan during the measurement period from non-employer contributing entities for purposes other than the separate financing of specific liabilities to the OPEB plan. Therefore, employers should classify this revenue in the same manner as it classifies grants from other entities. For the fiscal year ended June 30, 2020, the District recognized \$76,823 as non-operating revenue from contributions from non-employer contributing entities.

PEBA, Insurance Benefits issues audited financial statements and required supplementary information for the OPEB Trust Funds. This information is publicly available through the Insurance Benefits' link on PEBA's website at www.peba.sc.gov or a copy may be obtained by submitting a request to PEBA - Insurance Benefits, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, OPEB Trust fund financial information is also included in the comprehensive annual financial report of the state.

The SCLTDITF is funded through employer contributions for active employees that elect health insurance coverage. For this group of active employees, PEBA - Insurance Benefits bills and collects premiums charged to State agencies, public school districts and other participating local governments. The monthly premium per active employee was \$3.22 for the fiscal year ended June 30, 2019. The SCLTDITF premium is billed monthly by PEBA - Insurance Benefits and transferred monthly to the SCLTDITF. It is also funded through investment income.

The net OPEB liability for the SCLTDITF related to the District is immaterial and is not disclosed or recorded.

OPEB Liabilities, OPEB Expenses, and Deferred Outflow of Resources and Deferred Inflows of Resources Related to OPEB. At June 30, 2020, the District reported a liability of \$12,697,544 for its proportionate share of the net OPEB liability for the SCRHITF. The net OPEB liability was measured as of June 30, 2019 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2018. Update procedures were used to roll forward the total OPEB liability to June 30, 2019. The District's proportion of the net OPEB liability was based on the District's contributions to the OPEB plans relative to the contributions of all participating entities. At June 30, 2019, the District's proportion was 0.08397% for the SCRHITF.

Year Ended June 30, 2020

NOTE 6 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS - (continued)

For the year ended June 30, 2020, the District recognized OPEB expense of \$681,548. At June 30, 2020 the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources.

	Deferred Outflows	Deferred Inflows
SCRHITF	of Resources	of Resources

\$472,393 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2020. Other amounts (except for change is proportionate share and contributions subsequent to measurement date) reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Actuarial Assumptions and Methods

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plans (as understood by the employer and plan participants) and include the types of benefits provided at the time the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

Valuation Date:

June 30, 2018

Actuarial Cost Method:

Entry Age Normal

Inflation:

2.25%

Investment Rate of Return:

2.75% net of OPEB Plan investment expense; including inflation

Single Discount Rate:

3.13% as of June 30, 2019

Demographic Assumptions:

Based on the experience study performed for the SC Retirement Systems for the

5-year period ending June 30, 2015

Mortality:

For healthy retirees, the 2016 Public Retirees of SC Mortality Table for Males and the 2016 Public Retirees of SC Mortality Table for Females are used with fully generational mortality projections based on Scale AA from the year 2016. Multipliers are applied to the base tables based on gender and employment type.

Health Care Trend Rate:

Initial trend starting at 6.4% and gradually decreasing to an ultimate trend rate

of 4.15% over a period of 14 years

Retiree Participation:

79% for retirees who are eligible for funded premiums

59% participation for retirees who are eligible for Partial Funded Premiums 20% participation for retirees who are eligible for Non-Funded Premiums

Notes:

There were no benefit changes during the year; the discount rate changed from

3.62% as of June 30, 2018 to 3.13% as of June 30, 2019

Roll Forward Disclosures The actuarial valuations were performed as of June 30, 2018. Update procedures were used to roll forward the total OPEB liability to June 30, 2019 (measurement date used for the Districts reporting for June 30, 2020).

