

Keplar's 3rd Grade

We will be trying to create a space where your child won't be sharing supplies with other students. In order to do this, your child will have a designated area to place his/her supplies. If possible, try to have doubles of supplies that you think they may run out of. In the event of school being done from home, your child can bring their supplies from school, or you can have a set at home.

A crate to keep their backpack, coat, lunchbox, or whatever they need stored. A good one is the milk crate type at Wal-Mart.
