Parent Instructions for ECRI Routines

**We suggest you repeat these routines daily*

Irregular Word Reading:

Your student is going to learn to read new words using say-it, spell-it, say-it. Point to a word and slide your finger underneath it. As you slide your finger, read the word out loud to your student. Point to the word again and slide your finger underneath it as your student now reads the word out loud. Next, you will tap under each letter and your student will spell the word. Repeat the first step by having your student read the word a second time.

Irregular Word Reading Continued:

Your student is going to practice reading words. Point to a word and have your student say the word in their head. Slide your finger under the word. Your student will read the word out loud as you slide your finger.

Sound Spelling Review:

Your student is going to practice saying sounds. Point to a spelling, have them say the sound in their head. You will then tap under the spelling and your student will say the sound out loud.

Regular Word Reading:

Your student is going to practice reading words. Point to a word and have your student say the word in their head. Slide your finger under the word. Your student will read the word out loud as you slide your finger.

Dictation:

Your student is going to practice writing words. Select no more than 4 words from the **Regular Words list**. You will say the word out loud (without a visual example) and your student will write the word down on the dictation page.

Irregular Word Reading (continued)

You're going to practice reading words. When I point to a word, say the word in your head. When I slide my finger, read the word out loud. I'll show you how to read the first two words.

- 1. My turn.** Use the signal for each word.* Model until students are successful with the routine.
- 2. Your turn.** Go back to the first word on the chart. Use the signal for each word.*
- 3. Let's do some individual turns.** I will touch next to a word; everyone will say the word in their head. I will call one student's name and only that student will say the word out loud. Call on two to three students.

*Signal for each word

1. Touch to the left of the word. **Word?**
2. Wait 2 seconds for students to think.
3. Slide finger under the word.

Correcting Student Errors

1. Follow the *say-it, spell-it, say-it* steps 1 through 4 for each missed word.
2. Back up two words and use the signal for each word* to continue presenting the words on the chart.

🔊 This is a story about Lena and her garden. Lena was moving to a new **neighborhood**. She was sad about moving because she had to leave her garden. “This is the best garden in the world,” she said. “I shall miss it!”

🔊 Lena had planted all kinds of flowers and she loved to watch them **bloom**. She had also planted a few **berry** bushes. She gave the plants water and pulled out the weeds. Whenever she saw a sick plant, she tried to make it better.

3

🔊 Lena looked out the window at her garden. She knew that a new family was going to buy the house. She wondered if the new owners would know how to take care of her garden.

4

She thought hard all night long. Then she had an idea. She wrote some directions and told the new owners just how to care for the garden.

5

Lena left the directions for the new owners when she moved. She got right to work planting a garden in her new yard, but she often thought of her old garden.

6

▶ One night Lena dreamed about her old garden. In her dream, all the flowers had turned brown.

▶ Then a noise woke her up. Lena was upset. "Oh, I hope the new owners are taking good care of my garden!" she cried loudly.

▶ Dear Lena,
I love my new home, and most of all I like the garden.

Thank you for leaving such good directions for taking care of it!

Your friend,
Dolly

▶ A few days later, Lena got a letter and a picture. They made her feel much better.

Dear Dolly,

I am so glad that you like the garden! I have planted a garden in my new yard. The flowers are just starting to bloom.

Your friend,
Lena

Lena was so happy. She wrote Dolly a letter right away. Lena sent Dolly a picture, too.

The next Saturday, Lena and her family visited the old house. She thought that the garden looked great.

Dolly said, "Thanks for teaching me how to take care of your garden!"

"Thanks for doing such a great job!" replied Lena.

Match and Solve

Match the equation with the picture then solve the equation. Circle any groups of ten made by the ones when put together.