Net OPEB Liability The Net OPEB Liability (NOL) is calculated separately for each OPEB Trust Fund and represents that particular Trust's Total OPEB Liability (TOL) determined in accordance with GASB No. 74 less the Trust's fiduciary net position. The allocation of each employer's proportionate share of the collective Net OPEB Liability and collective Net OPEB Expense was determined using the employer's payroll-related contributions over the measurement period. This method is expected to be reflective of the employer's long-term contribution effort as well as be transparent to individual employers and their external auditors.

At June 30, 2020, the District reported a liability for its proportionate share of the net OPEB liability of \$12,697,544. The net OPEB liability was measured as of June 30, 2019. The District's proportion of the net OPEB liability was based on contributions to SCRHITF during the fiscal year ended June 30, 2019. At June 30, 2019, the District's proportion of the total net OPEB liability was 0.08397%.

Discount Rate The Single Discount Rate of 3.13% was used to measure the total OPEB liability for the SCRHITF. The accounting policy for this plan is to set the Single Discount Rate equal to the prevailing municipal bond rate. Due to the plan's investment and funding policies, the difference between a blended discount rate and the municipal bond rate would be less than several basis points (several hundredths of one percent).

Year Ended June 30, 2020

NOTE 6 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS - (continued)

Long-Term Expected Rate of Return The long-term expected rate of returns represents assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2018 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation. This information is summarized in the following table:

	Target Asset	Expected Arithmetic Real	Allocation- Weighted Long- Term Expected Real
Asset Class	Allocation	Rate of Return	Rate of Return
US Domestic Fixed Income	80.00%	0.60%	0.48%
Cash equivalents	20.00%	0.10%	0.02%
Total	100.00%		0.50%
Expected inflation			2.25%
Total Return			<u>2.75%</u>

Sensitivity Analysis The following table presents the net OPEB liability calculated using a Single Discount Rate of 3.13%, as well as what the plan's net OPEB liability would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher:

Regarding the sensitivity of the net OPEB liability to changes in the healthcare cost trend rates, the following table presents the net OPEB liability calculated using the assumed trend rate as well as what the plan's net OPEB liability would be if it were calculated using a trend rate that is one percent lower or one percent higher:

Interfund transfers occurred to transfer EIA teacher supplemental increase, indirect costs and to supplement funding.

NOTE 9 - FUND EQUITY/NET POSITION

Reservations of fund balances of governmental funds are created to either (1) satisfy legal covenants that require a portion of the fund balance be segregated or (2) identify the portion of fund balance that is not appropriate for future expenditures. Specific reservations of the fund balance accounts are summarized below.

Restricted for Debt Service

This reserve and restriction was created to segregate a portion of the fund balance account for debt service, including both principal payments and interest payments. It is established to satisfy applicable legal restrictions imposed on resources to be expended.

Restricted for Capital Projects

This restriction was created to segregate the bond proceeds.

Assigned for Capital Projects

This assignment was created to segregate a portion of the fund balance account for future construction of an Early Childhood Development Learning Center and other building needs.

Assigned for Special Revenue

This assignment was created to segregate carryover funds for the special revenue funds.

Assigned for Medicaid Appeal

This assignment was created to segregate a portion of fund balance to fund any repayments to Medicaid as a result of an ongoing appeal.

NOTE 10 - RISK MANAGEMENT

The "District" is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The "District" pays an annual premium to the South Carolina School Board Insurance Trust for its general insurance. The South Carolina School Board Insurance Trust reinsures through commercial companies.

Year Ended June 30, 2020

NOTE 10 - RISK MANAGEMENT

The "District" acquires insurance from the South Carolina School Board Insurance Trust for job related injury and illness (workers' compensation) for its employees. Workers' compensation is insured under a retrospectively rated policy where premiums are estimated throughout the year and adjusted subsequent to the policy period based on actual experience. General blanket fidelity bond insurance from a private insurer was also maintained for the "District's" employees as well as athletic catastrophic insurance. There were no significant reductions in insurance coverage from the previous year and no settlements have exceeded insurance coverage for the past three years ended June 30, 2020, 2019, and 2018.