$\begin{array}{r} 16 + 2 = ___ \\ \swarrow \quad \searrow \\ 10 \quad 6 \end{array}$	$\begin{array}{r} 7 + 33 = ___ \\ \swarrow \quad \searrow \\ 30 \quad 3 \end{array}$	$\begin{array}{r} 45 + 4 = ___ \\ \swarrow \quad \searrow \\ 40 \quad 5 \end{array}$
$\begin{array}{r} 25 + 3 = ___ \\ \swarrow \quad \searrow \\ 20 \quad 5 \end{array}$	$\begin{array}{r} 3 + 21 = ___ \\ \swarrow \quad \searrow \\ 20 \quad 1 \end{array}$	$\begin{array}{r} 9 + 11 = ___ \\ \swarrow \quad \searrow \\ 10 \quad 1 \end{array}$

Find *the* Match

Match the picture with the equations and tens or ones breakdown.

$$2 + ___ = 9$$

$$7 + ___ = 10$$

$$___ + 2 = 4$$

$$___ + 5 = 5$$

$$6 + ___ = 8$$

$$3 + ___ = 7$$

$$4 - 2 = ___$$

$$9 - 2 = ___$$

$$5 - 5 = ___$$

$$10 - 7 = ___$$

$$7 - 3 = ___$$

$$8 - 6 = ___$$

Sketch *and* Solve

Draw a picture to help you solve the problem.

Jonah has 13 frogs. 5 are boys and the rest are girls. How many are girls?

Marcie wants 3 green candies and 9 blue candies. How many candies does she want?

Levi sees some red flowers and 10 blue flowers. He saw 18 in all. How many flowers were red?

Taylor eats 17 grapes. 5 grapes are red and the rest are green. How many are green?

Jimmy wants 6 chocolate chip cookies and 8 peanut butter cookies. How many cookies does he want?

Carla has some gold fish and 9 beta fish. She has 16 fish in all. How many are gold fish?

Information to Parents & Guardians,

This week we are on to the next adventure! This unit is more self directed and interest driven. AND it requires you to get outside and explore!

There is so much to learn just out your back door. Take a trip with your family up into the woods, or just right in your backyard. Keep your eyes open and be sure to look ALL around. That is the key, LOOK with exploring eyes. You might notice when you stop to really look around, you will see things you've never seen before.

To start, let's talk about **Living and Non-Living** things. *A Living thing needs food, water and air to grow. A Non-Living thing does not need food, water or air to grow AND does not grow.* As you explore outside find at least 4 Living things & 4 Non-Living things and sort them out in the chart below.

LIVING	NON-LIVING

Compare & Contrast

How are Living & Non-Living things different? Go find an **earthworm and a stick** about the same size. Now, you are going to perform a simple experiment, record your observations, and form a conclusion. Lay the earthworm and the stick on their own paper plate (or whatever suits you best). Now perform the below tests:

What happens when you touch it?

What happens when you put a drop of water on it?

What happens when you feed it?

Record your observations in the table below:

	Touch it	Drop water on it	Feed it
Earthworm			
Stick			

What conclusion can you make based on your observation of Living and Non-Living things?

Organism Study

Now that you have a good idea of what a Living thing is defined as we can go on a nature hunt! Oh, and bring your journal! If you have a magnifying glass bring that too! Another word for a Living thing is an **Organism**. As you go out into your backyard, or with your parents into the woods, look for different Organisms that are interesting to you. When you stop to study an organism make sure you spend a lot of time really looking at it. How do you know it is a Living thing? Draw the details of the organism. Really look at its location. Why do you think it likes it there? Is it receiving food of some sort there? Write your thoughts and questions. Include details! When you get back home do some research on the organisms you found. I cannot wait to hear about what you saw and learned.

If you need an example of an organism to study I suggest **Lichen or Mushrooms**. But be careful! Some mushrooms are poisonous. Have the adult with you do the touching of the mushrooms. Research types of mushrooms. Draw and write about the mushrooms you find. Below are some links that might help you get started. Remember, this is only a suggestion. You are the leader here. You have the freedom to explore any organism of your choice.