NOTE 11 - CONTINGENCIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the School District expects such amounts, if any, to be immaterial.

In the normal course of operations, the District may from time to time become a party to legal claims and disputes. At June 30, 2020, there were legal claims outstanding that are being handled by the SCSBIT on the District's behalf.

NOTE 12 - SUBSEQUENT EVENTS

The School District has evaluated subsequent events through November 4, 2020 the date on which the financial statements were available to be issued.

NOTE 13 - TAX ABATEMENTS

Florence County bills and collects property taxes for Florence County School District No. 5. Florence County enters into property tax abatement agreements with local businesses to encourage economic development. For the fiscal year ended June 30, 2020, the County abated \$8,858 of District property taxes.

NOTE 14 - PENDING IMPLEMENTATION OF GASB STATEMENTS

The GASB has issued the following statement:

GASB Statement No. 84, "Fiduciary Activities" The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged.

Management has not yet determined the impact implementation of these standards will have on the District's financial statements, if any.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Florence County School District No. 5 Johnsonville, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Florence County School District No. 5 as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Florence County School District No. 5's basic financial statements and have issued our report thereon dated November 4, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Florence County School District No. 5's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Florence County School District No. 5's internal control. Accordingly, we do not express an opinion on the effectiveness of Florence County School District No. 5's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore, significant deficiencies or material weaknesses may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a deficiency in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency (reported as finding #2020-001).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Florence County School District No. 5's Responses to Findings

Florence County School District No. 5's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Florence County School District No. 5's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees Florence County School District No. 5 Johnsonville, South Carolina

Report on Compliance for Each Major Federal Program

We have audited Florence County School District No. 5's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements of Title 2 U.S. *Code of Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Florence County School

District No. 5's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on Florence County School District No. 5's compliance.

Opinion on Each Major Federal Program

In our opinion, Florence County School District No. 5, complied, in all material respects, with the types of compliance requirements referred to on the previous page that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of Florence County School District No. 5 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Florence County School District No. 5's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purposed described in the first paragraph of this section and was not designed to identify all deficiencies in the internal control over compliance that might be significant deficiencies or material weaknesses and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item #2020-001, that we considered to be a significant deficiency.

Florence County School District No. 5's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Florence County School District No. 5's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

⁽¹⁾ The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Florence County School District No. 5 under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U. S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

⁽²⁾ Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

⁽³⁾ The District has not elected to use the 10% de minimis cost rate.

⁽⁴⁾ Non monetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

⁽⁵⁾ The District received \$1,091,500 from the Office of Regulatory Staff. \$764,050 of these funds were loan funds and were disbursed during the fiscal year ended June 30, 2020. These funds are therefore included in this schedule.

II. FINDINGS AND QUESTIONED COSTS - FINANCIAL STATEMENTS AUDIT

DEPARTMENT OF EDUCATION

#2020-001 Segregation of Duties

Significant Deficiency. The District does not possess sufficient personnel to properly segregate all financial functions to reduce risks of financial reporting objectives and provide safeguards for the organization's assets.

Condition: The District's management and current organizational structure cannot separate duties sufficiently to reduce risks of financial reporting objectives and provide safeguards for the organization's assets.

Criteria: Effective internal control over financial reporting should include control activities developed and maintained at various levels of the organization to reduce the risk to achieve financial reporting objectives and provide safeguards over the organization's assets.

Cause: There are insufficient personnel to properly segregate all financial functions of the District.

Effect: Increased risk to the organization of financial reporting objectives as well as safeguards over organizational assets.

Recommendation: Management should continue to evaluate the current organizational structure and determine the cost/benefit to the organization to implement additional safeguards.

Views of Responsible Officials and Planned Corrective Actions: The District agrees with the finding and the recommended procedures are being monitored on an ongoing basis to evaluate and determine the most cost effective way to provide safeguards to the organization's assets and the related financial reporting objectives.
